Friendly, Texas is about to get a facelift... Folks never dreamed an angel, a devil and a discouraged teen girl could pull this town together But that's exactly what happens when Allie McCall skips school one day. After being falsely accused of cheating, she hides out in the derelict community church downtown. There, she meets Daniel, an angel with silver hair and blue eyes. Counting on her gritty tenacity, he asks

her to help rebuild the church. When Allie reluctantly agrees, her everyday life turns upside down. Ethan, one of Satan's disciples, is out to thwart Daniel ' s plan, and she ' s horrified to find herself his newest target. She rescues her sweet, eccentric neighbor from Ethan ' s clutches, knowing that she hasn ' t seen the last of him. Determined to follow Daniel ' s plan, Allie puts her faith—in fact, her life—on the line to inspire her neighbors, recruit investors, coordinate materials, and battle Satan ' s minion. Can she awaken her small town ' s spiritual passion while reconciling with her mother, keeping up her grades, learning to play basketball and maybe, just maybe, finding a boyfriend? Is it possible that one angel could actually work that many miracles around a girl whose only assets are faith and courage? "Allie McCall is a fun, funny, engaging heroine, and her faith journey speaks to us all. She faces challenges and accomplishes things she never imagined as she rallies her town, full of quirky characters, to work wonders. Miracles do happen and, if Allie can hang onto faith, then friendship, family and love will win the day. I chuckled over Allie ' s teenage moments, cheered for her as she won over the town ' s curmudgeons, and enjoyed every minute that I spent in the town of Friendly!" Mr. Quickstep, accompanied by his dog Foxtrot, is looking for the future. On the way, they meet up with Coppernickel and his dog Tungsten. Coppernickel says there ' s no need to look for the future, as it will arrive anyway. Mr. Quickstep disagrees, for the future he ' s after hasn't even been thought of yet. Left behind, Coppernickel worries that he will miss out if he doesn ' t follow Mr. Quickstep, so he sets off with Tungsten. Naturally, Coppernickel and Mr. Quickstep bump into each other again, which allows Mr.Quickstep to fling open the door to the future by showing Coppernickel his last, most modern work. What stands out here is how Mr. Quickstep's attempt to find an abstract essence in the very stuff of reality is woven right into the illustrations of this graphically distinguished work, giving children the sense that the future is theirs to create as they see it. Dreams can become reality and in the process we too will be transformed. Wouter van Reek went to art school, which was too easy, so he changed to mathematics, which was too hard, so he changed back to art. After art school, he created an animated cartoon series for TV, introducing Keepvogel (Coppernickel) and Tungsten, a super bird/dog team. Wouter has created numerous animations and books about these famous and beloved Dutch characters.

Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be.

"The Masque of the Red Death", originally published as "The Mask of the Red Death: A Fantasy", is an 1842 short story by American writer Edgar Allan Poe. The story follows Prince Prospero's attempts to avoid a dangerous plague, known as the Red Death, by hiding in his abbey. He, along with many other wealthy nobles, hosts a masquerade ball within seven rooms of the abbey, each decorated with a different color. In the midst of their revelry, a mysterious figure disguised as a Red Death victim enters and makes

his way through each of the rooms. Prospero dies after confronting this stranger, whose "costume" proves to contain nothing tangible inside it; the guests also die in turn. Poe's story follows many traditions of Gothic fiction and is often analyzed as an allegory about the inevitability of death, though some critics advise against an allegorical reading. Many different interpretations have been presented, as well as attempts to identify the true nature of the titular disease. The story was first published in May 1842 in Graham's Magazine and has since been adapted in many different forms, including a 1964 film starring Vincent Price.
