Camaro: Fifty Years of Chevy Performance
chronicles the first fifty years of Chevrolet's iconic
Camaro through fascinating photography,
history, and commentary about this legendary
pony car. The early 1960s saw American auto
manufacturers desperately trying to sell cars to
the emerging baby-boom market. Chevrolet
attained some success with its sporty Corvair
Monza. Ford responded first with a sportier
Falcon, then with its grand-slam, home-run pony
car, the Mustang. At first, Chevrolet hesitated to
abandon the technologically advanced Corvair,
but when it finally entered the pony car market in

1967, its new Camaro instantly became one of the
most iconic cars of the classic muscle-car era.
When muscle cars went dormant for a generation,
it was once again the classic pony cars that jump-
started American performance. The battle that
raged between Camaro and Mustang in the 1980s
rejuvenated the US auto industry's interest in high-
performance muscle cars. The Camaro lost its way
in the 1990s, with Chevrolet pursuing
technological advances and Ford pursuing classic
American muscle. As was the case in the 1960s,
Ford's muscular pony car trounced Chevrolet's
technologically advanced sporty car in the race
that mattered most: showroom sales. The
Mustang thrived while the Camaro left the scene.
Fortunately, that departure was only temporary.
Chevrolet introduced a twenty-first-century
Camaro in 2010, and it has become one of
Chevrolet's most popular models. With stunning

photography from author Mike Mueller and never-before-seen archival photography from partner General Motors, *Camaro: Fifty Years of Chevy Performance* chronicles the Camaro's rich history, from the early attempts to reach the youth market in the 1960s, through the potent and turbulent years of the classic muscle-car era, the resurgence of muscle in the 1980s, the sad decline of the 1990s, and the triumphant rebirth of the new car in this new millennium.
