Prevention & Rehabilitation: In order to prevent a Concussion, players must always wear a helmet while playing any sport that requires getting aggressive and physical. Without a helmet, you are open to every kind of head injured, and such injuries are dangerous in sports such as American football, ice hockey, etc.

The biomechanics of the basic sports skills is presented and then injury prevention guidelines are introduced followed by risk factors and rehabilitation tips. Most of the basic team sports are covered, but there are chapters on sailing and martial arts. The information is organized and the length of each chapter is concise.
