[Harley-Davidson XL883 XL1200 Sportster 2004-2013](#) Haynes Publications For Harley-Davidson aficionados, the very name Sportster conjures an image of a fire-breathing mechanical beast scorching the world's tarmac image the Sportster itself often does not live up to. Straight from the factory, in its standard form, the Sportster routinely proves an entry-level motorcycle providing a relatively tame ride. This book aims to change all that and to show every Sportster rider how to free the beast in his or her bike. With expert, detailed advice on the proper mechanical massaging and plenty of helpful diagrams and photos this updated, third edition of Buzz Buzzelli's best-selling handbook shows how the Sportster can be transformed into the superbike of old. Including a history of the Sportster from its birth in 1957 to the recent introduction of a new engine (only the third in its long life), this book has everything it takes to open up the gates of hell and give the Sportster its head. Harley-Davidson's XR-750 has ruled dirt-track racing for more than two decades. In fact, no other race car or motorcycle has won as many races over such a long time period. And the victories continue today. This is the story of the legendary XR-750 from its development in 1970, when it was created to replace the aging KR. The first XRs used iron cylinder heads and barrels--and were painfully slow. By 1972, the motorcycles were redesigned with aluminum

heads and barrels, and the XR-750 took home the trophies. Found here is the development of the XR-750 with a technical analysis of the complete motorcycle, detailing specifications, modifications, innovations, and aftermarket components. This is also the story of the men who designed, tuned and raced the XR-750. It was their engineering skill, iron-willed riding and tuning secrets that made the motorcycle a winner. The ranks include Jay Springsteen, Dick O'Brien, Bill Werner, Scott Parker, Cal Rayborn, Mert Lawwill, the Brelsford brothers, Gary Scott, Ricky Graham, and more. The book is divided into three parts, the motorcycle's development, the season-by-season race championships, and how the pros make the bikes go--and go fast. More than 300 photos tell the inside story of the XR-750 on the dirt track, the XR-750 and XR-1000 on the street and XRTT on the road-race circuits. Allan Girdler writes of the Harley-Davidson XR-750 with passion, enthusiasm and firsthand experience. He brings his straight-talking technical writing and colorful story-telling to the history of the XR-750. Girdler is a former Cycle World editor and author of many books including Harley-Davidson Racing 1934-1986 and Harley-Davidson Sportster. Readers interested in related titles from Allan Girdler will also want to see: American Road Race Specials, 1934-70 (ISBN: 9781626549333), Harley Davidson Sportster (ISBN: 9781626549357), Harley-Davidson Racing, 1934-1986 (ISBN: 9781626549326). [Harley-Davidson FXD/FLD Dyna Series 2012-2017](#) Motorbooks International Many people modify their Harley-Davidson engines--and find the results disappointing. What they might not know--and what this book teaches--is that emphasizing horsepower over torque, the usual approach, makes for a difficult ride. Author Bill Rook has spent decades perfecting the art of building torque-monster V-twin Harley engines. Here he brings that experience to bear, guiding motorcycle enthusiasts through the modifications that make a bike not just fast but comfortable to ride. With clear, step-by-step instructions, his book shows readers how to get high performance out of their Harleys--and enjoy them, too.

A late-in-life coming-of-age escapade told with humor and heart, Don't Think Twice is a moving and irreverent account of grief, growing up, and the healing power of adventure. Within six months, Barbara Schoichet lost everything: her job, her girlfriend of six years, and her mother to pancreatic cancer. Her life stripped bare, and armed with nothing but a death wish and a ton of attitude, Barbara pursues an unlikely method of coping. At the age of fifty she earns her motorcycle license, buys a Harley on eBay from two guys named Dave, and drives it alone from New York to Los Angeles on a circuitous trek loosely guided by her H.O.G. tour book and a whole lot of road whimsy. On the open highway--where she daily takes her speed to a hundred--Barbara battles physical limitations and inner demons on a journey that flows through the majestic Appalachian Mountains, the enchanting Turquoise Trail, and all along America's iconic Route 66. She is awed by the battlefields in Gettysburg, stunned by the decadence of Graceland, and amused by a Cadillac graveyard in the middle of nowhere. She meets kind strangers, odd strangers, and a guy who pulls a gun on her for cutting him off. She is vulnerable but sassy, broken but determined to heal . . . or die trying.
