Rise: The Brand New Autobiography Simon and Schuster

****Named One of the New York Post's Best New Books to Read **** FIRE IN THE STRAW is the witty and deeply felt memoir of Nick Lyons, a man with an intrepid desire to reinvent himself—which he does, over and over. Nick Lyons shape shifts from reluctant student and graduate of the Wharton School, to English Professor, to husband of a fiercely committed painter, to ghost writer, to famous fly fisherman and award-winning author, to father and then grandfather, to Executive Editor at a large book publishing company, and finally to founder and publisher of his own successful independent press.. Written with the same warm and earthy voice that has enthralled tens of thousands of fly-fishing readers, Nick weaves the disparate chapters of his life: from the moment his widowed mother drops him off at a grim boarding school at the age of five, where he spends three lonely and confusing years; to his love of basketball and pride playing for Penn; to the tumultuous period, in the army and after, when he found and was transformed by literature; to his marriage to Mari, his great love and anchor of his life. Suddenly, with a PhD in hand and four children, Nick embarks on a complex and thrilling ride, juggling family, fishing, teaching, writing, and publishing, the wolf always at his door. Against all odds, The Lyons Press survives, his children prosper, his wife 's art flourishes, and his books and articles make him a household name. Fire in the Straw is a love story, a confessional, and a beautiful big-hearted memoir.

Based on the blockbuster movie starring Meryl Streep and Kevin Bacon. To help heal a marriage on the rocks, river-rafting expert Gail, her husband Tom, and their son embark on a white water adventure in Montana. Along the way, they encounter two inexperienced rafters supposedly looking for their friends downriver. Little do they know that the men are escaped convicts whose bid for

freedom has a body count. Things take a turn when the young family learns that they are now the captives of two armed killers, and it becomes clear that there is much more at stake than a marriage. Desperate to evade both the police and federal marshals, the men force the family down the river and into the mouth of a deadly class 5 white-water rapid. Careening towards mortal peril, Gail and Tom must bond together to save their family from the brutality of nature and the savageness of man. This high-stakes thriller is both a testament to the power of mother nature and a classic adventure story that is perfect for fans of CJ Box and Craig Johnson. Denis O ' Neill, the screenwriter for the movie The River Wild, brings the striking beauty of the film into his writing and ratchets up the danger that races forward to a breathtaking conclusion.

The Harley in the Barn Skyhorse

Although the Harley-Davidson 45 -- better known as the Flathead -- was designed as an entry-level big twin, its sturdy and dependable construction and unlikely racing pedigree made it one of the most prolific production powerplants in the history of motorcycles. Built and said from 1929 to 1973, the Flathead turned up in a wide range of Harley-Davidsons, from World War II military models to the utilitarian Servi-Car. The engine also became the power unit of choice among flat-track racers from 1934 to 1969. This new MBI Motorcycle Color History chronicles the entire development and production history of the Flathead, examining its application in street, racing, and military bikes. In addition to a selection of archival black-and-white photographs, the author features nearly 100 modern color shots of restored Harley-Davidsons powered by the Flathead. Break into that barn - you know you want to - there might be a vintage Harley inside. If you won't break in, Tom Cotter will; amazing motorcycles await. Driving down a country road, a flash of chrome catches your eye as you pass an old farmstead. Next time you roll by, you slow down and focus on a shed behind the house. Could that be? Good lord, it is! Hard on the brakes, quick reverse, and pull in the drive. Yep, it's a vintage Triumph Bonneville peering forlornly from beneath a tattered cover. You've just begun the journey that fuels the dreams of every motorcycle collector: the long-forgotten machine, rediscovered. The Harley in the Barn offers forty-plus tales of lost Nortons, hidden Hondas, dormant Indians, and busted BSAs, all squirreled away from prying eyes but found by lucky collectors just like you. Author Tom Cotter is not only a barn-find master, he's also master of discovering the collectors with the best stories and the most outlandish finds. In The Harley in the Barn, all those great stories are told. If you can't pass a padlocked garage without wondering if there's a great old bike stashed inside, this is your book. Hell, this is your life.

After VE Day in 1945 the British population returned enthusiastically to the road. But the cost and availability of both vehicles and fuel led to the post-war scene being dominated by motorcycles, most of them ex-military machines, eagerly snapped up for everyday use in an age when a family car remained

just a dream for many. The British industry, meanwhile, was exhorted to 'export or die', and until well into the 1950s the majority of new British bikes were sold abroad. During this period, the industry - the largest and most important in the world - continued to develop new and exciting machines, which increasingly populated Britain's roads. Mick Walker tells the story of the British post-war motorcycle during this golden age of the industry. Machines from the big names, AMC (AJS and Matchless), the BSA Group (BSA, Triumph, Sunbeam and Ariel), Douglas, Norton, Panther, Royal Enfield, Velocette and Vincent, are here plus a myriad of smaller firms such as Cotton, Excelsior, Francis-Barnett, James and Scott. With the help of archive photographs and advertising material this book conjures up a lost age of the British bike.

328 pages, 186 black & white illustrations, size 5.5 x 8.5 inches. This is a faithful reproduction of the 1962 Floyd Clymer U.S.A. Edition of the

same title. While the primary focus of this publication utilizes 1960's and prior motorcycles as examples, the reader is reminded that engineering theory and the laws of physics do not change and as such, the information it contains is still relevant today. Consequently, this publication is indispensable to those either contemplating modification to a current model or the construction of a 'special' for any form of motorcycle competition. Predominantly a technical work, it is written in terms easily understood by the layman. While it includes geometry and math formulae the reader will be aptly rewarded if they take a moment to comprehend the significance of the examples. Consequently, 'Motorcycle Engineering' is considered by many knowledgeable motorcycle enthusiasts to be the best book ever written on how to construct, improve, modify and fine tune a motorcycle from the 'ground up'. It is our pleasure to offer this reprint to all motorcycle enthusiasts worldwide.

The ultimate reference for Triumph lovers and fans of British motorcycles, *The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today* collects all of the motorcycles from this iconic brand in a single illustrated volume. In this revised and updated edition, you'll find the all-new Bonneville lineup introduced for the 2016 model year as well as other Triumphs through 2019. Originally formed as a bicycle company in 1885, Triumph produced its first motorcycle in 1902, which was simply a bicycle fitted with a Belgian Minerva engine. From there, the company, in various iterations, went on to build some of the most iconic motorcycles of all time. Written by respected Triumph expert Ian Falloon, this luxurious reference covers all of the major and minor models, with an emphasis on the most exemplary, era-defining motorcycles such as the Thunderbird, Tiger, Trophy, Bonneville, and new machines such as the Speed Triple, Thruxton, and Daytona 675. Detailed technical specifications are offered alongside compelling photography, much of it sourced from Triumph's archives. *The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today* also features important non-production models and factory racing and speed-record-setting motorcycles that have become integral parts of Triumph's stellar reputation. This is a book no Triumph fan should be without!

164 pages, 92 black & white illustrations, size 5.5 x 8.5 inches. Originally published under the title *The Book of the Royal Enfield* by W.C. Haycraft, this book is one of *The Motorcyclist's Library* series published in the USA by Floyd Clymer by arrangement with the original publishers Pitman Ltd. of London, England. It includes complete technical data, service and maintenance information and detailed instructions for the repair and overhaul of the major mechanical and electrical components for all Royal Enfield 250cc, 350cc and 500cc single cylinder G, J, J2, Bullet and Clipper models manufactured from 1946

through 1962. There is adequate detailed text and diagrams to assist in major refurbishing such as an engine rebuild or even a complete renovation. Please note that the 1957-1962 unit-construction "Crusader" type models are not covered in this publication. Information for that series of motorcycles is included in the "Second Book of the Royal Enfield" also available from www.VelocePress.com. This publication has been Out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market and we are pleased to be able to offer this reproduction as a service to all Royal Enfield motorcycle enthusiasts worldwide.
