The publication of the first edition of *Physics* in 1960 launched the modern era of physics textbooks. It was a new paradigm then and, after 40 years, it continues to be the dominant model for all texts. The big change in the market has been a shift to a lower level, more accessible version of the model. *Fundamentals of Physics* is a good example of this shift. In spite of this change, there continues to be a demand for the original version and, indeed, we are

seeing a renewed interest in Physics as demographic changes have led to greater numbers of well-prepared students entering university. The long awaited new edition of Swimming updates the highly successful first edition edited by Costill, Maglishco and Richardson which was published in the early 1990s. The Second Edition contains less material on how to swim and more on the physics of swimming. It contains information on the latest methods of analyzing swim

performances. It presents current sports science knowledge specifically relevant to coaching swimmers at club, county or national level. Covering characteristics of swimming including important concepts in propulsion, functional anatomy, physiology, biochemistry, biomechanics and psychology. The Handbooks of Sports Medicine and Science present basic clinical and scientific information in a clear style and format as related to specific sports events drawn from the Olympic Summer and Winter Games. Each Handbook is written by a small team of authorities co-ordinated by an editor who has international respect and visibility in the particular sport activity. Their charge is to present material for medical doctors who work with athletes, team coaches who have academic preparation in basic science, physical therapists and other allied health personnel, and knowledgeable athletes. Each volume represents up-to-date information on the basic biology of the sport, conditioning techniques, nutrition, and the medical aspects of injury prevention, treatment, and rehabilitation. **Tome of Magic** Causey Enterprises, LLC PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the
