Publications – Star-Gazing

Stargazing is a magical way to bring science alive and to experience the beauty of our natural world.

Looking up at the great canopy of space is a powerful experience, which everyone can enjoy. What's more, stargazing is no.27 on our list of '50 things to do before you're 11¾'. Grab

your coats, find a cosy spot to lie down in your back garden or look out of your window. The longer you look up, the more stars you'll discover.

BBC Stargazing Live Star and Moon Guide

Your smartphone is one of your best stargazing friends – download either the Night Sky app or Sky Map, set your phone to night vision and simply point your phone at the sky. It will show you the constellations you're looking at by identifying the stars using an inbuilt GPS. If you don't have a

smartphone then get yourself a star chart. They do the job perfectly well, simply set the date and time to show what is in the night sky.
