This is my book summary of Spent: Sex, Evolution, and Consumer Behavior (by Geoffrey Miller). I consider this a must-read book for anyone that recognizes the runaway, harmful effects of consumerism in modern societies. Miller goes into detail about specific tactics used by marketers to manipulate us into buying things we truly don't need.

— Miller, Spent: Sex, Evolution and Consumer
Behavior “ Consumerism actually promotes
two big lies: one is that above average products
can compensate for below-average traits when

one is trying to build serious long-term
relationships...a second big lie...products offer
more cooler, more impressive ways to display
our desirable traits than any natural behaviors
could provide.
