Starlight Xpress Costar
Autoguider

The Starlight Xpress Lodestar X2 Autoguider is a popular guide camera for deep-sky astrophotography. In fact, the original Lodestar was considered to be the best autoguider on the market for a long time. The X2 version is the successor to the original Starlight Xpress Lodestar autoguider and uses a Sony ICX829 Exview sensor.

Latest News - Starlight Xpress Ltd

The CoStar is a very compact guider which is powered and operated via a single USB2.0 computer connection. It also

provides an opto-isolated output connection for direct control of most mounts, via their ' Autoguider ' sockets.

Orion SSAG VS
Starlight Xpress
CoStar or other -
posted in CCD/CMOS
Astro Camera
Imaging &
Processing: Okay
guys and gals I

have a question for
you. I have been
using a Meade DSI
Pro for autoguiding
and I have decided
to switch to a
dedicated
autoguider. I am
looking at spending
no more then \$300
dollars on this. So
I would like your
input on the
Starlight Xpress
CoStar CMOS
autoguider and the
...

Camera CoStar Autoguider

The top image is a
5 second expore
taken with the
CoStar with a F5
80mm telescope. The
bottom is the same
scope view but with
the Lodestar
instead. While the
Lodestar is more
sensitive, the
CoStar is still an
excellent guider.

*User Manuals -
Starlight Xpress Ltd*
The CoStar is the
latest miniature
Autoguider from those
innovative guys at
Starlight Xpress.
Only 45g (1.5oz),
this is the lightest
dedicated autoguider
on the market but
believe me it can
really punch well
above its weight and
all in a package no
bigger than your
thumb .
*Starlight Xpress
CoStar Autoguider*

Monochrome CMOS ...
The Starlight Xpress
CoStar stand-alone
Autoguider is a
sensitive USB-2
powered guide camera
featuring a mono CMOS
sensor with 1304x1024
pixels and opto-
Isolated control
outputs. As small as a
1.25" eyepiece but
considerably lighter!
Also makes an
effective
Lunar/Planetary
camera.
