*Mentoring for Science Teachers* Teacher Created Resources

An insider's view on bringing extinct species back to life Could extinct species, like mammoths and passenger pigeons, be brought back to life? In *How to Clone a Mammoth*, Beth Shapiro, an evolutionary biologist and pioneer in ancient DNA research, addresses this intriguing question by walking readers through the astonishing and controversial process of de-extinction. From deciding which species

---

should be restored to anticipating how revived populations might be overseen in the wild, Shapiro vividly explores the extraordinary cutting-edge science that is being used to resurrect the past. Considering de-extinction's practical benefits and ethical challenges, Shapiro argues that the overarching goal should be the revitalization and stabilization of contemporary ecosystems. Looking at the very real and compelling science behind an idea once seen as science fiction, How to Clone a Mammoth demonstrates how de-extinction will redefine conservation's future.

#### Spotlight Science Petrogav International

The fourth estate.

#### Practice and Learn Nelson Thornes

In the last few years, the focus of the training of science teachers has shifted significantly towards the school based experience. Drawing on the successful Oxford University science internship scheme, this book presents insights of mentoring from several perspectives, providing a rich resource of case study material. After introductory chapters dealing with the rationale for the science internship course, the reader is presented with: logs of mentors' and students' experiences that offer 'windows' onto the mentoring process at different stages in the PGCE course; cameos of students who have been at the centre of a range of complex training situations; reflections of past PGCE students; and accounts of the experiences of heads of science departments when managing the placement of science PGCE students in their schools.

#### **Spotlight Science** Nelson Thornes

This is part of a science course for all abilities at Key Stage 3, designed to provide full and balanced coverage of the knowledge, skills and processes required by the National Curriculum Programme of Study. Three pupils' books (for Years 7, 8 and 9) are supported by corresponding teacher's guides.
