This Special Forces Mercenaries Part II 2 Aleksandr Voinov, as one of the most in action sellers here will definitely be in the midst of the best options to review.

A Novel Tor Books

Not all that glitters is gold. Nikolai Krasnorada leads the life of a corporate nomad. Working for a gold explorations company, he's never put down roots, and he likes it that way. Roots can be dangerous, as everyone from his "man-hating" sister to his manipulative mother to his war-traumatized father has proven. But when his CEO sends him to Toronto to strike a deal with LeBeau Mining, Nikolai meets Henri LeBeau, crown prince to the resources conglomerate and inveterate flirt. Sparks fly immediately, despite the business deal that threatens to go sour and Nikolai's own reluctance to give Henri false hope about him being Mr. Right. He's barely come to terms with his bisexuality, and getting involved with Henri would get messy. When LeBeau Mining launches a hostile takeover bid, Nikolai and Henri find themselves on opposite sides of the negotiating table. But fortunately - or perhaps unfortunately - for Nikolai, Henri's not nearly as interested in his company as he is in his heart.

The British Mercenaries Who Got Away with War Crimes Pluto Press

As long ago as 1957, U.S. Army Special Forces soldiers were in the Republic of Vietnam, going about their business of training, advising, and assisting members of the Vietnamese Army. Despite the old Army witticism about never volunteering for anything, the Special Forces soldier is, in fact, a double volunteer, having first volunteered for airborne training and then again for Special Forces training. From a very meager beginning but sustained by a strong motivation and confidence in his mission, the Special Forces soldier has marched through the Vietnam struggle in superb fashion. In 1957 some fifty-eight Vietnamese soldiers were given military training by Special Forces troops. Ten years later the Special Forces were advising and assisting over 40,000 paramilitary troops, along with another 40,000 Regional Forces and Popular Forces soldiers. This monograph traces the development and notes the progress, problems, successes, and failures of a unique program undertaken by the U.S. Army for the first time in its history. It is hoped that all the significant lessons learned have been recorded and the many pitfalls of such a program uncovered. I am responsible for the conclusions reached, yet my thought processes could not escape the influence of the many outstanding officers and men in the Special Forces who joined in the struggle. Particularly, I must take note of the contributions of the Special Forces noncommissioned officers, without question the most competent soldiers in the world. With the withdrawal of the Special Forces from Vietnam in 1971, the Army could honestly lay claim to a new dimension in ground warfare—the organized employment of a paramilitary force in sustained combat against a determined enemy. I know I speak for my predecessors and successors in claiming that the 5th Special Forces Group (Airborne) was the finest collection of professional soldiers ever assembled by the U.S. Army, anywhere, anytime. Francis John Kelly Colonel, Armor 1972

Zero Footprint Courier Dover Publications

The main part of Polybius's history covers the years 264-146 BCE. It describes the rise of Rome to the destruction of Carthage and the domination of Greece by Rome.--From publisher description.

The Mueller Report Mulholland Books

Squire William Raven has only one goal—to finally receive his spurs and become a knight. When his lord, Sir Robert de Cantilou, returns from a five-year crusade in the Holy Land, William wants nothing more than to impress him. After Sir Robert's return, noble guests arrive from France, bringing intrigue to the castle. William is oblivious to the politics, as he's distracted by nightly visits from a faceless lover—a man who pleasures him in the dark and then leaves—a man he soon discovers is none other than his master, Sir Robert. But William can't ignore the scheming around him when he overhears a plot to murder Robert. He becomes intent on saving his lord and lover from those who would see him killed... 31,000 words

The Ultimate Guide to the Weapons, Training, and Tactics of the Modern Warrior-for-Hire CQ Press

NATIONAL BESTSELLER A dramatic insider account of the world of private military contracting. Armored cars, burner phones, top-notch weaponry and top-secret missions--this is the life of today's private military contractor. Like author Simon Chase, many PMCs were once the world's top military operatives, and since retiring from outfits like US Navy SEAL TEAM Six and the UK's Special Boat Service, they have devoted their lives to executing sensitive and hazardous missions overseas. Working at the request of U.S. and British government entities as well as for private clients, he takes on jobs that require "zero footprint," with no trace of their actions left behind. Chase delivers first-hand accounts of tracking Bin Laden in Afghanistan and being one of the first responders after the attack on the U.S. Consulate in Benghazi. We see his teams defuse terrorist bombs, guard dignitaries, and protect convoys traveling through perilous territory--and then there are the really big jobs: top-secret "zero footprint" missions that include searching for High Value Targets and setting up arms shipping networks. The missions in Zero Footprint will shock readers, but so will the personal dangers. Chase and the men he works with operate without government backup or air rescue. If they die serving their country--they remain anonymous. There are no military honors or benefits. Contractors like Simon Chase are the unsung heroes in the war against terrorism, a strong, but largely invisible force--until now.

Bait Presidio Press

Mercenaries have been active in battle from the beginning of military history and, as private armies and military support firms, they are a major component of warfare today. Security, military advice, training, logistics support, policing, technological expertise, intelligence, transportation—all are outsourced to a greater or lesser degree in the U.S. military. However, privatization is not a uniquely American phenomenon. Countries as diverse as Saudi Arabia and Australia rely on privatization in one form or another. Historically, heads of state, politicians, and other administrators have justified use of mercenaries on the basis of their effectiveness, and cost-savings. These reasons and others continue to serve as rationales for use of private military companies in military strategy. Mercenaries: A Guide to Private Armies and Private Military Companies provides a comprehensive survey and

guide to mercenary forces, entrepreneurs, and corporations active on the international military scene today, including a concise history of mercenaries and private armies on land, sea, and in the air. Narrative chapters are amply supplemented by sidebars including biographies of major figures, key statistics, historical and current documents, contracts, and legislation on private armies and outsourced military services. Each chapter includes a bibliography of books, journal articles, and web sites, and a general bibliography concludes the entire work.

Mercenaries, Hybrid Armies and National Security PublicAffairs

An army veteran with deep expertise in military and international affairs makes his fiction debut with this electrifying international thriller—the first volume in a blistering hot series in the tradition of Brad Thor, Tom Clancy, and Daniel Silva. In *Shadow War*, an elite American mercenary on a secret mission to save a businessman's family in Eastern Europe must navigate perilous setbacks and deadly enemies that threaten to tip the balance of power between Russia and the United States. Tom Locke is an elite warrior working for Apollo Outcomes, one of the world's most successful private contracting firms. Pulled out of a mission in Libya, he is tapped for an unusual and risky assignment: a top secret black op in Ukraine. He is given one week to rescue an oligarch's family and pull off a spectacular assault that could have long-lasting repercussions for this imperiled Eastern European nation and the world. What Locke doesn't know is that the operation comes with a dangerous complication: Brad Winters. Locke's ambitious and enigmatic boss is engaged in a secretive, high-stakes geopolitical chess game with several influential powerbrokers in capitals around the world. One misstep could cost him—and Locke—everything. While Locke has methodically planned the mission and hand-picked a team of trusted operatives to pull it off—and save his ass if things go south—he doesn't count on running into a former love, war correspondent Alie MacFarlane, who impulsively makes a move that risks both their lives. Locke is an intelligent, iconoclastic soldier who specializes in pulling off the impossible. But all his brilliant preparation can't prevent the kind of backstabbing and deception that could lead to catastrophe . . . and tip the balance of power toward Putin's Russia.

The Last Special Forces Fighting the Forever War Simon and Schuster

With more than 60 essays, *A Companion to American Military History* presents a comprehensive analysis of the historiography of United States military history from the colonial era to the present. Covers the entire spectrum of US history from the Indian and imperial conflicts of the seventeenth century to the battles in Afghanistan and Iraq. Features an unprecedented breadth of coverage from eminent military historians and emerging scholars, including little studied topics such as the military and music, military ethics, care of the dead, and sports. Surveys and evaluates the best scholarship on every important era and topic. Summarizes current debates and identifies areas where conflicting interpretations are in need of further study.

Blackjack-33 Penguin

This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.

Keenie Meenie Simon and Schuster

A veteran of the Mobile Guerrilla Force offers a firsthand account of his unit's most perilous mission during a two-week period during the Vietnam War as they were assigned the task of luring VC and NVA regiments into an ambush by America's 1st Infantry Division. Original.

A Tom Locke Novel ReadHowYouWant.com

A Wall Street Journal national security reporter takes readers into the lives of frontline U.S. special operations troops fighting to keep the Taliban and Islamic State from overthrowing the U.S.-backed government in the final years of the war in Afghanistan. A FINANCIAL TIMES BEST BOOK OF THE YEAR "Powerful, important, and searing." —General David Petraeus, U.S. Army (ret.), former commander, U.S. Central Command, former CIA director In 2015, the White House claimed triumphantly that "the longest war in American history" was over. But for some, it was just the beginning of a new war, fought by Special Operations Forces, with limited resources, little governmental oversight, and contradictory orders. With big picture insight and on-the-ground grit, Jessica Donati shares the stories of the impossible choices these soldiers must make. After the fall of a major city to the Taliban that year, Hutch, a battle-worn Green Beret on his fifth combat tour was ordered on a secret mission to recapture it and inadvertently called in an airstrike on a Doctors Without Borders hospital, killing dozens. Caleb stepped on a bomb during a mission in notorious Sangin. Andy was trapped with his team during a raid with a crashed Black Hawk and no air support. Through successive policy directives under the Obama and Trump administrations, America came to rely almost entirely on US Special Forces, and without a long-term plan, failed to stabilize Afghanistan, undermining US interests both at home and abroad. *Eagle Down* is a riveting account of the heroism, sacrifice, and tragedy experienced by those that fought America's longest war.

Deal with the Devil Arcadia Publishing

For anyone who's ever considered a career as a warrior-for-hire—or who just wants to learn more about the lifestyle—How to Become a Mercenary is the ultimate guide to all the history, training, and equipment information you'll ever need! Mercenaries—who are often trained as part of the best Special Forces, including American Delta Force, British SAS, French Foreign Legion, Marines, SBS, SEALs, and many others—perform one of the most dangerous and feared jobs in the world. Their task is to go into remote locations and remove their targets by any means necessary. They are "hired hands," and have no remorse for their actions. Now, along with *Soldier of Fortune* magazine, Barry Davies teaches you the training and knowledge that goes into being a mercenary, as well as the history of the profession and how it has evolved. How to Become a Mercenary will teach you everything you've ever needed to know about becoming a mercenary, and also how to excel at it with information on weapons, escape plans, and overall safety. You will learn: • Where and how to find work • How to understand and apply the most modern tactics • What languages to master • Which weapons are preferred • How to disappear after you've completed your job It's always been about the money, but in this book, you will learn all the skills that you must acquire before you take your first job. Just remember: Article 47 of the Geneva Convention states that "a mercenary shall not have the right to be a combatant or a prisoner of war." Getting caught is not an option, and in this manual, you will learn how to avoid that at all costs.

[Shadow War](#) Cambridge University Press

Joining the Royal Marine Commandos is a challenge that only the toughest men should take on. Platoon Sergeant Col 'Bulldog' Wilson's world of work, gym, exercise and discipline is heaved out of its angles when the new recruits arrive with Chris Thompson amongst them. Twenty-one, handsome, tall, university graduate, triathlete, and ... openly gay in an environment of institutional homophobia. Col finds himself thrown into turmoil that is nothing like any conflict he'd ever encountered, nor any operational theatre he'd ever fought in. When this particular battle becomes personal, he has to ask himself who is the enemy.

The Modern Mercenary W. W. Norton & Company

It was 2004, and Sean McFate had a mission in Burundi: to keep the president alive and prevent the country from spiraling into genocide, without anyone knowing that the United States was involved. The United States was, of course, involved, but only through McFate's employer, the military contractor DynCorp International. Throughout the world, similar scenarios are playing out daily. The United States can no longer go to war without contractors. Yet we don't know much about the industry's structure, its operations, or where it's heading. Typically led by ex-military men, contractor firms are by their very nature secretive. Even the U.S. government—the entity that actually pays them—knows relatively little. In *The Modern Mercenary*, Sean McFate lays bare this opaque world, explaining the economic structure of the industry and showing in detail how firms operate on the ground. A former U.S. Army paratrooper and private military contractor, McFate provides an unparalleled perspective into the nuts and bolts of the industry, as well as a sobering prognosis for the future of war. While at present, the U.S. government and U.S. firms dominate the market, private military companies are emerging from other countries, and warlords and militias have restyled themselves as private security companies in places like Afghanistan and Somalia. To understand how the proliferation of private forces may influence international relations, McFate looks back to the European Middle Ages, when mercenaries were common and contract warfare the norm. He concludes that international relations in the twenty-first century may have more in common with the twelfth century than the twentieth. This "back to the future" situation, which he calls "neomedievalism," is not necessarily a negative condition, but it will produce a global system that contains rather than solves problems. *The Modern Mercenary* is the first work that combines a broad-ranging theory of the phenomenon with an insider's understanding of what the world of the private military industry is actually like.

The Prince of Niles, Illinois Bloomsbury Publishing

The killing part is the easy bit; the tricky part is finding the right people to kill. Rob was a Special Forces operator with some of the world's finest regiments and served in four national armies over a career that has spanned forty years and continues today. In 1965 he earned the converted Green Beret as a member of 2 Commando Australia. He left in 1968 for Southeast Asia. Finding work of a military nature in Laos, (in the war that never was). The end of the contract found him in England where he joined the British Parachute Regiment and completed three tours in Northern Ireland at the height of the troubles, taking part in Operation Demetrius. On his last tour, he was detached from his battalion and worked covert operations with a little-known group called the MRF (Military Reaction Force). 1974 saw Rob in Rhodesia as a member of the internationally acclaimed C Squadron SAS, where he was wounded on operations twice. This was a turning point in Rob's life as he surrendered to Christ becoming a Christian. He was to carry on as an operator, but now with a biblical world view. Rob was recruited in 1980 by the South African Defense Force and was a member of 6 Reconnaissance Commando Special Forces and later became an operative with what was commonly called 'the funnies' or CSI Chief of Staff Intelligence. From 1996 to 2007 Rob was in South Sudan and Iraq, receiving a letter of commendation from the United States Army. Still active today, Rob specializes in close protection and tactical security training for civilian personnel.

Some passions can set a city aflame. Consigliere Jack Barsanti has worked his way up from nothing, survived a vicious Mafia war and, proving his loyalty, done time for his crime family, the Lo Cascio. He's devoted his life to defusing tensions, reining in volatile men, and keeping the peace between the three crime families in Port Francis to prevent another bloody war. All the time harboring one devastating secret that would cost him everything. Enter Salvatore Rausa. A boss himself, Sal doesn't care about peace or the feelings of other made men. The war has cost him the wife he dearly loved, and he's bided his time to prepare for payback. But he needs intel to wipe the Lo Cascio off the map first. Nobody in their right mind would lay a hand on a rival family's consigliere. Nobody except Sal. When he grabs and bags Jack Barsanti, he knows the clock is ticking. He needs to work quickly to make Jack spill his secrets. Except when he interrogates Jack and uncovers the weaknesses of his enemies, he gets a whole lot more than he bargained for. Content words: suicidal ideation, organized crime, threats of sexual violence, dubcon, mental health (depression), minor character death (past, off-page), murder (mostly off-page), grief, bereaved spouse, drug use (voluntary and involuntary), corruption, domestic violence (off-page), bisexual rep, demisexual/graysexuality rep

With Special Forces in the Viet Cong Forbidden Zone John Wiley & Sons

One of President Obama's Favorite Books of the Year | A New York Times Notable Book | One of the Wall Street Journal Ten Best Books of the Year "Missionaries is a courageous book: It doesn't shy away, as so much fiction does, from the real world." —Juan Gabriel Vásquez, The New York Times Book Review "A sweeping, interconnected novel of ideas in the tradition of Joseph Conrad and Norman Mailer . . . By taking a long view of the 'rational insanity' of global warfare, *Missionaries* brilliantly fills one of the largest gaps in contemporary literature." —The Wall Street Journal The debut novel from the National Book Award-winning author of *Redeployment* A group of Colombian soldiers prepares to raid a drug lord's safe house on the Venezuelan border. They're watching him with an American-made drone, about to strike using military tactics taught to them by U.S. soldiers who honed their skills to lethal perfection in Iraq. In *Missionaries*, Phil Klay examines the globalization of violence through the interlocking stories of four characters and the conflicts that define their lives. For Mason, a U.S. Army Special Forces medic, and Lisette, a foreign correspondent, America's long post-9/11 wars in the Middle East exerted a terrible draw that neither is able to shake. Where can such a person go next? All roads lead to Colombia, where the US has partnered with local government to keep predatory narco gangs at bay. Mason, now a liaison to the Colombian military, is ready for the good war, and Lisette is more than ready to cover it. Juan Pablo, a Colombian officer, must juggle managing the Americans' presence and navigating a viper's nest of factions bidding for power. Meanwhile, Abel, a lieutenant in a local militia, has lost almost everything in the seemingly endless carnage of his home province, where the lines between drug cartels, militias, and the state are semi-permeable. Drawing on six years of research in America and Colombia into the effects of the modern way of war on regular people, Klay has written a novel of extraordinary suspense infused with geopolitical sophistication and storytelling instincts that are second to none. *Missionaries* is a window not only into modern war, but into the individual lives that go on long after the drones have left the skies.

Deal with the Devil is Orphan Black meets the post-apocalyptic Avengers by USA Today and New York Times bestselling author duo Kit Rocha. Nina is an information broker with a mission—she and her team of mercenary librarians use their knowledge to save the hopeless in a crumbling America. Knox is the bitter, battle-weary captain of the Silver Devils. His squad of supersoldiers went AWOL to avoid slaughtering innocents, and now he's fighting to survive. They're on a deadly collision course, and the passion that flares between them only makes it more dangerous. They could burn down the world, destroying each other in the process... Or they could do the impossible: team up. This is the first book in a near-future science fiction series with elements of romance. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Intelligence specialist Leigh Neville identifies, describes and illustrates the Special Operations Forces (SOF) of the British, American and other Coalition forces committed to the 'War on Terror' in Afghanistan since 2001, providing a fascinating insight into specific operations detailing weapons, equipment and experiences in combat. With a surprising amount of recently declassified material from government departments that are yet to be published in the mass media, this is a ground-breaking analysis of the largest mobilization of Special Forces in recent history. With extensive first-hand accounts providing an eyewitness perspective of the fighting on the ground and including information on the British SAS, the US Delta Force, Australian and Canadian special forces as well as MI6 and CIA operational units, this book provides a crucial study of their skills and successes amidst the Afghan mountains.
