Starfish Dissection - BIOLOGY JUNCTION
Now your students are ready to learn about the sea star's internal anatomy—and Carolina's Starfish Dissection BioKit® is a great resource to teach the anatomy of this echinoderm. The kit includes 30 starfish, 30 self-locking storage bags, 30 student guides, and a teacher's manual.
Additional resources

Obtain a preserved starfish. Place the starfish in the dissecting pan with its dorsal or aboral (top) surface upward. Observe the starfish and determine its symmetry. Locate the central disc in the center of the starfish. Count and record the number of arms or

rays the starfish has.
