Automobile Trade Journal M-Y Books Limited

This do-it-yourself Workshop Manual has been specially written for the owner who wishes to maintain his vehicle in first class condition and to carry out the bulk of his own servicing and repairs. Considerable savings on garage charges can be made, and one can drive in safety and confidence knowing the work has been done properly.

Comprehensive step-by-step instructions and illustrations are given on most dismantling, overhauling and assembling operations. Certain assemblies require the use of expensive special

tools, the purchase of which would be unjustified. In these cases information is included but the reader is recommended to hand the unit to the agent for attention. Throughout the Manual hints and tips are included which will be found invaluable, and there is an easy to follow fault diagnosis at the end of each chapter. "Whilst every care has been taken to ensure correctness of information it is obviously not possible to guarantee complete freedom from errors or omissions or to accept liability arising from such errors or omissions. Instructions may refer to the righthand or lefthand sides of the vehicle or the components. These are the same as the righthand or lefthand of an observer standing behind the vehicle and looking forward.

E.L. Cord was first and foremost a salesman, both of products and of himself. In 1924, after achieving great success as an automobile distributor, Cord became the man with enough talent and panache to lead the Auburn Automobile Company out of its slumber. By 1929, Auburn sales had increased 15-fold and Cord was the head of an empire. His Cord Corporation owned Lycoming Mfg. Co. (engines), Limousine Body Co. and Central Mfg. Co. (auto bodies), Century Airlines, and Duesenberg, among others. Cord's philosophy of automobile design (and salesmanship) might be summed up in two words: Novelty Sells. Though mechanically ordinary, his Auburn models, with outstanding styling and clever paint combinations, were hot sellers. Cord oversaw the introduction of the fabulous Model J Duesenberg, a car whose combination of size, cost, performance,

and style was and is unmatched in American automotive history. His most novel car was the rakish Cord L-29, the first American production car to feature front-wheel drive. All this and more is told of America's true renaissance man, E.L. Cord, in the original and complete biography of the man behind the Auburn, Cord and Duesenberg lines. The luxurious presentation includes 280 oversized pages containing more than 500 rare illustrations, photographs and documents.

Classic Speedsters Motorbooks International

Classic Speedsters: The Cars, The Times, and The Characters Who Drove Them chronicles the most significant vehicles ever to have traveled American roads and racetracks. Speedsters were the pizzazz cars of their era. Speedsters were owned by entertainers, captains of industry, the wealthy, and in some cases, the everyday guy or gal. They were often expensive, but always fast and sexy. Speedsters were America's first sports cars. Each chapter frames the birth and evolution of a company that produced a speedster model in its lineup and includes a biography of a famous owner of the period.

This book traces the journey of the speedster concept across several time periods and among twelve automotive companies. It answers three fundamental questions: - Why were these cars so important and influential? - Why did so many prominent people own them? - What message do they have for modern design?
