Thanks to public domain, you can access PDF versions of all the classics you've always wanted to read in PDF Books World's enormous digital library.

AP Biology Reading Guide Chapter 33: Invertebrates Fred ...

- A sponge has different kinds of cells. Sponges do not have tissues or organs. Sponges have no symmetry.
- Moving water carries food and oxygen into a sponge. Moving water takes away the sponge's wastes.
- Sponges can reproduce asexually. A new sponge can grow on the side of an adult sponge. This is called budding.
