From Arthur C. Clarke, the brilliant mind that brought us 2001: A Space Odyssey, and Stephen Baxter, one of the most cogent SF writers of his generation, comes a novel of a day, not so far in the future, when the barriers of time and distance have suddenly turned to glass. When a brilliant, driven industrialist harnesses cutting-edge physics to enable people everywhere, at trivial cost, to see one another at all times--around every corner, through every wall--the result is the sudden and complete abolition of human privacy, forever. Then the same technology proves able to look backward in time

as well. The Light of Other Days is a story that will change your view of what it is to be human. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The first-draft Alien screenplay by William Gibson, the founder of cyberpunk, turned into a novel by Pat Cadigan, the Hugo Award-Winning "Queen of Cyberpunk." William Gibson's never-before-adapted screenplay for the direct sequel to *Aliens*, revealing the fates of Ripley, Newt, the synthetic Bishop, and Corporal Hicks. When the Colonial Marines vessel Sulaco docks with space station and military installation Anchorpoint, a new form of Xenomorph appears. Written by Hugo Award-winning novelist and "Queen of Cyberpunk" Pat Cadigan, based on Gibson's never-produced first draft. The Sulaco—on its return journey from LV-426—enters a sector controlled by the "Union of Progressive Peoples," a nation-state engaged in an ongoing cold war and arms race. U.P.P. personnel board the Sulaco and find hypersleep tubes with Ripley, Newt, and an injured Hicks. A Facehugger attacks the lead commando, and the others narrowly escape, taking what remains of Bishop with them. The Sulaco continues to Anchorpoint, a space station and military installation the size of a small moon, where it falls under control of the military's Weapons Division. Boarding the Sulaco, a team of Colonial Marines and scientists is assaulted by a pair of Xenomorph drones. In the fight Ripley's cryotube is badly damaged. It's taken aboard Anchorpoint, where

Ripley is kept comatose. Newt and an injured Corporal Hicks are awakened, and Newt is sent to Gateway Station on the way to Earth. The U.P.P. sends Bishop to Anchorpoint, where Hicks begins to hear rumors of experimentation—the cloning and genetic modification of Xenomorphs. The kind of experimentation that could yield a monstrous hybrid, and perhaps even a Queen. ALIEN 3 TM & © Twentieth Century Films. All rights reserved.

The ultimate prepper's adventure—*The Journey* begins here. Nathan Owens was just topping up his tank when the gas pump stopped working. So did the radio. And the lights. Then planes starting falling out of the sky, and plutonium-powered satellites began to explode. A massive solar storm—the Coronal Mass Event that had been predicted for years—finally hit Earth, and the electromagnetic pulse it created instantaneously threw the world back to the Bronze Age. Soon the radioactive fallout from space would spread death and disease across the globe. Owens and his friends had been preparing for something like this for years, and now it had finally happened. But it came at the worst possible time. He was a thousand miles away from his family and his redoubt—and his only chance to survive the dark days ahead. If he ever hoped to escape, he would have to draw together a team of survivalists to save those nearby before he could even begin the last, most important journey of his life. And there was one thing he hadn't counted on at all—the EOTWAWKI wasn't just a natural disaster. There was a sinister, almost omnipotent human force behind it—and it wanted him dead. **Titan Unveiled** St. Martin's Press Come explore an incredible LEGO® universe in *LEGO Space: Building the Future*. Star Trek: The Artistry of Dan Curry Zertex Media Ltd

The galaxy just called for help. Unfortunately, the wrong man answered. When small-time conman, Cal Carver, is thrown in jail and forced to share a cell with a semi-naked cannibalistic serial killer, he's pretty sure his day can't get any worse. Boy, is he wrong. It isn't until two-thirds of the human race is wiped out and Cal is mistakenly abducted by aliens that things really start to go downhill. Whisked across the galaxy, Cal

is forced into a team of some of the sector's most notorious villains and scumbags and tasked with delivering a package to a warlord-run solar system where the authorities daren't venture. The mission should be simple enough, but as one screw-up leads to another the ragtag group of unwitting heroes find themselves in a frantic battle to save an entire alien civilization - and its god - from total annihilation. Featuring epic space battles, hilariously snarky characters, and a shapeshifting blob with the face of Tobey Maguire, *Space Team* is the first book in the internationally bestselling series by award-winning author, Barry J. Hutchison. Perfect for fans of *The Hitchhiker's Guide to the Galaxy*, *Galaxy Quest*, *Guardians of the Galaxy*, and pretty much anything else with the word 'Galaxy' in the title.* *Except Samsung's Galaxy S series, which is a range of mobile devices, and so not really similar.
