storyline of the Star Wars saga Star Wars took place long ago in a galaxy far, far away, but its epic stories are based on our own history. underlies the Star Wars galaxy. beloved golden letters fill the screen. In this fun, erudite, and often moving book, Cass R. Sunstein explores the lessons of Star Wars as they relate to childhood, fathers, the Dark Side, rebellion, and redemption. As it turns out, Star Wars also has a lot to teach us about constitutional law, economics, and political uprisings. In rich detail, Sunstein tells the story of the films' wildly unanticipated success and explores why some things succeed while others fail. Ultimately, Sunstein argues, Star Wars is about freedom of choice and our never-ending ability to make the right decision when the chips are down.

Written with buoyant prose and considerable heart, *The World According to Star Wars* shines a bright new light on the most beloved story of our time.
