Do you like puzzles? Then you'll love this little book. You'll find 60 pairs of illustrations with 5 small differences. Try to spot what's different between ALL THIS drawings. For added fun, you can even color each picture!THIS BOOK ALSO IS VERY INTERESTING FOR CHILDREN: Sharpen visual discrimination and problem solving with this colorful workbook! Visual discrimination is

a critical skill for social studies and scientific learning-this product helps children develop and hone that skill. Children observe two similar pictures and identify the differences between them. As children progress they'll begin to develop an ability to make comparisons and identify similarities and differences. Help little skill seekers build a strong foundation for academic success. Proceedings and

Debates of the ... Congress Baby Professor (Education Kids) Follow the Directions is a fun-filled workbook with specific directional activities such as math games, spot the difference and find and color pages. This book is similar to our other "Brain Games for Preschoolers" book, but the activities in this book. The activities in this book are meant for children who already know how to read.

However, you can help a preschooler with the activities by reading them the directions and helping them complete the tasks. These activities are designed to improve memory, motor skills and problem solving skills. **Great for preschool, kindergarten and first grade students. **We also created this book with several different covers. Feel free to choose a cover that fits your style child's style preferences. Have a great

day.
