How states deny the full potential of refugees as people and perpetuate social inequality As the world confronts the largest refugee crisis since World War II, wealthy countries are being called upon to open their doors to the displaced, with the assumption that this will restore their prospects for a bright future.

Refuge follows Syrians who fled a brutal war in their homeland as they attempt to rebuild in countries of resettlement and asylum. Their experiences reveal that these destination countries are not saviors; they can deny newcomers' potential by failing to recognize their abilities and invest in the tools they need to prosper. Heba Gawayed spent three years

documenting the strikingly divergent journeys of Syrian families from similar economic and social backgrounds during their crucial first years of resettlement in the United States and Canada and asylum in Germany. All three countries offer a legal solution to displacement, while simultaneously minoritizing newcomers through policies that fail to recognize their histories, aspirations, and personhood. The United States stands out for its emphasis on “self-sufficiency” that integrates refugees into American poverty, which, by design, is populated by people of color and marked by stagnation. Gawayed argues that refugee human capital is less an attribute of newcomers than a product of the same racist welfare systems that have long shaped the contours of national belonging. Centering the human experience of displacement, *Refuge* shines

needed light on how countries structure the potential of people, new arrivals or otherwise, within their borders.

The story in this book is an account of my life encounters. It is a story of an individual, myself, who was born into a polygamous family and had to struggle to overcome life obstacles and human hardship. In 1947, when I was born, basic public amenities were lacking in my village. I drank my first near-clean water at the age of seven. Illnesses were treated with herbs and plant roots, which medicine men and herbalists provided. Beliefs in ancestral spirits and the worship of deities controlled lives. The vanity of those beliefs came to light as I got older and I debunked them all. The greatest challenge my life faced was the Biafra/Nigeria war, which tested human desire to survive, especially, for those from Eastern Nigeria at the time. The atrocities of that war and human suffering they generated, are testimonies to how the human spirit could absorb the most

penetrating shocks. That tough human spirit found ways to preserve me, as well as chart a course for the realization of my life dream. That dream turned out to be the American dream, which I believe I have achieved. Thanks to some unseen hands that made everything possible.

One Child at a Time : the Story of Krousar Thmey, a New Family John Wiley & Sons

After years of civil war, the bloody Khmer Rouge regime, and occupation by Vietnam, Cambodia finds itself decimated and divided. Benoît Duchâteau-Arminjon, a.k.a. Bénito, discovers this world when he visits a refugee camp on the country's border with Thailand and experiences a profound emotional shock. He decides to put his promising career as a financial controller on hold and spend a year setting up a welfare center for abandoned children. Since then, he has devoted his life to these children through the foundation he established in 1991—Krousar Thmey—or “new family.” A talented manager, Bénito set up a well-run organization and gradually turned its operation over to Cambodians. As of 2012, a staff of 400 is supporting some 4,000 children in welfare centers for street children, family shelters, and schools for blind or deaf children. In this context, Khmer Braille and Khmer Sign Language were

developed, for the first time allowing children with these disabilities to get an education. Krousar Thmey was the recipient of the Human Rights Prize granted by the French Republic in 2003 and UNESCO's Wenhui Award in 2010. The foundation marked its 20th anniversary in 2011. In October 2012 in New York, Bénito received the World of Children Humanitarian Award, hailed in the media as the “Nobel Prize for child advocates.” As he tells his story, Bénito, who was granted Cambodian citizenship by King Norodom Sihanouk and Prime Minister Hun Sen in 2000, helps lift us out of cliché-ridden discourse to take a fresh look at the humanitarian world.

When Claire Bien first began hearing voices, they were infrequent, benign and seemingly just curious about her life and the world around her. But the more attention Claire paid, the more frequently they began to speak, and the darker their intentions became...

Despite escalating paranoia, an initial diagnosis of Schizophreniform Disorder and taking medication

with debilitating side effects, Claire learned to face her demons and manage her condition without the need for long-term medication. In this gripping memoir, Claire recounts with eloquence her most troubled times. She explains how she managed to regain control over her mind and her life even while intermittently hearing voices, through self-guided and professional therapy and with the support of family and friends. Challenging a purely medical understanding of hearing voices, Claire advocates for an end to the stigma of those who experience auditory verbal hallucinations, and a change of thinking from the professionals who treat the condition.
