Made Java Skills Easy !! @ _@ _____
Introduction to Java Programming, Comprehensive Version (8Th & 10th Best Selling Edition) Easy Standard Special Beginner's To Expert Edition for Students and IT Professional's 2014. This Java Book is One of worlds Best Java Book, Author teaches concepts of problem-solving and object-oriented programming using a fundamentals-first approach. Beginning programmers learn critical problem-solving techniques then move on to grasp the key concepts of object-oriented, GUI programming, advanced GUI and Web programming using Java. Regardless of major, students will be able to grasp concepts of problem-solving and programming — thanks to Authors' fundamentals-first approach, students learn critical problem solving skills and core constructs before object-oriented programming. Authors' approach has been extended to application-rich programming examples, which go beyond the traditional math-based problems found in most texts. Students are introduced to topics like control statements, methods, and arrays before learning to create classes. Later chapters introduce advanced topics including graphical user interface, exception handling, I/O, and data structures. Small, simple examples demonstrate concepts and techniques while longer examples are presented in case studies with overall discussions and thorough line-by-line explanations. Increased data structures chapters make the Tenth Edition ideal for a full course on data structures. BRIEF CONTENTS- ============= 1. Introduction to Computers, Programs, and Java-1 2. Elementary Programming -23 3.

The Cross Section of Stock Returns by Mocktime Publication This colossal Guide includes information on every top level event, every IIHF member nation, and, indeed, every player to appear in even a single game since international hockey first took hold in 1920. In all, more than 12,000 players are included, as well as every coach, every referee, every linesman and every stat imaginable. The 2012 IIHF Guide and Record Book is the official and only complete source of information for international hockey. It covers all top-level events from the Olympics to World Championships to junior events, from men's hockey to women's hockey, from 1920 to the past and present seasons. At 640 pages, it contains the scores and standings for every international game and event ever contested, the statistics for every player, coach, and on-ice official in IIHF competition history, and the results and histories of every nation that has ever participated in an IIHF event. Full of information on every aspect of the international game, this is the one and only source fans will need if they are interested in the World Junior Championship, Team Canada, or any other aspect of the international game. With a special section on the World Junior Championships taking place in Alberta this Christmas,

this is the most important book hockey fans will need this season.

Math Guide Book BSSC BIHAR PUBLIC SERVICE COMMISSION by Mocktime Publication

"Bali, Engle, and Murray have produced a highly accessible introduction to the techniques and evidence of modern empirical asset pricing. This book should be read and absorbed by every serious student of the field, academic and professional." Eugene Fama, Robert R. McCormick Distinguished Service Professor of Finance, University of Chicago and 2013 Nobel Laureate in Economic Sciences "The empirical analysis of the cross-section of stock returns is a monumental achievement of half a century of finance research. Both the established facts and the methods used to discover them have subtle complexities that can mislead casual observers and novice researchers. Bali, Engle, and Murray's clear and careful guide to these issues provides a firm foundation for future discoveries." John Campbell, Morton L. and Carole S. Olshan Professor of Economics, Harvard University "Bali, Engle, and Murray provide clear and accessible descriptions of many of the most important empirical techniques and results in asset pricing." Kenneth R. French, Roth Family Distinguished Professor of Finance, Tuck School of Business, Dartmouth College "This exciting new book presents a thorough review of what we know about the cross-section of stock returns. Given its comprehensive nature, systematic approach, and easy-to-understand language, the book is a valuable resource for any introductory PhD class in empirical asset pricing." Lubos Pastor, Charles P. McQuaid Professor of Finance, University of Chicago Empirical Asset Pricing: The Cross Section of Stock Returns is a comprehensive overview of the most important findings of empirical asset pricing research. The book begins with thorough expositions of the most prevalent econometric techniques with in-depth discussions of the implementation and interpretation of results illustrated through detailed examples. The second half of the book applies these techniques to demonstrate the most salient patterns observed in stock returns. The phenomena documented form the basis for a range of investment strategies as well as the foundations of contemporary empirical asset pricing research. Empirical Asset Pricing: The Cross Section of Stock Returns also includes: Discussions on the driving forces behind the patterns observed in the stock market An extensive set of results that serve as a reference for practitioners and academics alike Numerous references to both contemporary and foundational research articles Empirical Asset Pricing: The Cross Section of Stock Returns is an ideal textbook for graduate-level courses in asset pricing and portfolio management. The book is also an indispensable reference for researchers and practitioners in finance and economics. Turan G. Bali, PhD, is the Robert Parker Chair Professor of Finance in the McDonough School of Business at Georgetown University. The recipient of the 2014 Jack Treynor prize, he is the coauthor of Mathematical Methods for Finance: Tools for Asset and Risk Management, also published by Wiley. Robert F. Engle, PhD, is the Michael Armellino Professor of Finance in the Stern School of Business at New York University. He is the 2003 Nobel Laureate in Economic Sciences, Director of the New York University Stern Volatility Institute, and co-founding President of the Society for Financial Econometrics. Scott Murray, PhD, is an Assistant Professor in the Department of Finance in the J. Mack Robinson College of Business at Georgia State University. He is the recipient of the 2014 Jack Treynor

prize.
