1-2-3 Magic Savvas Learning Company

The never-before-told story of how the makers of The First Folio created Shakespeare as we know him today. 2023 marks the 400-year anniversary of the publication of Mr William Shakespeare's Comedies, Histories, & Tragedies, known today simply as the First Folio. It is difficult to imagine a world without The Tempest, Twelfth Night, Antony and Cleopatra, The Winter's Tale, and Macbeth, but these are just some of the plays that were only preserved thanks to the astounding labor of love that was the first collected edition of Shakespeare's plays. When the First Folio hit the bookstalls in 1623, nearly eight years after the dramatist's death, it provided eighteen previously unpublished plays, and significantly revised versions of close to a dozen other dramatic works, many of which may not have survived without the efforts of those who backed, financed, curated, and crafted what is arguably one of the most important conservation projects in literary history. Without the First Folio Shakespeare is unlikely to have acquired the towering international stature he now enjoys across the arts, the pedagogical arena, and popular culture. Its lasting impact on English national heritage, as well as its circulation across cultures, languages, and media, makes the First Folio the world's most influential secular book. But who were the personalities behind the project and did Shakespeare himself play a role in its inception Shakespeare's Book: The Story Behind the First Folio and the Making of Shakespeare charts, for the first time, the manufacture of the First Folio against a turbulent backdrop of seismic political events and international tensions which intersected with the lives of its creators and which left their indelible marks on this ambitious publication-project. This story uncovers the friendships, bonds, social ties, and professional networks that facilitated the production of Shakespeare's book—as well as the personal challenges, tragedies and dangers that threw obstacles in the path of its chief backers. It reveals how Shakespeare himself, before his death, may have influenced the ways in which his own public identity would come to be enshrined in the First Folio, shaping his legacy to future generations and determining how the world would remember him: "not of an age, but for all time." Shakespeare's Book tells the true story of how the makers of the First Folio created "Shakespeare" as we know him today.

Annual Report of the Regents Cambridge University Press

Don't let them drop Spanish! A major growing concern in schools is the decline in the number of language students and the impact this could have on your department. Which is why we've developed ¡Así! - the only course to captivate all your students and help keep Spanish alive in your school!

No. 104-117 contain also the Regents bulletins.

Wallace's Year-book of Trotting and Pacing in Nelson Thornes

Pseudo-Martyr was Donne's first published work and the only one he wrote as a lawyer. It is also an autobiographical document which reveals how Donne resolved his own lapse from Catholicism so that he could remain loyal to the king. A descendant of Thomas More's sister, Donne had inherited a rich tradition from the Counter-Reformation, which he sought to reconcile with the political absolutes of his day. Anthony Raspa provides a definitive critical edition of this long-neglected work, setting it in its historical context and making the forest of quotations and references given by Donne in the main body of the text and its margins intelligible to the modern reader.

Wallace's Year-book of Trotting and Pacing in ... McDougal Littel

Así se dice! Level 2, Student Edition

EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities. Now, as there are many actions, arts, and sciences, their ends also are many; the end of the medical art is health, that of shipbuilding a vessel, that of strategy victory, that of economics wealth. But where such arts fall under a single capacity- as bridle-making and the other arts concerned with the equipment of horses fall under the art of riding, and this and every military action under strategy, in the same way other arts fall under yet others- in all of these the ends of the master arts are to be preferred to all the subordinate ends; for it is for the sake of the former that the latter are pursued. It makes no difference whether the activities themselves are the ends of the actions, or something else apart from the activities, as in the case of the sciences just mentioned.
