Fact Sheets & Analysis - American Staffing Association

Conducting a staff development needs assessment

What is needs assessment? Needs assessment is defined in the Family Planning Manager's Handbook, a publication that provides information regarding how to run a family planning program (available electronically from the Manager's Electronic Resource Center), as:

. An analysis that studies the needs of a specific group (employees, clients, managers

...

Staffing Client Needs Analysis

Staffing models are tools your client's hiring department can use to determine how many employees they need and when they need them. When a client makes a staffing model, they will consider ways to increase productivity, cut costs, and increase revenue. They will analyze what employee skills already exist at the business and what skills are still needed.
