Beacon Press

A surprising and revealing look at what Americans really believe about taxes. Conventional wisdom holds that Americans hate taxes. But the conventional wisdom is wrong. Bringing together national survey data with in-depth interviews, Read My Lips presents a surprising picture of tax

attitudes in the United States. Vanessa Williamson demonstrates that Americans view taxpaying as a civic responsibility and a moral obligation. But they worry that others are shirking their duties, in part because the experience of taxpaying misleads Americans about who pays taxes and how much. Perceived "loopholes" convince many income tax filers that a flat tax might actually raise taxes on the rich, and the relative invisibility of the sales and payroll taxes encourages many to underestimate the sizable tax contributions made by poor and working people. Americans see being a taxpayer as a role worthy of pride and respect, a sign that one is a contributing member of the community and the nation. For this reason, the belief that many Americans are not paying their share is deeply corrosive to the social fabric. The widespread misperception that immigrants, the poor, and working-class families pay little or no taxes substantially reduces public support for progressive spending programs and undercuts the political standing of low-income people. At the same time, the belief that the wealthy pay less than their share diminishes confidence that the political process represents most people. Upending the idea of Americans as knee-jerk opponents of taxes, *Read My Lips* examines American taxpaying as an act of political faith. Ironically, the depth of the American civic commitment to taxpaying makes the failures of the tax system, perceived and real, especially potent frustrations.

Prentice Hall's Federal Taxation 2014 Individuals Cengage Learning

Explores what it means to be undocumented in a legal, social, economic and historical context In this illuminating work, immigrant rights activist Aviva Chomsky shows how “illegality” and “undocumentedness” are concepts that were created to exclude and exploit. With a focus on US policy, she probes how people, especially Mexican and Central Americans, have been assigned this status—and to what ends. Blending history with human drama, Chomsky explores what it means to be undocumented in a legal, social, economic, and historical context. The result is a powerful testament of the complex, contradictory, and ever-shifting nature of status in America.

Wiley CPAexcel Exam Review Spring 2014 Study Guide Cengage Learning

Master today's tax concepts and current tax law with  
**SOUTH-WESTERN FEDERAL TAXATION 2022:**  
**INDIVIDUAL INCOME TAXES, 45E** and accompanying

*South-western Federal Taxation 2014* South-Western College Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain

---

and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

**South-Western Federal Taxation 2018: Essentials of Taxation: Individuals and Business Entities** Cengage Learning

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and

---

varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.
