The face of 1980s television was shaped by a man who stayed behind the scenes. Stephen Cannell’s reluctant white knights—put-upon private eye James Rockford, World War II fly-boys the Black Sheep Squadron, hapless superhero Ralph Hinckley, fugitive mercenaries the A-Team, and maverick cop Hunter—traversed the television landscape from the 1970s to the 1990s. Cannell changed the face of the action-adventure genre, updating the crime-show format with a hybrid of rebellious morality, juvenile wit, intelligent sarcasm, and radical conservatism. This book discusses in detail the programs of the writer-producer and lists every episode of his award-winning productions from the early 1970s to the early '90s. The book features publicity photos and descriptions of unsold pilots.

For a Better World At Home in Exile
I am DONE with dragons.Especially my childhood friend, billionaire dragonshifter Lucas Randall, who claims I'm his mate. But I'm not the housekeeper's daughter anymore. No Randall is going to dictate my life again. So what if he's more than six feet of shockingly ripped muscle and I-know-you-Lana eyes. So what if his fiery touch makes me want a future I can never have. So what if all my body wants is to say yes, yes, YES. I will deny it all. Even if every atom in my messed up body craves him. I've got secrets he can never know. To mate the dragon is to condemn him to death. Lucas doesn't know what I am. But he will if he's around me much longer. I won't let that happen. Because I'm a monster now too.

Implement machine learning and deep learning methodologies to build smart, cognitive AI projects using Python Key FeaturesA go-to guide to help you master AI algorithms and concepts8 real-world projects tackling different challenges in healthcare, e-commerce, and surveillanceUse TensorFlow, Keras, and other Python libraries to implement smart AI applicationsBook Description This book will be a perfect companion if you want to build insightful projects from leading AI domains using Python. The book covers detailed implementation of projects from all the core disciplines of AI. We start by covering the basics of how to create smart systems using machine learning and deep learning techniques. You will assimilate various neural network architectures such as CNN, RNN, LSTM, to solve critical new world challenges. You will learn to train a model to detect diabetic retinopathy conditions in the human eye and create an intelligent system for performing a video-to-text translation. You will use the transfer learning technique in the healthcare domain and implement style transfer using GANs. Later you will learn to build AI-based recommendation systems, a mobile app for sentiment analysis and a powerful chatbot for carrying customer services. You will implement AI techniques in the cybersecurity domain to generate Captchas. Later you will train and build autonomous vehicles to self-drive using reinforcement learning. You will be using libraries from the Python ecosystem such as TensorFlow, Keras and more to bring the core aspects of machine learning, deep learning, and AI. By the end of this book, you will be skilled to build your own smart models for tackling any kind of AI problems without any hassle. What you will learnBuild an intelligent machine translation system using seq-2-seq neural translation machinesCreate AI applications using GAN and deploy smart mobile apps using TensorFlowTranslate videos into text using CNN and RNNImplement smart AI Chatbots, and integrate and extend them in several domainsCreate smart reinforcement, learning-based applications using Q-LearningBreak and generate CAPTCHA using Deep Learning and Adversarial Learning Who this book is for This book is intended for data scientists, machine learning professionals, and deep learning practitioners who are ready to extend their knowledge and potential in AI. If you want to build real-life smart systems to play a crucial role in every complex domain, then this book is what you need. Knowledge of Python programming and a familiarity with basic machine learning and deep learning concepts are expected to help you get the most out of the book

"Today's English classroom should not look like the English classes of the 1940s or even the 1980s. Students now engage in dozens of literacy activities that were unavailable just a generation ago." -Randy Bomer
Deciding what to teach in English class is more complicated-and more important-than ever. In Building Adolescent Literacy in Today's English

Classrooms, Randy Bomer summons his experiences as President of NCTE, Director of a National Writing Project site, a university professor, Co-director of the Teachers College Reading and Writing Project, and consultant in schools nationwide, to provide an approach to teaching English that works for today's adolescents. Building Adolescent Literacy in Today's English Classrooms is built on a foundation of research into best practices and infused with the importance of young people learning to interact with others' texts and to produce their own across many genres and media. Bomer tackles not only reading, writing, and assessment, but also crucial contemporary topics such as choice, ethnic diversity and multilingualism, attention management, technology, and struggling learners. To help prepare students to participate in a globalized, digital world, Building Adolescent Literacy in Today's English Classrooms provides a framework for making key instructional decisions, including how to: understand adolescents and their literacy needs through effective assessment use assessment to plan instruction that addresses whole-class and individual needs manage the classroom with predictable, flexible structures that support students' interests rather than suppress them give students opportunities to be motivated, critical, passionate readers and writers help adolescents become invested in a literate life with a meaningful curriculum whose aim is to empower them to connect with the world. "We have to help students become involved and invested in literate tasks that are significant to them," writes Randy Bomer, "not because they were born to love reading and writing but because of the ways literate activity connects to other things in life that matter to them." Building Adolescent Literacy in Today's English Classrooms shows how with vignettes from diverse classrooms, examples of real-life lessons, and a passion for teaching adolescents that will inspire and support preservice teachers across their entire careers.

When a BIG, lovable, does-it-her-way dog wiggles her way into the heart of a loudmouth pipsqueak of a boy, wonderful things happen that help him become a bigger, better person. Perfect for fans of Wonder and Because of Winn-Dixie. Timminy knows that moving to a new town just in time to start middle school when you are perfect bully bait is less than ideal. But he gets a great consolation prize in Maxi—a gentle giant of a dog who the family quickly discovers is deaf. Timminy is determined to do all he can to help Maxi—after all, his parents didn't return him because he was a runt. But when the going gets rough for Timminy, who spends a little too much time getting shoved into lockers at school, Maxi ends up being the one to help him—along with their neighbor, Abby, who doesn ’ t let her blindness define her and bristles at Timminy ’ s “ poor-me ” attitude. It turns out there ’ s more to everyone than what ’ s on the surface, whether it comes to Abby, Maxi, or even Timminy himself.

"Having been born a freeman, and for more than thirty years

enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

No play in the modern theatre has so captured the imagination and heart of the American public as Tennessee Williams's *The Glass Menagerie*. *Menagerie* was Williams's first popular success and launched the brilliant, if somewhat controversial, career of our pre-eminent lyric playwright. Since its premiere in Chicago in 1944, with the legendary Laurette Taylor in the role of Amanda, the play has been the bravura piece for great actresses from Jessica Tandy to Joanne Woodward, and is studied and performed in classrooms and theatres around the world. *The Glass Menagerie* (in the reading text the author preferred) is now available only in its New Directions Paperbook edition. A new introduction by prominent Williams scholar Robert Bray, editor of *The Tennessee Williams Annual Review*, reappraises the play more than half a century after it won the New York Drama Critics Circle Award: "More than fifty years after telling his story of a family whose lives form a triangle of quiet desperation, Williams's mellifluous voice still resonates deeply and universally." This edition of *The Glass Menagerie* also includes Williams's essay on the impact of sudden fame on a struggling writer, "The Catastrophe of Success," as well as a short section of Williams's own "Production Notes." The cover features the classic line drawing by Alvin Lustig, originally done for the 1949 New Directions edition.
