Everybody loves KJ. Especially the geeks. See, KJ Miller is super nice, smart, pretty, the stage manager of her high school's spring musical . . . and a total geek magnet. She's like the geek pied piper of Washington High, drawing every socially clueless guy in a five-mile radius. If only Cameron, the hottest guy in school, would follow her around and worship her the way her entourage of dorks do. Enter Tama Gold, queen of the popular crowd, and solution to all of KJ's problems. KJ is too nice, and the nice girl never gets the guy. Tama's ready to

help KJ get cruel, ditch the dorks, and win Cameron's heart. But is KJ?

Mitchell is an alpha among alphas in the brutal Mountain Ridge Pack. He rules with equal parts fear and respect, but his pack is growing restless after decades without an heir to his proverbial throne. Only an alpha and an omega pair can sire another alpha to lead the pack, but Mitchell's not-so-secret shame is the fact that he hasn't been able to impregnate any of his female omegas. Unlike the other weaker packs, the Mountain Ridge wolves have always kept their omegas in line and at a safe distance through the infamous yet efficient Breeding Program. On the recommendation of an old rival turned tentative friend, Mitchell decides to try his hand--among other things--in a last-ditch effort at siring an heir with a rare male omega. When a transfer request for one of the only male omegas in the pack uncovers unspeakable abuse and corruption within the Breeding Program, the

very future of the pack is thrown into question.

-Angel's heart has turned to stone after a lifetime of abuse at the hands of the alpha shifters who oversee the Breeding Program in his pack unit. The only love he has left belongs to the three other omegas he shares his little corner of hell with. Angel will do whatever it takes to protect them, even if it means becoming the mate of the top alpha himself. Angel knows better than to believe the gruff Mitchell when he claims that he's not like the others. Despite his best attempts to steel himself against the strange bond that forms between them, Angel discovers that Mitchell is the most dangerous alpha of all because he wants the one thing Angel has sworn never to give--his heart. With war looming on the horizon, a pack in chaos and two hardened hearts melted by an unlikely spark of love, only one outcome is certain. The Mountain Ridge Pack will never be the same. Disclaimer: See inside cover for content warnings. This is the second book in The Mountain Shifters series. Reading His Unclaimed Omega may

Acupuncturist and herbalist Aimee Raupp, M.S., L.Ac., offers a holistic plan for healing from autoimmune disease through reconnection to yourself, renewal of your beliefs, and reawakening of your health. This book will guide you on a life-changing path to radically shift your health and love your body more. Raupp posits that the rampant rise in autoimmune illness is due to three co-existing factors: body disconnect (a loss of connection to the spiritual, emotional, and physical aspects of self, resulting in systemic body chaos), behavioral sabotage (where deep-rooted beliefs

negatively dictate your behavior, which dictates your health), and environmental toxins (exposure to external disease-promoting elements). With warmth, sensitivity, and practicality, Raupp will help you to resurrect your full potential to happily and gracefully inhabit your body and mind. As you follow Raupp ' s two-phase Body Belief diet and Body Belief lifestyle roadmap, your health will begin to thrive, both inside and out. Included are a diet plan, shopping lists, menus, meditations, mantras, and DIY and commercial suggestions for bath, beauty, and home products for self-care.

Brilliant. Colorful. Visionary. Tenacious. Witty. Since his appointment to the Supreme Court in 1986, Associate Justice Antonin Scalia has been described as all of these things and for good reason. He is perhaps the best-known justice on the Supreme Court today and certainly the most controversial. Yet most Americans have probably not read even one of his several hundred Supreme Court opinions. In *Scalia Dissents*, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, lets Justice Scalia speak for himself.

This volume—the first of its kind— showcases the quotable justice's take on many of today's most contentious constitutional debates. *Scalia Dissents* contains over a dozen of the justice's most compelling and controversial opinions. Ring also provides helpful background on the opinions and a primer on Justice Scalia's judicial philosophy. *Scalia Dissents* is the perfect book for readers who love scintillating prose and penetrating insight on the most important constitutional issues of our time.

Lately, Anviksha Punjabi can't seem to get anything right. She is in the middle of ending her second marriage, is barely keeping any friends, and repeatedly getting into trouble at work. And as if all that weren't enough, she must put up with her gregarious and over-bearing 67-year-old mother as a housemate. Afraid that if this goes on, she'll finally unravel completely, Anviksha decides that she needs a break - a Bollywood style, solo-trip

across Europe kind of break. What she doesn't expect is that her mother, Smita Punjabi, will insist on coming along. The unlikely duo embarks on a journey complete with nudists, an unwelcome blast from the past, a British dog named Bhindi, and several eligible bachelors, and slowly, what was supposed to be a soul-searching journey for one, turns into a life-altering experience for two.

The ocean and its inhabitants sketch and stretch our understandings of law in unexpected ways. Inspired by the blue turn in the social sciences and humanities, *Blue Legalities* explores how regulatory frameworks and governmental

infrastructures are made, reworked, and contested in the oceans. Its interdisciplinary contributors analyze topics that range from militarization and Maori cosmologies to island building in the South China Sea and underwater robotics. Throughout, *Blue Legalities* illuminates the vast and unusual challenges associated with regulating the turbulent materialities and lives of the sea. Offering much more than an analysis of legal frameworks, the chapters in this volume show how the more-than-human ocean is central to the construction of terrestrial institutions and modes of governance. By thinking with the more-than-human ocean, *Blue Legalities* questions what we think we know—and what we don't know—about oceans, our earthly planet,

and ourselves. Contributors. Stacy Alaimo,
