An all-encompassing guide to skeptical thinking from podcast host and academic neurologist at Yale University School of Medicine Steven Novella and his SGU co-hosts, which Richard

Wiseman calls "the perfect primer for anyone who wants to separate fact from fiction." It is intimidating to realize that we live in a world overflowing with misinformation, bias, myths, deception, and flawed knowledge. There really are no ultimate authority figures-no one has the secret, and there is no place to look up the definitive answers to our questions (not even Google). Luckily, *The Skeptic's Guide to the Universe* is your map through this maze of modern life. Here Dr. Steven Novella-along with Bob Novella, Cara Santa Maria, Jay Novella, and Evan Bernstein-will explain the tenets of skeptical thinking and debunk some of the biggest scientific myths, fallacies, and conspiracy theories-

---

from anti-vaccines to homeopathy, UFO sightings to N- rays. You'll learn the difference between science and pseudoscience, essential critical thinking skills, ways to discuss conspiracy theories with that crazy co- worker of yours, and how to combat sloppy reasoning, bad arguments, and superstitious thinking. So are you ready to join them on an epic scientific quest, one that has taken us from huddling in dark caves to setting foot on the moon? (Yes, we really did that.) DON'T PANIC! With *The Skeptic's Guide to the Universe*, we can do this together. "Thorough, informative, and enlightening, *The Skeptic's Guide to the Universe* inoculates you against the

frailties and shortcomings of human cognition. If this book does not become required reading for us all, we may well see modern civilization unravel before our eyes." -- Neil deGrasse Tyson "In this age of real and fake information, your ability to reason, to think in scientifically skeptical fashion, is the most important skill you can have. Read *The Skeptics' Guide Universe*; get better at reasoning. And if this claim about the importance of reason is wrong, *The Skeptics' Guide* will help you figure that out, too." -- Bill Nye

“This is a masterfully crafted memoir, an elegant tour de force that firmly establishes Mulgrew as a writer of significant literary endowment. The soulmate to Frank McCourt’s *Angela’s Ashes*, *How to Forget*, despite the promise of its title, cannot be forgotten or ignored.” —Augusten Burroughs, author of *Running with Scissors* and *Toil & Trouble* In this profoundly honest and examined memoir about returning to Iowa to care for her ailing parents, the star of *Orange Is the New Black* and bestselling author of *Born with Teeth* takes us on an unexpected journey of loss, betrayal, and the transcendent nature of a daughter’s love for her parents. They say you can’t go home again. But when her father is diagnosed with aggressive lung cancer and her mother with atypical Alzheimer’s, New York-based actress Kate Mulgrew returns to her hometown in Iowa to spend time with her parents and care for them in the time they have left. The months Kate spends with her parents in Dubuque—by turns turbulent, tragic, and joyful—lead

her to reflect on each of their lives and how they shaped her own. Those ruminations are transformed when, in the wake of their deaths, Kate uncovers long-kept secrets that challenge her understanding of the unconventional Irish Catholic household in which she was raised. Breathtaking and powerful, laced with the author’s irreverent wit, *How to Forget* is a considered portrait of a mother and a father, an emotionally powerful memoir that demonstrates how love fuses children and parents, and an honest examination of family, memory, and indelible loss.
