The Future of Nursing explores how nurses' roles, responsibilities, and education should change significantly to meet the increased demand for care that will be created by health care reform and to advance improvements in America's increasingly complex health system. At more than 3 million in number, nurses make up the single largest segment of the health care work force. They also spend the greatest amount of time in delivering patient care as a profession. Nurses therefore have valuable

insights and unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act (ACA) enacted this year. Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States. To ensure its members are well-prepared, the profession should institute residency training for nurses, increase the percentage of nurses who attain a bachelor's degree to 80 percent by 2020, and double the number who pursue doctorates. Furthermore, regulatory and institutional obstacles -- including limits on nurses' scope of practice -- should be removed so that the health system can reap the full benefit of nurses' training, skills, and knowledge in patient care. In this book, the Institute of Medicine makes recommendations for an action-oriented blueprint for the future of nursing.

Nursing Model Question - Paper Part 5 - 2021 Svastham 24/7

There is an entrance exam in all fields to take government job. There is also entrance exam for Nurses to take job in state and central government. The nursing students face difficulty to find comprehensive book of multiple choice questions. So I write this book for all nursing personal that appeared for entrance exam. I have prepared MCQ from all Nursing subjects according to the Indian Nursing council syllabus. The question of Nutrition, sociology and Nursing education are merged in Community health Nursing. The question of pediatric Nursing is included in OBG. The subject Medical Surgical Nursing covers the question of Anatomy. This book is useful for all state and central government exam such as AIIMS Hospital, Railway Hospital, Army Hospital, Nursing Tutor exam, M Sc Nursing Entrance, IGNUO entrance, NCLEX RN, CNRE, HAAD, DHA, Qatar Prometric etc. This book is also useful for paper setter and examiner. This book is useful for GNM and B Sc Nursing students also because the students can give answer the objective question of University and Nursing council paper. I hope this book will be useful for all Nursing personal to achieve their goal and also useful for update theoretical knowledge. I have tried to make this book error free. Your feedbacks are welcome. Thanking you....
