The book that inspired the major new motion picture *Mandela: Long Walk to Freedom*. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and

the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital

force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

Ten Days That Shook the World is John Reed's eyewitness account of the Russian Revolution. A contemporary journalist writing in the first flush of

revolutionary enthusiasm, he gives a gripping record of the events in Petrograd in November 1917, when Lenin and the Bolsheviks finally seized power. Containing verbatim reports both of speeches by leaders and the chance comments of bystanders, set against an idealized backcloth of the proletariat, soldiers, sailors, and peasants uniting to throw off oppression, Reed's account is the product of passionate involvement and remains an unsurpassed classic of reporting.
