Harley Davidson engine: the Ironhead.. The Ironhead Sportster engine was introduced in 1957 with the X Model Harley Davidson Sportster motorbike and lasted almost 30 years (THIRTY years !!!) until in 1986 this beautiful ...

Harley-Davidson Sportster History | Reaching Every Niche

The Sportster was one of the first Harley-Davidsons to be fitted with rear-suspension (it's parent bike, the Model K series was the first) and it was also the first of the Harleys to be fitted with a higher performance, overhead-valve engine.

The Top 10 Harley Davidson Sportster Models of All-Time Sportster motorcycles are powered by a four-stroke, 45 ° V-twin engine in which both connecting rods, of the "fork and blade" or "knife & fork" design, share a

common crank pin. The original Sportster engine was the Ironhead engine, which was replaced with the Evolution engine in 1986.

The Evolution engine (popularly known as Evo) is an air-cooled, 45-degree, V-twin engine manufactured from 1984 by Harley-Davidson for the company's motorcycles. It was made in the 1,340 cc (82 cu in) displacement for Harley-Davidson Big V-twins bikes, replacing the Shovelhead engine until 2000 when the last EVO was placed in a production factory custom FXR4 (FXR2 and FXR3 were the first CVOs).

Sportster History (1980-1985)

While the 1980's brought us high-revving, multi-cylinder motorcycles with 10,000 red-lines, the Harley-Davidson Sportster was still getting it done at 5,500 rpm.

Accelerating anywhere above

2,000 rpm, down-shifting was not really necessary.

As a big fan of the Motor Company, I thought whoever put this together did a nice job minus the missing shovelhead...regardless I enjoyed it. Harley Davidson ...

A brief history of the Harley-Davidson Evolution Engine

...

The biggest change was an all-new frame with rubber engine mounting to lessen vibrations, designed using what Eric Buell had taught them with his Sportster powered sport bikes. With the new frame came a smoother oil tank, with the trick push and turn cap, and a battery hidden on the other side for a cleaner look.

History of the Harley Davidson Sportster Crate Engine ...

1983 Harley Sportster XLX61. Clearly one of the greatest marketing moves in Harley Davidson's history, the XLX61 was introduced in 1983 with no frills. The bare boned machine featured nothing more than a single gauge, peanut gas tank, and a solo seat. It came in black version only and was designed to sell at \$3,995.

The Evolution (Evo) engine is a V-twin engine that has

been manufactured by Harley-Davidson since 1984 for a variety of different motorcycle models. The engine design is often credited with saving Harley-Davidson from bankruptcy after the management buyout and subsequent reorganization that the company went through during the early 1980s.
