A funny, moving, and true story of an ordinary boy with an extraordinary face that's perfect for fans of *Wonder*—now available in the U.S. When Robert Hoge was born, he had a tumor the size of a tennis ball in the middle of his face and short, twisted legs. Surgeons removed the tumor and made him a new nose from one of his toes. Amazingly, he survived—with a face that would never be the same. Strangers stared at him. Kids called him names, and adults could be cruel, too. Everybody seemed to agree that he was "ugly." But Robert refused to let his face define him. He played pranks, got into trouble, had adventures with his big family, and finally found a sport that was perfect for him to play. And Robert came face to face with the biggest decision of his life, he followed his heart. This poignant memoir about overcoming bullying and thriving with disabilities shows that what makes us "ugly" also makes us who we are. It features a reflective foil cover and black-and-white illustrations throughout.

In a heart-wrenching, candid autobiography, a human rights activist offers a firsthand account of war from the perspective of a former child soldier, detailing the violent

civil war that wracked his native Sierra Leone and the government forces that transformed a gentle young boy into a killer as a member of the army. 75,000 first printing. **Incidents in the Life of a Slave Girl (EasyRead Super Large 20pt Edition)** Free Spirit Publishing Guess what -- Gary Paulsen was being kind to Brian. In *Guts*, Gary tells the real stories behind the Brian books, the stories of the adventures that inspired him to write Brian Robeson's story: working as an emergency volunteer; the death that inspired the pilot's death in *Hatchet*; plane crashes he has seen and near-misses of his own. He describes how he made his own bows and arrows, and takes readers on his first hunting trips, showing the wonder and solace of nature along with his hilarious mishaps and mistakes. He shares special memories, such as the night he attracted every mosquito in the county, or how he met the moose with a sense of humor, and the moose who made it personal. There's a handy chapter on "Eating Eyeballs and Guts or Starving: The Fine Art of Wilderness Nutrition." Recipes included. Readers may wonder how Gary Paulsen survived to write all of his books -- well, it took guts.

Honorary editor: René Dirven The series Applications of Cognitive Linguistics (ACL) welcomes book proposals from any domain where the theoretical insights developed in Cognitive Linguistics (CL) have been (or could be) fruitfully applied. In the past thirty-five years, the CL movement has articulated a rich and satisfying view of language around a small number of foundational principles. The first one argues that language faculties do not constitute a separate module of cognition, but emerge as specialized uses of more general cognitive abilities. The second principle emphasises the symbolic function of language. The grammar of

individual languages (including the lexicon, morphology, and syntax) can be exclusively described as a structured inventory of conventionalized symbolic units. The third principle states that meaning is equated with conceptualization. It is subjective, anthropomorphic, and crucially incorporates humans' experience with their bodies and the world around them. Finally, CL's Usage-Based conception anchors the meaning of linguistic expressions in the rich soil of their social usage. Consequently, usage-related issues such as frequency and entrenchment contribute to their semantic import. Taken together, these principles provide researchers in different academic fields with a powerful theoretical framework for the investigation of linguistic issues in the specific context of their particular disciplines. The primary focus of ACL is to serve as a high level forum for the result of these investigations.

AN HBO ORIGINAL SPECIAL EVENT Hailed by Toni Morrison as "required reading," a bold and personal literary exploration of America's racial history by "the most important essayist in a generation and a writer who changed the national political conversation about race" (Rolling Stone) NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY The New York Times Book Review • O: The Oprah Magazine • The Washington Post • People • Entertainment Weekly • Vogue • Los Angeles Times • San Francisco Chronicle • Chicago Tribune • New York • Newsday • Library Journal • Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of

Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

Israel's New Strategic Dilemmas: Survival or Revival? details the strategic problems facing Israel today as a result of the asymmetrical terrorist wars imposed on it. With the motive of delegitimizing Israel, and forcing it to react against civilian terrorists who dwell amidst other civilian populations and who do not have any legal or international standing, these wars create an untenable situation of retaliation and casualties. Unless Israel succeeds in making the necessary reforms in the strategic areas of security and domestic affairs, its chances for survival are dwindling. An important and fascinating reading experience, *Israel's New Strategic Dilemmas: Survival or Revival?* will shift your perspective on a highly contentious and complex topic. About the Author: Raphael Israeli grew up in Morocco and Israel, and currently resides in Jerusalem, where he is a University Professor. He was motivated to write *Israel's New Strategic Dilemmas: Survival or Revival?* by the exposure and criticism of Israel in the world media due to its counterattacks against terrorism in the second Lebanese War (2006) and the Gaza War (2008-9.) He is working on his next book about the death camps in Bosnia and Croatia during WW II, and the alliance between the Nazis and their Muslim collaborators. A contemporary and detailed look at the reality behind the PhD degrees and postdoctoral fellowships in academia. The book explores some of the most pressing issues and unique challenges currently facing the doctoral and postdoctoral programs both on a local institutional level and on a global one where multiple complex factors influencing and governing the academic environment take place. The interrelated nature of these challenges together with discussions over certain historical trends and demographics offer a unique perspective on some often overlooked topics such as academic advisors and mentoring, increasing job insecurity, career prospects, mental issues, discrimination and women in science, ever growing need for funding, increasing pressure for high-profile research, internationalization of science, trends in university management, higher education dynamics, and government policies, backed with references to published research, national and international surveys, and census

data. Today, most of the PhD programs have been accommodated to the benefit of the university with disregard to any sustainable demand-and-supply job market strategies, contrary to the original ideas behind their inception. The result is an over-flooded job market and huge underemployment rates among doctorate holders. Infused with a narrative of a rich mix of personal experiences, observations, and impressions, all dressed in humor (mostly dark), sarcasm, irony, disbelief, and often outright criticism, this text does not shy away from asking uncomfortable questions and even attempts to provide answers to some of them. At the same time it also offers practical advice for those considering and those who already have dared to tread the PhD path.

Life of Pi is a masterful and utterly original novel that is at once the story of a young castaway who faces immeasurable hardships on the high seas, and a meditation on religion, faith, art and life that is as witty as it is profound. Using the threads of all of our best stories, Yann Martel has woven a glorious spiritual adventure that makes us question what it means to be alive, and to believe.

Life at the prestigious Q High School for Girls in Tokyo exists on a precise social axis: a world of insiders and outsiders, of haves and have-nots. Beautiful Yuriko and her unpopular, unnamed sister exist in different spheres; the hopelessly awkward Kazue Sato floats around among them, trying to fit in. Years later, Yuriko and Kazue are dead -- both have become prostitutes and both have been brutally murdered. Natsuo Kirino, celebrated author of *Out*, seamlessly weaves together the stories of these women's struggles within the conventions and restrictions of Japanese society. At once a psychological investigation of the pressures facing Japanese women and a classic work of noir fiction, *Grotesque* is a brilliantly twisted novel of ambition, desire, beauty, cruelty, and identity by one of our most electrifying writers.
