This is our original paper model, designed by Nina Heimpel, at Swales Aerospace. Please also note that the design of the spacecraft has changed slightly since this was designed. There is a momentum flap on the back and the solar panel array has changed. The model is approximately 1/80th scale. The files you will need for building the model:

The International Space Station is the largest and most complicated spacecraft ever built. It is being constructed by a collaboration of one hundred thousand people, hundreds of companies, and sixteen nations spread over four continents. The space station is in a low Earth orbit and can be seen from Earth with the unaided eye.

Building paper models of spacecraft is a fun and interactive way to learn more about NASA's missions. Models are available for easy, moderate and more challenging skill sets. Each model has assembly instructions and printable parts; assembly requires printing, cutting, folding and gluing.

Aeolus Model Instructions. Print the page of Aeolus parts on an A4 size sheet of thick paper. You will need some small scissors, a craft knife, a ruler and glue. A - Body of the satellite. Cut out the body of the satellite. Cut along the two red slits with the cutter. Run the blunt side of the scissors along a ruler to score the body and flap fold lines.
