School Library Journal Nelson Thornes

In the last few years, the focus of the training of science teachers has shifted significantly towards the school based experience. Drawing on the successful Oxford University science internship scheme, this book presents insights of mentoring from several perspectives, providing a rich resource of case study material. After introductory chapters dealing with the rationale for the science internship course, the reader is presented with: logs of mentors' and students' experiences that offer 'windows' onto the mentoring process at different stages in the PGCE course; cameos of students who have been at the centre of a range of complex training situations; reflections of past PGCE students; and accounts of the experiences of heads of science departments when managing the placement of science PGCE students in their schools.

Spotlight Science 9: Framework Edition Nelson Thornes

The Framework Edition Assessment Resource Banks provide End-of-Topic tests to help

you with evidence for your assessment of Sc2-4, and help you arrive at a level for your teacher assessment.

Spotlight Science Nelson Thornes

Each double-page spread provides a complete teaching unit of about one hour. The illustrations are in full colour and are always shown close to the relevant text. The reading age of the sentences and the number of words on a page have been carefully controlled. The sentence structure is simple, accessible and friendly, with clear personalised questions. The pages are carefully designed to show the pupils a very clear route through each spread. Every page has a 'Things to do' section of questions. These are useful for homework, or as extra work for faster students, or for work during staff absence.

General Science, Grades 5 - 8 Nelson Thornes

Interactive Notebooks: Science for grade 1 is a fun way to teach and reinforce effective note taking for students. Students become a part of the learning process with activities about living and nonliving things, habitats, states of matter, light, soil, weather, and more! --This book is an essential resource that will guide you through setting up, creating, and maintaining interactive notebooks for skill retention in the classroom. High-interest and hands-on, interactive notebooks effectively engage students in learning new concepts. Students are encouraged to personalize interactive notebooks to fit their specific learning needs by creating fun, colorful pages for each topic. With this note-taking process, students will learn organization, color coding, summarizing, and other important skills while creating personalized portfolios of their individual learning that they can reference throughout the year. --Spanning grades kindergarten to grade 8, the Interactive Notebooks series focuses on grade-specific math, language arts, or science skills. Aligned to meet current state standards, every 96-page book in this series offers lesson plans to keep the process focused. Reproducibles are included to create notebook pages on a variety of topics, making this series a fun, one-of-a-kind learning experience.
