inches. Originally published under the title The Book of the Royal Enfield by W.C. Haycraft, this book is one of The Motorcyclist's Library series published in the USA by Floyd Clymer by arrangement with the original publishers Pitman Ltd. of London, England. It includes complete technical data, service and maintenance information and detailed instructions for the repair and overhaul of the major mechanical and electrical components for all Royal Enfield 250cc, 350cc and 500cc single cylinder G, J, J2, Bullet and Clipper models manufactured from 1946 through 1962. There

is adequate detailed text and diagrams to assist in major refurbishing such as an engine rebuild or even a complete renovation. Please note that the 1957-1962 unit-construction "Crusader" type models are not covered in this publication. Information for that series of motorcycles is included in the "Second Book of the Royal Enfield" also available from [www.VelocePress.com](http://www.VelocePress.com). This publication has been Out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market and we are pleased to be able to offer this

reproduction as a service to all Royal Enfield motorcycle enthusiasts worldwide.

FIRE IN THE STRAW is the witty and deeply felt memoir of Nick Lyons, a man with an intrepid desire to reinvent himself—which he does, over and over. Nick Lyons shape shifts from reluctant student and graduate of the Wharton School, to English Professor, to husband of a fiercely committed painter, to ghost writer, to famous fly fisherman and award-winning author, to father and then grandfather, to Executive Editor

---

at a large book publishing company, and finally to founder and publisher of his own successful independent press.. Written with the same warm and earthy voice that has enthralled tens of thousands of fly-fishing readers, Nick weaves the disparate chapters of his life: from the moment his widowed mother drops him off at a grim boarding school at the age of five, where he spends three lonely and confusing years; to his love of basketball and pride playing for Penn; to the tumultuous period, in the army and after, when he found and was transformed by literature; to his marriage to Mari, his great love and anchor of his life. Suddenly, with a PhD in hand and four

children, Nick embarks on a complex and thrilling ride, juggling family, fishing, teaching, writing, and publishing, the wolf always at his door. Against all odds, The Lyons Press survives, his children prosper, his wife ' s art flourishes, and his books and articles make him a household name. Fire in the Straw is a love story, a confessional, and a beautiful big-hearted memoir.

The firm of Royal Enfield was one of the best-known names of the British motorcycle industry, but curiously its products have never received the adulation bestowed on the products of Triumph, BSA and others. In this

complete history, top motorcycle authority Mick Walker shows that there was, in fact, much for the Redditch-based firm to be proud of, in the shape of good-looking, innovative machines that inspired a generation. And what other company can boast a model still in popular production sixty years after its launch?Topics covered include: ,Complete history of Royal Enfield, including Enfield India,Numerous specifications,Royal Enfields in competitionAbout the Author:Mick Walker started his own business, Mick Walker Motorcycles, in 1969 and was a leading race sponsor during the 1970s. In 1994 he formed Mick Walker Racing, following the

---

death of his son Gary at Brands Hatch that year. The team has achieved no fewer than five British Championship wins.

crazy little girl, and their bandfarm, Billie returns to rural of misfits and has-beens who stick it to the establishment in the cutthroat world of horse racing. Billie Masterson is a thirty-something chronic underachiever, drowning herself in alcohol and bad relationships in Ohio. She hasn't been home to the family's broken-down thoroughbred farm in Kentucky since college. Her mother committed suicide when Billie was a teen and she blames her father, Will Masterson. When Will drops dead while working on the Kentucky for the funeral, intending only to pay her respects before high-tailing it back to Ohio. However, she's informed by her father's lawyer, the garrulous David Mountain Clay, that she now owns the farm...and all the debt that goes with it. Determined to sell everything, settle the debts and get out of town, Billie discovers that her father's colt, a horse named Cactus Jack, is the object of obsession for billionaire Reese Ryker, the louche scion of a department store dynasty and now owner of Double R Racing, one of the top thoroughbred stables in the world. Billie is willing to sell everything to Ryker—until she realizes that he's an entitled misogynist and a not-so-subtle racist. Against her better judgment, she decides to keep the farm and the untested horse. To do that she needs to race the animal—and beat Ryker at his own game. Assisted by a team of misfits, including a washed-up trainer with whom she has a bit too much history, the horse-crazy little girl next door, and

This book presents the use of a microprocessor-based digital system in our daily life. Its bottom-up approach ensures that all the basic building blocks are covered before the development of a real-life system. The ultimate goal of the book is to equip students with all the fundamental building blocks as well as their

integration, allowing them to implement the applications they have dreamed up with minimum effort.

Based on the blockbuster movie starring Meryl Streep and Kevin Bacon. To help heal a marriage on the rocks, river-rafting expert Gail, her husband Tom, and their son embark on a white water adventure in Montana. Along the way, they encounter two inexperienced rafters supposedly looking for their friends downriver. Little do they know that the men are

escaped convicts whose bid for freedom has a body count.

Things take a turn when the young family learns that they are now the captives of two armed killers, and it becomes clear that there is much more at stake than a marriage.

Desperate to evade both the police and federal marshals, the men force the family down the river and into the mouth of a deadly class 5 white-water rapid. Careening towards mortal peril, Gail and Tom must bond together to save their family from the brutality of nature and the savageness of man. This high-stakes thriller is both a testament to the power of mother nature and a classic

The BMW racing story is a fascinating tale of persistence and reward. Though initially unsuccessful in competition, the flat-twin-powered BMW motorcycle was steadily developed until it became a machine to be reckoned with. In 1939 the ultimate was achieved when Georg Meir won the Senior TT. After the War, BMW maintained a high profile on the Grand Prix scene winning no fewer than

nineteen world titles from the mid-1950s to the mid-1970s in sidecar racing. But BMW: The Racing Story covers much more, including the American scene, the K-series four-cylinder, the four valve twins of the early 1990s and, finally, the great successes gained by the F650-based single in the European and British Supermono series.

While the primary focus of this publication utilizes 1960's and prior motorcycles as examples, the reader is reminded that engineering theory and the laws of physics do not change and as such, the information it contains is still relevant today. Consequently, this publication is indispensable to those either

contemplating modification to a current model or the construction of a 'special' for any form of motorcycle competition. Predominantly a technical work, it is written in terms easily understood by the layman. While it includes geometry and math formulae the reader will be aptly rewarded if they take a moment to comprehend the significance of the examples. Consequently, 'Motorcycle Engineering' is considered by many knowledgeable motorcycle
