the drama of people more fun to  
watch and we all can understand

areas of thinking. even if not liking  
the movies, placing them in the  
context of philosophy was a great  
idea and well worth the read.

In Star Wars, this quest for total domination, control, power, and for Empire ultimately lead to the fall of the Sith Order. The Sith philosophy is essentially self-defeating because with great power does not come great responsibility, but comes corruption. And with absolute power absolute corruption.

Darth Bane's Sith Philosophy (Star Wars: Legends)

Seventeen Jedi adepts got together to probe the deeper reaches of the Star Wars epic. A hazardous quest—philosophy is more risky than not letting a Wookiee win. Now their wisdom

has been imprinted on sheets of extruded wood pulp and conveyed across hyperspace into our galaxy.

The philosophy of Star Wars - The Nation  
Star Wars & Philosophy edited by Kevin S. Decker and Jason T. Eberl is a collection of philosophical essays that draw on the Star Wars movies for examples and the philosophies of St. Augustine, Sartre, and others. The Force is a metaphysical and  
ubiquitous power in the Star  
Wars fictional universe. It is  
wielded by "Force-sensitive"  
characters throughout the  
franchise: heroes like the Jedi  
who seek to become one with the  
Force, while the Sith and other  
villains exploit the Force and try  
to bend it toward their will. The  
Force has been compared to  
aspects of several world religions,
