The first book in a chilling new trilogy from the author of the internationally bestselling Last Apprentice series! Tom Ward is an apprentice no longer—he is a full-fledged spook battling bogbarts, witches, and other creatures of the dark. A New Darkness is the first in a three-book arc that introduces brand-new readers to Joseph Delaney's haunting world. Tom Ward is the Spook, the one person who can defend the county from bloodthirsty creatures of the dark. But he's only seventeen, and his apprenticeship was cut short when his master died in battle. No one trusts Tom's skill, not until he's proven himself. And a fifteen-year-old girl named Jenny knows more about the three mysterious deaths in the county than Tom does. She is a seventh daughter of a seventh daughter, and she wants to be Tom's first apprentice—even though a female spook is unheard of. Together, Tom and Jenny will uncover the grave danger heading straight toward the county, and they'll team up with a witch assassin to confront it. A New Darkness begins a three-book arc that will introduce new readers to Joseph Delaney's deliciously scary imagination, and electrify his longtime fans. A New Darkness is perfect for every reader who loves thrills, chills, action, and adventure—no prior knowledge of The Last Apprentice series is necessary! The Last Apprentice series, the first internationally bestselling series about Tom Ward, is now a major motion picture, Seventh Son, starring Jeff Bridges, Ben Barnes, Alicia Vikander, Kit Harington, Olivia Williams, Antje Traue, Djimon Hounsou, and Julianne Moore as Mother Malkin.

Set against the backdrop of Europe's slide into Fascism, Blue of Noon is a blackly compelling account of depravity and violence. As its narrator lurches despairingly from city to city in a surreal sexual and mental nightmare of squalor, sadism and drunken encounters, his internal collapse mirrors the fighting and marching on the streets outside. Exploring the dark forces beneath the surface of civilization, this is a novel torn between identifying with history's victims and being seduced by the monstrous glamour of its terrible victors, and is one of the twentieth century's great nihilist works.

“ The ferociously talented Gibson delivers his signature m é lange of technopop splendor and post-industrial squalor ” (Time) in this New York Times bestseller that features his hero from Idroru... Colin Laney, sensitive to patterns of information like no one else on earth, currently resides in a cardboard box in Tokyo. His body shakes with fever dreams, but his mind roams free as always, and he knows something is about to happen. Not in Tokyo; he will not see this thing himself. Something is about to happen in San Francisco. The mists make it easy to hide, if hiding is what you want, and even at the best of times reality there seems to shift. A gray man moves elegantly through the mists, leaving bodies in his wake, so that a tide of absences alerts Laney to his presence. A boy named Silencio does not speak, but flies through webs of cyber-information in search of the one object that has seized his imagination. And Rei Toi, the Japanese Idroru, continues her study of all things human. She herself is not human, not quite, but she ' s working on it. And in the mists of San Francisco, at this rare moment in history, who is to say what is or is not impossible...

Daniel Suarez ' s New York Times bestselling debut high-tech thriller is “ so frightening even the government has taken note ” (Entertainment Weekly). Daemons: computer programs that silently run in the background, waiting for a specific event or time to execute. They power almost every service. They make our networked world possible. But they also make it vulnerable... When the obituary of legendary computer game architect Matthew Sobol appears online, a previously dormant daemon activates, initiating a chain of events that begins to unravel our interconnected world. This daemon reads news headlines, recruits human followers, and orders assassinations. With Sobol ' s secrets buried with him, and as new layers of his daemon are unleashed, it ' s up to Detective Peter Sebeck to stop a self-replicating virtual killer before it achieves its ultimate purpose—one that goes far beyond anything Sebeck could have imagined...

AN INSTANT NEW YORK TIMES BESTSELLER “ ONE OF THE MOST VISIONARY, ORIGINAL, AND QUIETLY INFLUENTIAL WRITERS CURRENTLY WORKING ” * returns with a sharply imagined follow-up to the New York Times bestselling The Peripheral. William Gibson has trained his eye on the future for decades, ever since coining the term “ cyberspace ” and then popularizing it in his classic speculative novel Neuromancer in the early 1980s. Cory Doctorow raved that The Peripheral is “ spectacular, a piece of trenchant, far-future speculation that features all the eyeball kicks of Neuromancer. ” Now Gibson is back with Agency—a science fiction thriller heavily influenced by our most current events. Verity Jane, gifted app whisperer, takes a job as the beta tester for a new product: a digital assistant, accessed through a pair of ordinary-looking glasses. “ Eunice, ” the disarmingly human AI in the glasses, manifests a face, a fragmentary past, and a canny grasp of combat strategy. Realizing that her cryptic new employers don ' t yet know how powerful and valuable Eunice is, Verity instinctively decides that it ' s best they don ' t. Meanwhile, a century ahead in London, in a different time line entirely, Wilf Netherton works amid plutocrats and plunderers, survivors of the slow and steady apocalypse known as the jackpot. His boss, the enigmatic Ainsley Lowbeer, can look into alternate

pasts and nudge their ultimate directions. Verity and Eunice are her current project. Wilf can see what Verity and Eunice can't: their own version of the jackpot, just around the corner, and the roles they both may play in it. *The Boston Globe

1855: The Industrial Revolution is in full and inexorable swing, powered by steam-driven cybernetic Engines. Charles Babbage perfects his Analytical Engine and the computer age arrives a century ahead of its time. And three extraordinary characters race toward a rendezvous with history—and the future: Sybil Gerard—a fallen woman, politician's tart, daughter of a Luddite agitator Edward "Leviathan" Mallory—explorer and paleontologist Laurence Oliphant—diplomat, mystic, and spy. Their adventure begins with the discovery of a box of punched Engine cards of unknown origin and purpose. Cards someone wants badly enough to kill for.... Part detective story, part historical thriller, The Difference Engine is the collaborative masterpiece by two of the most acclaimed science

fiction authors writing today. Provocative, compelling, intensely imagined, it is a startling extension of Gibson's and Sterling's unique visions—and the beginning of movement we know today as "steampunk!"

Hollis Henry never intended to work for global marketing magnate Hubertus Bigend again. But now she's broke, and Bigend has just the thing to get her back in the game... Milgrim can disappear in almost any setting, and his Russian is perfectly idiomatic—so much so that he spoke it with his therapist in the secret Swiss clinic where Bigend paid for him to be cured of his addiction... Garreth doesn't owe Bigend a thing. But he does have friends from whom he can call in the kinds of favors powerful people need when things go sideways... They all have something Bigend wants as he finds himself outmaneuvered and adrift, after a Department of Defense contract for combat-wear turns out to be the gateway drug for arms dealers so shadowy they can out-Bigend Bigend himself. A courageous girl follows her dream of learning to fly in this "clever narrative" filled with "extraordinary spirit... gorgeous colors... a magical quality" (New York Times). Inspired by formerly imprisoned human rights activist Loujain AlHathloul, this sparkling fantasy story is perfect for fans of Malala's Magic Pencil and the Rebel Girls series. "Poetic, moving, and empowering." - Kirkus Reviews Loujain watches her beloved baba attach his feather wings and fly each morning, but her own dreams of flying face a big obstacle: only boys, not girls, are allowed to fly in her country. Yet despite the taunts of her classmates, she is determined to do it—especially because Loujain loves colors, and only by flying can she see the color-filled field of sunflowers her baba has told her about. Eventually, he agrees to teach her, and Loujain's impossible dream becomes reality—and soon other girls dare to learn to fly. Based on the experiences of co-author Lina AlHathloul's sister, Nobel Peace Prize nominee Loujain AlHathloul, who led the successful campaign to lift Saudi Arabia's ban on women driving, this moving and gorgeously illustrated story reminds us to strive for the changes we want to see—and to never take for granted women's and girls' freedoms.

Beloved, best-selling science writer Mary Roach's "acutely entertaining, morbidly fascinating" (Susan Adams, Forbes) classic, now with a new epilogue. For two thousand years, cadavers — some willingly, some unwittingly — have been involved in science's boldest strides and weirdest undertakings. They've tested France's first guillotines, ridden the NASA Space Shuttle, been crucified in a Parisian laboratory to test the authenticity of the Shroud of Turin, and helped solve the mystery of TWA Flight 800. For every new surgical procedure, from heart transplants to gender confirmation surgery, cadavers have helped make history in their quiet way. "Delightful—though never disrespectful" (Les Simpson, Time Out New York), Stiff investigates the strange lives of our bodies postmortem and answers the question: What should we do after we die? "This quirky, funny read offers perspective and insight about life, death and the medical profession. . . . You can close this book with an appreciation of the miracle that the human body really is." —Tara Parker-Pope, Wall Street Journal "Gross, educational, and unexpectedly sidesplitting." —Entertainment Weekly

William Gibson, author of the extraordinary multiaward-winning novel *Neuromancer*, has written his most brilliant and thrilling work to date . . . *The Mona Lisa Overdrive*. Enter Gibson's unique world—lyric and mechanical, sensual and violent, sobering and exciting—where multinational corporations and high tech outlaws vie for power, traveling into the computer-generated universe known as cyberspace. Into this world comes Mona, a young girl with a murky past and an uncertain future whose life is on a collision course with internationally famous Sense/Net star Angie Mitchell. Since childhood, Angie has been able to tap into cyberspace without a computer. Now, from inside cyberspace, a kidnapping plot is masterminded by a phantom entity who has plans for Mona, Angie, and all humanity, plans that cannot be controlled . . . or even known. And behind the intrigue lurks the shadowy Yazuka, the powerful Japanese underworld, whose leaders ruthlessly manipulate people and events to suit their own purposes . . . or so they think.

Phil Factor is a legend in his own runtime. Scurrilous, absurd, confessional and scathing by turns, *Confessions of an IT Manager* targets the idiocy, incompetence and overreach of the IT management industry from vantage point all the way up and down the greasy pole. Phil Factor (real name withheld to protest the guilty) has over 20 years experience in the IT industry, specializing in database-intensive applications. For withering insight into the human weaknesses and farcical levels of ineptitude that bring IT projects to their knees, plus occasional escapes into burnished pastiche and cock-a-leg doggerel there is no funnier, more illuminating commentary on the IT crowd.
