Ruth Boeker offers a new perspective
on Locke's account of persons and
personal identity by considering it
within the context of his broader
philosophical project and the
philosophical debates of his day.
Emphasizing the importance of the
moral and religious dimensions of his
view, Boeker argues that, to take
seriously Locke's general approach to
questions of identity, we should
consider his account of personhood
separately from his account of personal
identity over time. On this basis, she
argues that Locke endorses a moral
account of personhood, according to
which persons are subjects of
accountability, and that his particular
thinking about moral accountability
explains why he regards sameness of
consciousness as necessary for
personal identity over time. In contrast
to some neo-Lockean views about
personal identity, Boeker argues that
Locke's account of personal identity is
not psychological per se, but rather his
underlying moral, religious,
metaphysical, and epistemic
background beliefs are relevant for
understanding why he argues for a
consciousness-based account of
personal identity. Taking his underlying
background beliefs into considerations
not only sheds light on why many of his
early critics do not adopt Locke's view,
but also shows why his view cannot be
as easily dismissed as some of his
critics assume.

How should teacher librarians or instructional leaders engage in action research to improve their school library and benefit students' learning? This book provides the answers. Teacher librarians need to get directly involved with the research process in the learning commons in order to create actions and strategies that will enhance student learning—and benefit their own professional development as well as demonstrate accountability through their action research efforts. This book provides practical tips and work spaces for educators at the local, state, and national levels, clearly modeling and explaining the process and the tools for conducting action research in a school library setting that will identify the program's strengths and weaknesses. The author coalesces current expert opinions on the topic of action research in the school library environment and highlighting what other teacher librarians in the field have identified as the pros and cons of using the process. Readers are directed to focus on mitigating the "cons" through the use of specific working pages and templates and by initially exploring "five favorite" links, thereby encouraging those who are new to action research to try what might otherwise seem a daunting process. School principals K-12 who read this book will be better equipped to support their teacher librarians and teachers in this important professional process. Supplies invaluable insights from experts and practitioners on the subject of action research Provides a clear model of the process in action Directs readers to additional resources that facilitate effective action research and timely topics for school library research, such as time

Love One and Hate the Other is a fictional memoir about the life of a young man who grows up inside the predominant culture war in the state of Alabama. That war is based on the Auburn-Alabama college football rivalry, and it shapes and affects every facet of life, from love to vocational choices. While the American obsession with college football provides an important framework for the story, this is more than a football tale. The author details Alabamians' extravagant cultural obsession through the eyes of protagonist Joe Billy Thompson as he recounts a memorable cast of characters: Uncle Moon Pie, the bigger-than-life quintessential Auburn fan; Old Man Parker, a 1932 graduate of Alabama; Jobab Robinson, the other-worldly high school football talent; Joe Billy's gorgeous junior high love, Betty Jean Asher; and, the Bama tailgate party crowd gathered at Miss Truby's in the theater district in New York. Importantly, Joe Billy's memoir documents the prevalent thread of institutional and cultural racism during the time-frame of the narrative. Also, while many books document the South's obsession with football, this story uses football to frame ventures into love, romance, weddings, funerals, church services, and betting gains and losses.

The honest and compelling story of a young girl's newfound independence, from her entrance into a new country to her frightening involvement in the Triangle Shirtwaist Factory

Fire of 1911. My heart filled with fear and hope at the same time. I had the feeling that I was brought to America for a purpose. Something important would happen to me here. I remembered the words of the poem, "Give me your tired, your poor, your huddled masses . . ." "Here we are, America," I whispered. "We're just exactly what you ordered." When she arrives on Ellis Island as a seventeen-year-old Irish immigrant, Rose Nolan is looking for a land of opportunities; what she finds is far from all she'd dreamed. Stubborn and tenacious, she refuses to give up. Left alone to fend for herself and her younger sister, Rose is thrust into a hard-knock life of tenements and factory work. When the devastating Triangle Shirtwaist Factory Fire of 1911 rushes into Rose's life, her confusions are brought to an all-too-painful head. To whom and to what can she turn when everything around her is in ashes?

The introduction of endosonographically guided fine-needle biopsy has led to increasing use of longitudinal scans in the endosonographic diagnosis of tumors and other diseases of the upper gastrointestinal tract as well as of the pancreas. In this handbook, experts concentrate primarily on practical aspects of using endosonography with longitudinal scans. Examination techniques, interpretation of the ultrasound images, and normal anatomy with important guiding structures are demonstrated by means of 3D CT images and the corresponding endosonographic images. In addition,

pathological endosonographic findings and the current status of diagnosis using fine-needle biopsy are described.
