"I came that you may have life and have it in all its fullness" (John 10:10). In this book, Revd Dr. Steven Underdown presents the paschal mystery--the passion, death and resurrection of Jesus--as the means by which the Son first realized that utter fullness of life which God had always intended for humankind. He also argues that it is only in and through the paschal mystery that human beings find their fulfillment. Only insofar as someone is open to be given in love is that person open to receive fullness of new life. The book explores some of the ways by which, under God's grace, the church can establish patterns of life and worship which will enable growth into the paschal mystery. It focuses in particular on a weekly pattern of life established in various parish and monastic communities in which every week is celebrated as a kind of "Holy Week in miniature." This pattern--termed the Pattern of the Week--is seen as providing a context for life-giving response to the divine initiative.

Describes the thirty-seven spiritual paths of twentieth-century life while offering insight into learning which is most compatible. By the author of *The Way of the Peaceful Warrior*. Reprint. 75,000 first printing. \$50,000 ad/promo. IP. Resting Place John Wiley & Sons

This book highlights the fact that leaders do indeed affect the performance of organizations or the well-being of society for better or worse--to cast either a shadow or light by the exercise of their leadership. Modern psychology with its theories of human behavior, which does not acknowledge the existence of the spiritual realm, cannot explain the carnage and evil often associated with the dark side of leadership. This book focuses on the dark side of leadership in a multidimensional manner and provides a psychospiritual approach toward understanding personality disorders and leader derailment. It highlights an area that has not been widely studied by leadership researchers to date--the dynamic relationship between the psychological and spiritual domains in shaping the dark side, which lead to leadership failure and derailment. This book calls for a more interdisciplinary approach and holistic understanding of the dark side of leadership, inseparably relating body, soul, and spirit as they function individually and relationally. It highlights the fact that the restoration of personality will require sustained dialogue between theologians and the medical and psychological professions. Such a theoretical perspective would help us better understand how personality disorders develop, not only emotionally and psychologically, but spiritually.

Notes and Queries Enigma Books

Was Paul shaped by the movement that began with the teaching and activities of Jesus, or did he start something new? Attempts to answer this question one way or the other have a long history dating back to the nineteenth century. The purpose of this book is to raise the question again in light of more recent scholarly work--especially in light of historical Jesus research and the so-called New Perspective on Paul. The strategy employed is to find family resemblances between Jesus and Paul on matters that are both fundamentally important and distinctive and that can best be explained in terms of Paul's dependence on Jesus. Three aspects of Jesus' ministry--his welcome of the marginalized, his challenge to his followers that they would share his fate, and his belief that God was doing something profoundly new--are presented as the source of three corresponding aspects in Paul's thought--his welcome of Gentiles, his language of participation, and his belief in the present reality of new creation.

Here, finally, is a much-needed review and analysis of the divergent interpretations of Paul. With a clear head and winsome sense of humor, Stephen Westerholm compares the traditional understanding of Paul to more recent readings, drawing on the writings of key figures in the debate both past and present. Westerholm first offers a detailed portrait of the "Lutheran" Paul, including the way such theologians as Augustine, Luther, Calvin, and Wesley have traditionally interpreted "justification by faith" to mean that God declares sinners "righteous" by his grace apart from "works." Westerholm then explores how Paul has fared in the twentieth century, in which "New Perspective" readings of Paul see him teaching that Gentiles need not become Jews or observe Jewish law to be God's people. The final section of the book looks anew at disputed areas of Paul's theological language and offers compelling discussion on the place of both justification by faith and Mosaic law in divine redemption.

One of the most formidable tasks that an individual faces today is to learn this simple truth: That is, life is a journey of self-realization. "Getting" thoughts create barriers that prohibit understanding. An affected person is unconsciously misled to believe that the only reality that exists is the one experienced by the five senses. As such, spirituality is reduced to a mechanical affair, where the soul is bound and heaven is perceived as being a distant place that is unexperienceable until after death. The message contained in this book illuminates the idea "heaven is a choice, and it can be experienced NOW." To claim this miracle for self, it is necessary to re-work the thoughts in the mind. Those that create what is not wanted must be "let go," and, as a mother bear protects her cub, one must guard the thoughts allowed into the mind. Taking personal responsibility is at the heart of this self-work. This personal revolution is a process. Any courageous enough to claim it can expect to create the following: intimate social relationships, responsive political systems, schools that teach children Who They Are, and loving families.

The Oxford Handbook of Mystical Theology provides a guide to the mystical element of Christianity as a theological phenomenon. It differs not only from psychological and anthropological studies of mysticism, but from other theological studies, such as more practical or pastorally-oriented works that examine the patterns of spiritual progress and offer counsel for deeper understanding and spiritual development. It also differs from more explicitly historical studies tracing the theological and philosophical contexts and ideas of various key figures and schools, as well as from literary studies of the linguistic tropes and expressive forms in mystical texts. None of these perspectives is absent, but the method here is more deliberately theological, working from within the fundamental interests of Christian mystical writers to the articulation of those interests in distinctively theological forms, in order, finally, to permit a critical theological engagement with them for today. Divided into four parts, the first section introduces the approach to mystical theology and offers a historical overview. Part two attends to the concrete context of sources and practices of mystical theology. Part three moves to the fundamental conceptualities of mystical thought. The final section ends with the central contributions of mystical teaching to theology and metaphysics. Students and scholars with a variety of interests will find different pathways through the Handbook.

Resilience is a topic that is currently receiving increased attention. In general, resilience refers to the capacity of those who, even under the most stressful circumstances, are able to cope, to rebound, and to go on and thrive. Resilient families are able to regain their balance following crises that arise as a function of either nature or nurture, and to continue to encourage and support their members as they deal with the necessary requirements for accommodation, adaptation and, ultimately, healthy survival. Handbook of Family Resilience provides a broad body of knowledge regarding the traits and patterns found to characterize resilient individuals and well-functioning families, including those with diverse structures, various ethnic backgrounds and a variety of non-traditional forms. This Handbook brings together a variety of perspectives aimed at understanding and helping to facilitate resilience in families relative to a full range of challenges.
