Problem-based learning (PBL) has excited interest among educators around the world for several decades. Among the most notable applications of PBL is the approach taken at the Faculty of Health, Medicine and Life sciences (FHML) at Maastricht University, the Netherlands. Starting in 1974 as a medical school, the faculty embarked on the innovative pathway of problem-based learning, trying to establish a medical training program which applied recent insights of education which would be better adapted to the needs of the modern physician. The medical school, currently part of the FHML, can be considered as an 'established' school, where original innovations and educational changes have become part

of a routine. The first book to bring this wealth of information together, *Lessons from Problem-based Learning* documents those findings and shares the experiences of those involved, to encourage further debate and refinement of problem-based learning in specific applications elsewhere and in general educational discussion and thought. Each chapter provides a description of why and what has been done in the Maastricht program, followed by reflection on the benefits and issues that have arisen for these developments. The final section of the book examines the application of PBL in the future, and how it is likely to develop further.

Founded in 1959 with the purpose of disseminating the most recently developed scientific information to groups in industry, government, high schools, and universities, REA has since become a successful and highly respected publisher of study aids, test preps, handbooks, and reference works. REA's Test Preparation series includes study guides for all academic levels in almost all disciplines. Research & Education Association publishes test preps for students who have not yet completed high school, as well as high school students preparing to enter college. Students from countries around the world seeking to attend college in the United States will find the assistance they need in REA's publications. For college students seeking advanced degrees, REA publishes test preps for many major graduate school admission examinations in a wide variety of disciplines, including engineering, law, and medicine. Students at every level, in every field, with every ambition can find what they are looking for among REA's publications. While most test preparation books present practice tests that bear little resemblance to the actual exams,

REA's series presents tests that accurately depict the official exams in both degree of difficulty and types of questions. REA's practice tests are always based upon the most recently administered exams, and include every type of question that can be expected on the actual exams. REA's publications and educational materials are highly regarded and continually receive an unprecedented amount of praise from professionals, instructors, librarians, parents, and students. Our authors are as diverse as the fields represented in the books we publish. They are well-known in their respective disciplines and serve on the faculties of prestigious high schools, colleges, and universities throughout the United States and Canada. ABOUT THE BOOK This book provides you with an accurate and complete representation of the SAT II: English Language Proficiency Test (ELPT). The four sample tests are based on the most recently administered ELPT examination. Our reviews are designed to prepare you for the types of questions you can expect to see when taking the actual test. You will be given one hour to complete each sample test. The sample tests contain every type of question that you may expect to appear on the actual exam. Following each test you will find an answer key and detailed explanations which are designed to help you understand the test material. Copies of this book include audio cassettes, containing the listening comprehension sections from the four sample tests. These tapes will help you improved your listening skills and prepare you for the listening comprehension portions of the ELPT. ABOUT THE TEST Who Takes the Test and What is it Used for? Any American secondary school student with English as a second language or limited English proficiency who has had at least two years of high school study in the United States can take this exam. The English Language Proficiency Test is used to measure your reading and listening skills in English. Unlike English test that focus on grammar and language structure, the ELPT uses everyday-life examples to test a student's ability to function in an English-speaking environment. The test is used by colleges and universities as an indicator of a student's ability to use English in life situations. It can also be used as a measure for academic placement. Students entering the workforce can use the ELPT to demonstrate their ability to understand written and spoken English. Who Administers the Test? The ELPT is developed and administered by the Educational Testing Service (ETS). The questions for the ELPT are developed by language specialists who follow standardized procedures which ensure a high quality of work. All questions are reviewed by many people, revised as necessary, and then are administered in

trial test situations, before being compiled into a test format. According to ETS, the tests are then reviewed, using specific procedures, to ensure that they are free from cultural bias and that they will properly measure student's knowledge. When Should the ELPT Be Taken? The ELPT should be taken by American high school students who have completed two to four years of training in an English as a Second Language program or an English enrichment course. The examination should be taken prior to graduation from high school. When and Where is the Test Given? The ELPT is administered twice a year, once at SAT test centers and once at participating high schools. The first test administration date is in November at SAT test centers. The second administration date is in April at participating high schools. To receive information on upcoming administrations of the exam, consult the publication Taking the SAT II: Subject Tests, which can be obtained from your guidance counselor or by contacting: College Board SAT Program P.O. Box 6200 Princeton, NJ 08541-6200 Phone: (609) 771-7600 Website: <http://www.collegeboard.com> You must pay a registration fee to take the SAT II: English Language Proficiency Subject Test. Consult the publication Taking the SAT II: Subject Tests for information on the fee structure. Financial assistance may be granted in certain situations. To find out if you qualify and to register for assistance, contact your academic advisor. HOW TO USE THIS BOOK What Do I Study First? Before you do anything else, you should take the first practice test which appears after the two review sections. After you complete this test, you will be able to determine what areas are causing you difficulty and should be studied first, so that you can strengthen your weaknesses. After you have thoroughly studied the areas with which you are having problems, you may want to retake Test 1 to gauge your improvement in these areas. When you feel comfortable with the areas which have previously caused you difficulty, you should then begin reviewing and preparing for each section of the ELPT. When should I start studying? It is never too early to start studying for the ELPT, the earlier the better. You should start studying as soon as possible so that you will be able to learn more. Make sure you take the first practice test before you start studying can help you strengthen your problem areas before you run out of time to study. Last minute studying and cramming is not an efficient way to study and does not allow you to learn the material which you will need to know for the exam. How else can I improve my English speaking and writing skills while preparing for the test? In addition to using Test 1 to determine your problem areas, make sure you study all of the reviews. The reviews will cover the information

you will need to know for the exam. You should also test yourself by completing as many of the practice tests as you possibly can. Besides using this book, there is one way you can familiarize yourself with written English - READ! Reading will help you improve your writing skills because you will have become acquainted with correct structure and phrasing in written English. You should read newspaper and magazine articles and advertisements. Read the college admissions material and college catalogs of the schools to which you are applying. You should also read books of interest to you. Just make sure you read, read, READ! There are many ways you can familiarize yourself with spoken English. If you are in your car, turn on the radio. Listening to radio newscasts and weather reports can also help prepare you for the test. You should watch television documentaries, go to lectures, and even go to the movies. Doing all of these things will help your perception of spoken English and will help prepare you for the listening comprehension sections, and may even aid in building your vocabulary. FORMAT FOR THE ELPT Section / Time Allotted / Questions Part A: Listening Comprehension - Rejoinders / 10 minutes / 14 questions Part B: Reading Comprehension - Realia / 30 minutes / 42 questions Part C: Listening Comprehension - Narratives and Dialogues / 20 minutes / 28 questions The ELPT will take about one hour to complete, plus about 20 minutes of administration time. All of the questions in the ELPT will be multiple choice. Each question is rated as either superior, advanced, or intermediate. These ratings distinguish the difficulty level of a question and aids in scoring the student's proficiency rating. Each question will have four answer choices from which to choose. You should be aware of the amount of time you have to complete each section of the test, so that you do not waste too much time working on difficult questions, while neglecting to answer easy questions. Speed is very important. Using the practice tests will help you prepare for this. Taking as many of the practice tests as possible, and making sure to time yourself, will help you become accustomed to the time constraints. Repeating this process will help you develop speed in answering the questions because you will become more familiar with the format. First, make sure you know how much time you have to complete each section. Second, read the directions to each section so that you understand it completely. Third, you should become familiar with the three parts of the ELPT. These sections are: PART A: Listening Comprehension - Rejoinders In this section, which makes up 17 percent of the test, your ability to respond to and understand spoken English will be tested. A tape recording of

conversations will be played for you. You will then have seven seconds to choose the answer that would best continue the conversation. The questions, the conversations, and the answer choices will not appear in your test booklet. When you take the sample tests, take Part A for Tests 1-4 by using the provided tapes. Students will be given 10 minutes to complete the 14 questions in Part A. To study for this section, turn to the Listening Comprehension Review - Rejoinders. PART B: Reading Comprehension - Realia This section, which makes up 50 percent of the test, will test your ability to understand written English through published material such as signs, advertisements, directions, menus, labels, tickets, and street signs. The items in this section will include a piece of "realia" and test the students' ability to understand its content. Students will be given 30 minutes to complete the 42 questions in Part B. To study for this section, turn to the Reading Comprehension Review - Realia. PART C: Listening Comprehension - Narratives and Dialogues This part, which makes up 33 percent of the test, will have several spoken announcements or conversations which the students listen to and then answer questions about the content or main points of what was said on the tape. The students will be given 12 seconds to complete each question. Part C has 28 questions that must be completed in 20 minutes. To study for this section, turn to the Listening Comprehension Review - Narratives and Dialogues. ABOUT THE REVIEW SECTIONS Our reviews are written to help you understand the concepts behind the questions which will be asked in the ELPT. They will help you to prepare for the actual test. They contain study tips on how to choose the best answer quickly and accurately. Also, there will be many drills which will help you in studying for the ELPT. You should use the reviews in conjunction with the diagnostic test and its cross-referencing table, which can show you what areas you need to study the most. The three review sections in this book correspond to the test sections of the official ELPT. Listening Comprehension Reviews Both Listening Comprehension parts of the ELPT (Rejoinders and Narratives and Dialogues) will be discussed in great detail in this review. It will illustrate for you the different forms of questions that may appear in those parts of the ELPT. Through using this review, you will learn how to listen for key words and phrases. A number of study tips have been included to help you concentrate more effectively and choose the correct answer quickly. Reading Comprehension Review This review will describe for you the "realia" that will be presented in Part B of the ELPT. The review will help you learn how to understand the content of various signs, menus, directions, etc. STUDYING

FOR THE ELPT At first glance, the ELPT may appear to be primarily a test of written English. However, the ELPT not only tests your written English ability, but it also tests your ability to understand spoken English. By using the tests contained in this book, you will be able to develop your abilities in both of these areas. It is important for you to discover the time and place that works best for you. Some students may set aside a certain number of hours every morning to study, while others may choose to study at night before going to sleep. Other students may study during the day, while waiting on line, or they may even listen to English tapes while doing chores. Only you can determine when and where your study time will be most effective. The most important factor to keep in mind is consistency. Work out a study routine and stick to it! You may want to follow a schedule similar to the one presented at the beginning of this book. Depending on how long before the exam you begin to study, you may want to add to this schedule or condense it. Be sure to take the first practice test before you begin studying the reviews in this book. By taking the practice test before studying you will determine your strengths and weaknesses, enabling your studying to be more concise and effective. When you take the practice tests, you should sit down at a quiet table and time yourself. Try to make the conditions as much like a test center as possible by removing all distractions. Afterwards, you should check each answer and thoroughly review the reasoning behind each question that you missed. You should not review too much at one time. Concentrate on each of your problem areas individually, until you feel comfortable with your ability in each of those areas. Write in the margins and spaces of this book when practicing, and write in the test booklet when taking the test. You should use this space to make notes to yourself, especially notes to go back to a certain question. You should also cross out answers that you know are incorrect. Although you can write in your test booklet, make sure you do not write anything on your answer sheet, except to mark the answer you chose. Keep track of your scores! You will be able to gauge your progress and discover general weaknesses in particular sections. You may find it very helpful to work with someone else. If possible, you should find a friend or classmate who is also taking the test. You may even find it convenient to ask a native speaker of English to help you practice.

ELPT TEST-TAKING TIPS

You may be unfamiliar with standardized tests such as the ELPT. There are many ways to acquaint yourself with this type of examination. Listed below are points to help you become familiar with the ELPT, some of which may be applied to other standardized tests.

How to Beat the Clock

Become comfortable with the format of

the exam. When you are practicing to take the ELPT, pretend that you are under the same time constraints as you would during the test. Stay calm, pace yourself, and pay attention to the clock. Practice these techniques thoroughly. After simulating the test only a few times, you will be better able to sit down for the actual ELPT much more confidently and boost your chances of doing well. Become familiar with the directions. Make sure you understand them before you take the exam, so that you do not waste valuable time on the exam. Know the format for each section before you actually take the test. This will not only save you valuable time, but also ensure that you are familiar enough with the exam to avoid nervousness (and the mistakes that come from being nervous). Work on the easier questions first. Mark the very difficult questions (in the test booklet, not on the answer sheet) and continue. Remember, only correct answers will be counted in your score. You will not be penalized for guessing, so when you have either answered or marked all of the questions, go back and answer any of the difficult questions that you may have skipped. If you find yourself working too long on one question, mark it and go on. Be sure that you are marking your answer in the space that corresponds to the number of the question in the test booklet. Know how much time is allowed for each section. Remember that you are racing against the clock. This is why you should not spend too much time on a single question. Budget your time. Every question has the same value, whether it is difficult or easy, so it is important to move on if a question becomes too time consuming. Pace yourself and make sure to check your time periodically to make sure that you are moving at a good rate. Should I Guess? If you don't know the answer to a question, guess! Cross out and eliminate answers (in the test booklet) that you know are wrong, and then pick the best answer from the ones that are left. Even if you can't eliminate any answers, guess anyway! Remember that there is no penalty for guessing, and only correct answers are counted. If you guess, you may increase your number of correct answers. The Day of the Test On the day of the test, you should wake up early (hopefully after a decent night's rest) and have a good breakfast. Make sure you dress comfortably, so that you are not distracted by being too hot or too cold while taking the exam. You should plan to arrive at the test site early. By being early, you will spare yourself the anxiety of being late for the test. It will also allow you to collect your thoughts and to relax before taking the exam. Before you leave your home, make sure you have all the necessary information to be admitted into the test site. You should consult your ELPT handbook for exact requirements. Make sure you bring at least two

sharpened #2 (or HB) pencils, with erasers, to the exam. The pencils should be medium-soft with black lead. You may want to wear a watch to the test site; however, only ordinary watches will be permitted. Watches with alarms, calculator functions, flashing lights, beeping sounds, etc., will not be allowed in the test site. No food will be allowed into the examination room. During the Test When you arrive at the test center, you will be assigned a seat in the examination room by a member of the test site staff. You will not receive a break during the examination. If you need to use the rest room, or if you become ill, you may leave the examination room, but you must first give the test supervisor your identification documents before you leave the room. If you do leave the room, you will not be allowed to make up any lost time. Once you enter the test site, follow all the instructions given by the test supervisor. If you do not, you risk being dismissed from the examination or having your ELPT scores voided (they will not be scored). Your answer sheet will not be scored and your test payment will not be refunded if you try to remove a test booklet, an answer sheet, or any tape from the test center. All the test materials are the property of Educational Testing Service and legal action may be taken against you if you try to take home test materials or copy them in any way. There are also regulations that, if not followed, will void your answer sheet and then your test payment will not be refunded for any reason. Check your ELPT handbook for a list of these regulations. When all of the test materials have been passed out, the test instructor will give you directions for filling out one side of your answer sheet. You must fill out this sheet carefully since this information will be printed on your score report. Fill out your name exactly as it appears on your identification documents, unless otherwise instructed. Remember to write in the margins and spaces of your test booklet, leaving notes for yourself to return to a question, or just to cross out incorrect answers. Make sure you do not write on your answer sheet, except to fill in the oval corresponding to the answer you chose. You will be marking your answers on the side two of your answer sheet. Each numbered row will contain four ovals corresponding to each answer choice for that question. Fill in the oval which corresponds to your answer darkly, completely, and in a neat manner. You can change your answer, but remember to completely erase your old answer. Only one answer should be marked. This is very important, as your answer sheet will be scored by machine and stray lines or unnecessary marks may cause the machine to score your answers incorrectly. Only work on the section of the test which the test instructor has instructed you to work on. You should

begin only when instructed to do so, and stop, immediately, when instructed to end. Do not turn to the next section of the test until you are told to do so. When all of the sections have been completed, you should remain seated until all of the test materials have been collected. You will have to wait for your test results to arrive in the mail, which usually takes about one month.

This volume brings together selected contributed papers presented at the International Conference of Computational Methods in Science and Engineering (ICCMSE 2006), held in Chania, Greece, October 2006. The conference aims to bring together computational scientists from several disciplines in order to share methods and ideas. The ICCMSE is unique in its kind. It regroups original contributions from all fields of the traditional Sciences, Mathematics, Physics, Chemistry, Biology, Medicine and all branches of Engineering. It would be perhaps more appropriate to define the ICCMSE as a conference on computational science and its applications to science and engineering. Topics of general interest are: Computational Mathematics, Theoretical Physics and Theoretical Chemistry. Computational Engineering and Mechanics, Computational Biology and Medicine, Computational Geosciences and

Meteorology, Computational Economics and Finance, Scientific Computation.

High Performance Computing, Parallel and Distributed Computing, Visualization, Problem Solving Environments, Numerical Algorithms, Modelling and Simulation of Complex System, Web-based Simulation and Computing, Grid-based Simulation and Computing, Fuzzy Logic, Hybrid Computational Methods, Data Mining, Information Retrieval and Virtual Reality, Reliable Computing, Image Processing, Computational Science and Education etc. More than 800 extended abstracts have been submitted for consideration for presentation in ICCMSE 2005. From these 500 have been selected after international peer review by at least two independent reviewers.
