The Fundable Startup Harvard Business Review Press

An essential guide to understanding the dynamics of a startup's board of directors Let's face it, as founders and entrepreneurs, you have a lot on your plate—getting to your minimum viable product, developing customer interaction, hiring team members, and managing the accounts/books. Sooner or later, you have a board of directors, three to five (or even seven) Type A personalities who seek your attention and at times will tell you what to do. While you might be hesitant to form a board, establishing an objective outside group is essential for startups, especially to keep you on track, call you out when you flail, and in some cases, save you from yourself. In *Startup Boards*, Brad Feld—a Boulder, Colorado-based entrepreneur turned-venture capitalist—shares his experience in this area by talking about the importance of having the right board members on your team and how to manage them well. Along the way, he shares valuable insights on various aspects of the board, including how they can support you, help you understand your startup's milestones and get to them faster, and hold you accountable. Details the process of choosing board members, including interviewing many people, checking references, and remembering that there should be no fear in rejecting a wrong fit Explores the importance of running great meetings, mixing social time with business time, and much more Recommends being a board member yourself at some other organization so you see the other side of the equation Engaging and informative, *Startup Boards* is a practical guide to one of the most important pieces of the startup puzzle.

*Venture Deals* Twelve

A comprehensive guide on creating, growing, and leveraging a board of directors written for CEOs, board members, and people seeking board roles. The first time many founders see the inside of a board room is when they step in to lead their board. But how do boards work? How should they be structured, managed, and leveraged so that startups can grow, avoid pitfalls, and get the best out of their boards? Authors Brad Feld, Mahendra Ramsinghani, and Matt Blumberg have collectively served on hundreds of startup and scaleup boards over the past 30 years, attended thousands of board meetings, encountered multiple personalities and

situations, and seen the good, bad, and ugly of boards. In *Startup Boards: A Field Guide to Building and Leading an Effective Board of Directors*, the authors provide seasoned advice and guidance to CEOs, board members, investors, and anyone aspiring to serve on a board. This comprehensive book covers a wide range of topics with relevant tips, tactics, and best practices, including: Board fundamentals such as the board's purpose, legal characteristics, and roles and functions of board members; Creating a board including size, composition, roles of VCs and independent directors, what to look for in a director, and how to recruit directors; Compensating, onboarding, removing directors, and suggestions on building a diverse board; Preparing for and running board meetings; The board's role in transactions including selling a company, buying a company, going public, and going out of business; Advice for independent and aspiring directors. *Startup Boards* draws on the authors' experience and includes stories from board members, startup founders, executives, and investors. Any CEO, board member, investor, or executive interested in creating an active, involved, and engaged board should read this book—and keep it handy for reference.

*Start-up Nation* John Wiley & Sons

Most startups fail. But many of those failures are preventable. The Lean Startup is a new approach being adopted across the globe, changing the way companies are built and new products are launched. Eric Ries defines a startup as an organization dedicated to creating something new under conditions of extreme uncertainty. This is just as true for one person in a garage or a group of seasoned professionals in a Fortune 500 boardroom. What they have in common is a mission to penetrate that fog of uncertainty to discover a successful path to a sustainable business. The Lean Startup approach fosters companies that are both more capital efficient and that leverage human creativity more effectively. Inspired by lessons from lean manufacturing, it relies on “ validated learning, ” rapid scientific experimentation, as well as a number of counter-intuitive practices that shorten product development cycles, measure actual progress without resorting to vanity metrics, and learn what customers really want. It enables a company to shift directions with agility, altering plans inch by inch, minute by minute. Rather than wasting time creating elaborate business plans, The Lean Startup offers entrepreneurs—in companies of all sizes—a way to test their vision continuously, to adapt and adjust before it ' s too late. Ries provides a scientific approach to creating and managing successful startups in a age when companies need to innovate more than ever.

*Startup Boards* Penguin

A definitive book for any CEO—first time or otherwise—of a high-growth company While big company CEOs are usually groomed for the job for years, startup CEOs aren't—and they're often young and relatively inexperienced in business in general. Author Matt Blumberg, a technology and marketing

entrepreneur, knows this all too well. Back in 1999, he started a company called Return Path, which later became the driving force behind the creation of his blog, OnlyOnce—because "you're only a first time CEO once." Now, more than a decade later, he's written Startup CEO. As the fifth book in the StartUp Revolution series, this reliable resource is based on Blumberg's experience as a startup CEO and covers a number of issues he's faced over the dozen years he's been a CEO. Offers valuable insights into how the CEO sets the overall vision and strategy of the company and communicates it to all stakeholders Discusses how to build a company's human capital by recruiting, hiring, and retaining the very best talent Examines how a CEO must align available resources with the company's strategy in order to ensure success Addresses what it takes to master the "How" of being a CEO—from leading an executive team to managing in any type of market Engaging and informative, this book is essential reading for any, and every, CEO.

An essential guide to building supportive entrepreneurial communities "Startup communities" are popping up everywhere, from cities like Boulder to Boston and even in countries such as Iceland. These types of entrepreneurial ecosystems are driving innovation and small business energy. Startup Communities documents the buzz, strategy, long-term perspective, and dynamics of building communities of entrepreneurs who can feed off of each other's talent, creativity, and support. Based on more than twenty years of Boulder-based entrepreneur turned-venture capitalist Brad Feld's experience in the field—as well as contributions from other innovative startup communities—this reliable resource skillfully explores what it takes to create an entrepreneurial community in any city, at any time. Along the way, it offers valuable insights into increasing the breadth and depth of the entrepreneurial ecosystem by multiplying connections among entrepreneurs and mentors, improving access to entrepreneurial education, and much more. Details the four critical principles needed to form a sustainable startup community Perfect for entrepreneurs and venture capitalists seeking fresh ideas and new opportunities Written by Brad Feld, a thought-leader in this field who has been an early-stage investor and successful entrepreneur for more than twenty years Engaging and informative, this practical guide not only shows you how startup communities work, but it also shows you how to make them work anywhere in the world.

#### Blitzscaling Currency

Managing your own psychology is the hardest skill for any founder As acclaimed investor and entrepreneur Ben Horowitz once stated, managing your own psychology is the hardest skill for any founder or CEO. In The

Resilient Founder: Lessons in Endurance from Startup Entrepreneurs, Mahendra Ramsinghani gathers insights from over a hundred founders to deliver an intuitive and insightful guide to understanding our psychology and navigating the psychological pressures of startup leadership. Venture backed companies are expected to grow at high velocity, raise large amounts of capital, build teams effectively to achieve unicorn, no decacorn status. Yet the journey is long, filled with uncertainties, extremities and black swan events. It can wear out the best and the brightest. On the outside, a CEO can demonstrate sheer bravado, an invincible spirit as they behead dragons in the business battlefield. And on the inside, they deal with their dark side, subconscious struggles, emotional barriers, shame or guilt. The role of a founder can be lonely, frustrating and filled with high-highs and low-lows - all of this leading to anxiety, depression even suicide. This book addresses the fundamentals of understanding our own inner workings and explores practical ways of overcoming our inner hurdles. Filled with simple, yet concrete strategies, lessons and insights, founders and business leaders can work with stress, anxiety, and other mental challenges presented by the life of an entrepreneur. In this book, readers will learn to: Understand the basics of founder psychology, and how our inner workings can help or hurt us The importance of building a healthy ego, leading to resilience Draw on the lessons of established startup leaders on how to wrestle with their own mental and emotional challenges Written for founders, entrepreneurs and Chief Executive Officers, The Resilient Founder leads a gentle path to self-awareness, compassionate soul-care and inner wellbeing. Entrepreneur, Investor and author Brad Feld calls this book "dynamite". Case studies, philosophical perspectives and a generous dose of poetry is sprinkled across this book, which can be a companion for all those misfits, rebels and the crazy ones. For all those perpetually hitched on the roller coaster ride of entrepreneurial journey, this book is first of a kind to delve into the dark side and present a balanced approach to building your inner core as you build your company. This is no quick-fix guide, and we are perpetual work-in-progress. Today is Day One. Let us start the journey.

John Wiley & Sons

Foreword by Bill Gates LinkedIn cofounder, legendary investor, and host of the award-winning Masters of Scale podcast reveals the secret to starting and scaling massively valuable companies. What entrepreneur or founder doesn't aspire to build the next Amazon, Facebook, or Airbnb? Yet those who actually manage to do so are exceedingly rare. So what separates the startups that get disrupted and disappear from the ones who grow to become global giants? The secret is blitzscaling: a set of techniques for scaling up at a dizzying pace that blows competitors out of the water. The objective of Blitzscaling is not to go from zero to one, but from one to one billion—as quickly as possible. When growing at a breakneck pace, getting to next level requires very different strategies from those that got you to where you are today. In a book inspired by their popular class at Stanford

Business School, Hoffman and Yeh reveal how to navigate the necessary shifts and weather the unique challenges that arise at each stage of a company's life cycle, such as: how to design business models for igniting and sustaining relentless growth; strategies for hiring and managing; how the role of the founder and company culture must evolve as the business matures, and more. Whether your business has ten employees or ten thousand, Blitzscaling is the essential playbook for winning in a world where speed is the only competitive advantage that matters.

The new edition of the definitive guide for venture capital practitioners--covers the entire process of venture firm formation & management, fund-raising, portfolio construction, value creation, and exit strategies Since its initial publication, *The Business of Venture Capital* has been hailed as the definitive, most comprehensive book on the subject. Now in its third edition, this market-leading text explains the multiple facets of the business of venture capital, from raising venture funds, to structuring investments, to generating consistent returns, to evaluating exit strategies. Author and VC Mahendra Ramsinghani who has invested in startups and venture funds for over a decade, offers best practices from experts on the front lines of this business. This fully-updated edition includes fresh perspectives on the Softbank effect, career paths for young professionals, case studies and cultural disasters, investment models, epic failures, and more. Readers are guided through each stage of the VC

process, supported by a companion website containing tools such as the LP-GP Fund Due Diligence Checklist, the Investment Due Diligence Checklist, an Investment Summary format, and links to white papers and other industry guidelines. Designed for experienced practitioners, angels, devils, and novices alike, this valuable resource: Identifies the key attributes of a VC professional and the arc of an investor's career Covers the art of raising a venture fund, identifying anchor investors, fund due diligence, negotiating fund investment terms with limited partners, and more Examines the distinct aspects of portfolio construction and value creation Balances technical analyses and real-world insights Features interviews, personal stories, anecdotes, and wisdom from leading venture capitalists *The Business of Venture Capital, Third Edition* is a must-read book for anyone seeking to raise a venture fund or pursue a career in venture capital, as well as practicing venture capitalists, angel investors or devils alike, limited partners, attorneys, start-up entrepreneurs, and MBA students.

**Bad Blood** Morgan James Publishing

A startup executive and investor draws on expertise developed at the premier venture capital firm Andreessen Horowitz and as an executive at Uber to address how tech's most successful products have solved the dreaded "cold start problem"--by leveraging network effects to launch and scale toward billions of users. Although software has become easier to build, launching and scaling new products and services remains difficult. Startups face daunting challenges entering the technology ecosystem, including stiff competition, copycats, and ineffective marketing channels. Teams launching new products must consider the advantages of "the network effect," where a product or service's value increases as more users engage with it. Apple, Google, Microsoft, and other tech giants utilize network effects, and most tech products incorporate them, whether they're messaging apps, workplace collaboration tools, or marketplaces. Network effects provide a path for fledgling products to break through, attracting new users through viral growth and word of mouth. Yet most entrepreneurs lack the vocabulary and context to describe them--much less understand the fundamental principles that drive the effect. What exactly are network effects? How do teams create and build them into their products? How do products compete in a market where every player has them? Andrew Chen draws on his experience and on interviews with the CEOs and founding teams of LinkedIn, Twitch, Zoom, Dropbox, Tinder, Uber, Airbnb, and Pinterest to offer unique insights in answering these questions. Chen also provides practical frameworks and principles that can be applied across products and industries. *The Cold Start Problem* reveals what makes winning networks thrive, why some startups fail to successfully scale, and, most crucially, why products that create and compete using the network effect are vitally important today.

**The Founder's Mentality** Princeton University Press

*The Founder's Dilemmas* examines how early decisions by entrepreneurs can make or break a startup and its team. Drawing on a decade of research, including quantitative data on almost ten thousand founders as well as inside stories of founders like Evan Williams of Twitter and Tim Westergren of Pandora, Noam Wasserman reveals the common

pitfalls founders face and how to avoid them.

#### Mentoring Startups John Wiley & Sons

#### **The Startup Wife** John Wiley & Sons

THE HOW-TO GUIDE FOR INNOVATORS TO IMPROVE THEIR IDEAS AND SUCCESSFULLY LAUNCH THEM THROUGH THE POWER OF NARRATIVE In a world that's been turned upside down by a pandemic, social upheavals, environmental disasters, and economic disruptions, the need for reinvention is paramount. While many entrepreneurs and innovators have brilliant ideas, they desperately need the skills to successfully articulate their vision to investors, prospective customers, employees, and stakeholders. In this informative and empowering book, David Riemer breaks down the storytelling clutter so you can gain the attention you need to be successful. Storytelling is foundational. If you have a groundbreaking invention in mind or have a plan to solve worldwide problems, *Get Your Startup Story Straight* is the tool you need to create better customer-focused solutions, motivate more backers to your project, and ultimately dominate in the market. Broken down into three acts, this book will allow you to discover the building blocks of

your narrative, the storytelling techniques to convey your ideas clearly, and the archetypes for inspiration. Equipped with a better understanding of your narrative, you will be able to: - Maintain a constant focus on your customer (your protagonist) - Understand what makes them tick in a more meaningful way - And focus the product development efforts through the lens of this narrative The author's own words tell it all: "Innovators are ubiquitous nowadays, and for this community, storytelling is essential." If you are a creator struggling to get others on board, this is the handbook to refine your story to guide your product strategy, shape your company, and ultimately improve lives.

#### Startup Communities John Wiley & Sons

A Washington Post Bestseller Three Principles for Managing—and Avoiding—the Problems of Growth Why is profitable growth so hard to achieve and sustain? Most executives manage their companies as if the solution to that problem lies in the external environment: find an attractive market, formulate the right strategy, win new customers. But when Bain & Company's Chris Zook and James Allen, authors of the bestselling *Profit from the Core*, researched this question, they found that when companies fail to achieve their growth targets, 90 percent of the time the root causes are internal, not external—increasing distance from the front lines, loss of accountability, proliferating processes and bureaucracy, to name only a few. What's more, companies experience a set of predictable internal crises, at predictable stages, as they grow. Even for healthy companies, these crises, if not managed properly, stifle the ability to grow further—and can actively lead to decline. The key insight from Zook and Allen's research is that managing these choke points requires a "founder's mentality"—behaviors typically embodied by a bold, ambitious founder—to restore speed, focus, and connection to customers: • An insurgent's clear mission and purpose • An unambiguous owner mindset • A relentless obsession with the front line Based on the authors' decade-long study of companies in more than forty countries, *The Founder's Mentality* demonstrates the strong relationship between these three traits in companies of all kinds—not just start-ups—and their ability to sustain performance. Through rich analysis and inspiring examples, this book shows how any leader—not only a founder—can instill and leverage a founder's mentality throughout their organization and find lasting, profitable growth.

#### **Startup Life** Wiley

Please note: This is a companion version & not the original book. Sample Book Insights: #1 The fourth book in the series is *Startup Boards*. It has been a challenging book to write, as both of us worked hard to cover a lot of territory without putting ourselves to sleep. #2 A boardroom is often used to describe the atmosphere and format of important meetings, but in reality, a startup board is usually a small group of people trying to help build your company. #3 The challenges of raising the first round of capital are well documented. Once this first round of capital is raised, new challenges arise. Investors, driven by the desire for a substantial financial return, seek milestones, demonstrable progress, new rounds of financing at higher prices, or even quick exits. #4 The most common mistake startups make is not having a board at all. Founders who are overconfident

---

or choose to avoid conflict often miss an opportunity to bring in fresh perspective and structure decisions from appropriate individuals.

Get Your Startup Story Straight John Wiley & Sons

START-UP NATION addresses the trillion dollar question: How is it that Israel-- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

From Startup to Exit Penguin

Named a Best Book of the Year by NPR? In this "wise and wickedly funny novel about love, creativity, and the limitations of the tech-verse" (Vogue) newlyweds Asha and Cyrus find themselves running one of the most popular social media platforms in the world. Meet Asha Ray. Brilliant coder and possessor of a Pi tattoo, Asha is poised to make a scientific breakthrough when she is reunited with her high school crush, Cyrus Jones. Before she knows it, Asha has abandoned her lab, exchanged vows with Cyrus, and gone to work at an exclusive tech incubator called Utopia to develop an app called WAI--"We are Infinite." WAI creates a sensation, with millions of users logging on every day. Will Cyrus and Asha's marriage survive the pressures of sudden fame, or will she become overshadowed by the man everyone is calling the new messiah? This "scathing--and hilarious--take on startup culture, marriage and workaholicism" (Politico) explores whether or not technology--with all its limits and possibilities--can disrupt modern love.

Secrets of Sand Hill Road Everest Media LLC

Gain invaluable

insights from the journeys of other successful tech founders that can be applied to your own situation. Learn how to raise millions of dollars of funding from angels and VCs to give your company the fuel it needs to take off and succeed.

High Growth Handbook BenBella Books

One of the greatest challenges for startup teams is scaling because usually there's not a blueprint to follow, people are learning their function as they go, and everyone is wearing multiple hats. There can be lots of trial and error, lots of missteps, and lots of valuable time and money squandered as companies scale. Matt Blumberg and his team understand the scaling challenges--they've been there, and it took them nearly 20 years to scale and achieve a successful exit. Along the way they learned what worked and what didn't work, and they share their lessons learned in Startup CXO. Unlike other business books, Startup CXO is designed to help each functional leader understand how their function scales, what to anticipate as they scale, and what things to avoid. Beyond providing function-specific advice, tools, and tactics, Startup CXO is a resource for each team member to learn about the other functions, understand other functional challenges, and get greater clarity on how to collaborate effectively with the other functional leads. CEOs, Board members, and investors have a book they can consult to pinpoint areas of weakness and learn how to turn those into strengths. Startup CXO has in-depth chapters covering the nine most common functions in startups: finance, people, marketing, sales, customers, business development, product, operations, and privacy. Each functional section has a "CEO to CEO Advice" summary from Blumberg on what great looks like for that CXO, signs your CXO isn't scaling, and how to engage with your CXO. Startup CXO also has a section on the future of executive work, fractional and interim roles. Written by leading practitioners in the newly emergent fractional executive world, each function is covered with useful tips on how to be a successful fractional executive as well as what to look for and how to manage fractional executives. Startup CXO is an amazing resource for CEOs but also for functional leaders and professionals at any stage of their career." --Scott Dorsey, Managing Partner, High Alpha
