is a story about fighting on two levels: the American lawyer author's improbable career as Asia's oldest amateur boxer and his fight to overcome colon cancer and its consequences.

Through his friendships with boxers in the Philippines and Thailand, his efforts (not always successful) to learn the languages and his delight in experiencing local cultures, he sets an example for other expatriates who have the great fortune to live and work overseas. His unremitting enthusiasm and refusal to give up, under any circumstances, set an

example for others with serious or life-threatening diseases.

International thrillers with a globe-trotting diplomat sleuth, each book is set in a different foreign locale.

Sleuth Charlie Hillier is just a regular guy working for the diplomatic service with a knack for getting tangled up in international intrigue.

Escape to Havana — Book #1 Charlie Hillier believes a posting in Havana, far away from the indiscretions of his

ex-wife and the monotony of a desk job, is just what he needs to start a new life. But when drugs, a kidnapping, and murder complicate things, he wonders if he'll make it out of Cuba alive. The Moscow Code — Book #2 Having barely survived his last posting in Havana, Charlie Hillier now finds himself in Moscow. When a writer arrested on dubious drug charges turns up dead, the official explanation is suicide. But Charlie has his doubts, and his investigation into the case brings him too close to powers more

dangerous than he could have imagined. Remember Tokyo — Book #3 Charlie's latest posting in Tokyo immerses him in a new culture. His first case involves a banker who wakes from a coma with amnesia. It's not long before Charlie's inquiries land him in trouble again. Cross-border Relocation Law John Wiley & Sons When Claire Bien first began hearing voices, they were infrequent, benign and seemingly just curious about her life and the world around her. But the more attention Claire paid, the more frequently they began to speak, and

the darker their intentions became... Despite escalating paranoia, an initial diagnosis of Schizophreniform Disorder and taking medication with debilitating side effects, Claire learned to face her demons and manage her condition without the need for long-term medication. In this gripping memoir, Claire recounts with eloquence her most troubled times. She explains how she managed to regain control over her mind and her life even while intermittently hearing voices, through self-guided and professional therapy and with the support of family and friends. Challenging a purely medical understanding of hearing voices, Claire advocates for an end to the stigma of those who experience

auditory verbal hallucinations, and a change of thinking from the professionals who treat the condition.

The story in this book is an account of my life encounters. It is a story of an individual, myself, who was born into a polygamous family and had to struggle to overcome life obstacles and human hardship. In 1947, when I was born, basic public amenities were lacking in my village. I drank my first near-clean water at the age of seven. Illnesses were treated with herbs and plant roots, which medicine men and herbalists provided. Beliefs in ancestral spirits and the worship of deities controlled lives. The vanity of those beliefs came to light as I got older and I

debunked them all. The greatest challenge my life faced was the Biafra/Nigeria war, which tested human desire to survive, especially, for those from Eastern Nigeria at the time. The atrocities of that war and human suffering they generated, are testimonies to how the human spirit could absorb the most penetrating shocks. That tough human spirit found ways to preserve me, as well as chart a course for the realization of my life dream. That dream turned out to be the American dream, which I believe I have achieved. Thanks to some unseen hands that made everything possible.

How states deny the full

potential of refugees as people and perpetuate social inequality As the world confronts the largest refugee crisis since World War II, wealthy countries are being called upon to open their doors to the displaced, with the assumption that this will restore their prospects for a bright future. Refuge follows Syrians who fled a brutal war in their homeland as they attempt to rebuild in countries of resettlement and asylum. Their experiences reveal that these destination countries are not saviors; they can deny newcomers ' potential by failing to recognize their abilities and

invest in the tools they need to prosper. Heba Gowayed spent three years documenting the strikingly divergent journeys of Syrian families from similar economic and social backgrounds during their crucial first years of resettlement in the United States and Canada and asylum in Germany. All three countries offer a legal solution to displacement, while simultaneously minoritizing newcomers through policies that fail to recognize their histories, aspirations, and personhood. The United States stands out for its emphasis on “ self-sufficiency ” that integrates

refugees into American poverty, which, by design, is populated by people of color and marked by stagnation. Gowayed argues that refugee human capital is less an attribute of newcomers than a product of the same racist welfare systems that have long shaped the contours of national belonging. Centering the human experience of displacement, Refuge shines needed light on how countries structure the potential of people, new arrivals or otherwise, within their borders.

Mark Mardirossian was an ideal student and pursued a normal but uncertain teenage life in Iraq. However, all that changed when a fleeting time after the Baath regime, under the control of Saddam Hussein, came into

power and started to hunt minorities. Mark's father was wrongfully accused, tortured, and imprisoned in an Iraqi prison. With no hope or word from his father returning from prison, Mark had to take responsibility for his family in poverty conditions at the age of fifteen. A knock on their door eight days later changed things, which had prompted him and his family to escape Iraq and flee to Lebanon. Unfortunately, Mark was detained at the Lebanese border, which led to a separation from his family. While living in Lebanon, Mark escaped death three times.

Inspired to share his true story some forty-three years later, Mark was compelled to write his memoir entitled, I Did It! From Iraq to Freedom. Mark had been self-employed in the construction business for 25 years. He holds Bachelor of Science and Masters Degrees, and prefers to divide his time between his profession and writing. This is his first book.
