The recent global financial and

economic crisis has had surprising effects on several economies worldwide. This global event has promoted the discussion on how ethical, transparent, and rigorous the accountability of public sector institutions is. However, public manager accountability is translated into a vision that goes beyond its sphere of activity, demanding information on how public resources have been managed based on the maximization of social welfare and sustainable development. Tools, Strategies, and Practices for Modern and Accountable Public Sector Management is an essential reference source that discusses the process behind how public resources are managed as well as how they are coordinated to achieve collective success. Featuring research on topics such as corporate responsibility, fiscal accountability, and public administration, this book is ideally designed for researchers, managers, financial authorities, auditors, public managers, public administrators, regulatory authorities, accountants, professionals, and students involved with the accountability and reform of public management in local governments.

This publication is part of a

series of six country reports on technical and vocational education and training (TVET) and higher education in Bangladesh, Nepal, and Sri Lanka. Each report presents current arrangements and initiatives in the respective country's skills development strategies. These are complemented by critical analyses to determine key issues, challenges, and opportunities for innovative strategies toward global competitiveness, increased productivity, and inclusive growth. The emphasis is to

make skills training more relevant, efficient, and responsive to emerging domestic and international labor markets. The reports were finalized in 2013 under the Australian AID-supported Phase 1 of Subproject 11 (Innovative Strategies for Accelerated Human Resource Development) of Regional Technical Assistance 6337 (Development Partnership Program for South Asia).

Since the late 1970s, Sri Lanka has undergone a socio-economic

transformation, from protectionism towards economic liberalisation and increasing integration into the world economy. Through a systematic comparison of these periods of economic change (1956–1977, and 1977 to the present), Angela W. Little and Siri T. Hettige examine the impact of this transformation on education, youth employment and equality of opportunity in Sri Lanka. The book charts Sri Lanka's shift from a predominantly agricultural economy to one dominated by services and manufacturing, a reduction in unemployment, rising educational and occupational levels, expectations and achievements, and a reduction in poverty. In turn, it reveals a growing role for the private sector and foreign interests in post-secondary education and a modest growth in private education at the primary and secondary levels, as well as widening social disparities in access to qualifications, training and skills. The Sri Lankan experience of, and engagement with, globalisation has been tempered by a long-running ethnic conflict that hindered economic and social development and diverted considerable public

funds into defence and war. Now that the war is 'won', the challenge is how to invest in human resource development and the fulfilment of the expectations of youth from all ethnic and social groups. This challenge requires serious policy analysis, the generation of more state revenues, the reallocation of existing public resources, and a political commitment to the winning of a sustainable peace and stability. This book makes an important contribution to the broader international literature on the implications of globalisation for education policy and practice, and to the interaction of exogenous and endogenous forces for educational change. It deals with the tension between the high social demand for education and the growing demand for specialised skills in a changing economy. As such, it has a wide interdisciplinary appeal across education policy and politics, Asian education, South Asian society, youth policy, sociology of education, political economy of social change, and globalisation.

This book examines and explains the intellectual capital

reporting practices, with a human capital focus, of firms located in the developing nation of Sri Lanka. The study ascertains the following: first, to what extent the industry groups, based on the number of shareholders, differ in their ICR practices; and second, to what extent firms in Sri Lanka differ from counterparts in other nations in their intellectual capital reporting practices. An important aspect of this book is looking at the practices from a critical perspective to providing a more balanced view of 'good' and 'bad' effects of intellectual

capital. The book meticulously outlines an extensive literature review, research methods, the theoretical perspective, findings with an engaging discussion, and concluding remarks. Indra Abeysekera's fine research project is an impressive contribution to an emerging area of interest throughout academia and industry.

'Colombo Hilton Hotel
Construction' - 'Fraud on Sri
Lanka Government' - 'Sri
Lanka's First Derivative Action
in Law', startlingly unravels
the major fraud on the
Government of Sri Lanka by
reputed multi-nationals,
colluding with socio-
politically influential,
endeavouring to fraudulently

'siphon out a large scale of foreign exchange on government guarantees', , which was successfully prevented through injunctions affirmed by the Supreme Court of Sri Lanka. 'On sovereign guarantees of the Government of Sri Lanka, the Colombo Hilton Hotel was to be constructed, equipped and furnished, on a 'turnkey fixed price basis' by a Japanese consortium comprising Mitsui & Co. Ltd., and Taisei Corporation, supervised and designed by Kanko Kikaku Sekkeisha Yozo Shibata & Associates, with technical assistance in planning and

construction from Hilton International, United States of America, who were to operate and manage the Hotel. During construction a staged fire allegedly destroyed all plans and documents, and surreptitiously the original plans substituted, and the hotel constructed with two floors short and without the basements contrary to the original plans, based upon which Sri Lanka Government guarantees had been obtained. 'The book essentially reveals the process of litigation by one minority shareholder, single-handedly combating socio-politically

powerful influential fraudulent miscreants; lucidly narratively setting out pleadings, counter-affidavits, further pleadings, interrogatories, pre-trial processes, objections, written submissions, District and Appeal Court orders, and the landmark historic judgment by the Supreme Court of Sri Lanka, demonstrating its independence in pronouncing - 'in the given circumstances the Government could not be indifferent', - resulting in the Japanese multi-nationals writing-off a colossal sum of US \$ 207 million in 1995. 'This is an invaluable and indispensable research book for both academics and professionals of law, particularly on the rights of minority shareholders in corporates, and for those interested in the combat of fraud and corruption at the highest levels in a country.

As the centre of world economic

development has shifted towards Asia over the last two decades, many Asian countries have witnessed rapid growth in economic and business operations. In light of these recent changes, accounting has played a significant role in assisting economic transition and advancement in Asian countries. However, although the general trend over recent decades towards convergence in financial reporting standards and practices has dramatically improved the comparability of accounting information, considerable variances remain in practices between countries. This Handbook therefore provides an up-to-date review of contemporary accountancy across Asia, illustrating how standards have been reshaped to accommodate the needs of economic and social trends. As well as providing an overview of standards in the larger Asian economies of China, India and Japan, contributions to the Handbook also include studies of countries such as Sri Lanka, Nepal, Cambodia and Mongolia. In particular, this Handbook analyses: financial accounting and reporting management accounting auditing and accounting professionalization governmental and public-sector accounting accounting education accounting development in Asian emerging economies The Routledge Handbook of Accounting in Asia offers students, academics, regulators and practitioners an essential reference guide to the
