Its suitably unquestionably simple and thus fats, isnt it? You have to favor to in this sky

Advanced Accountancy Volume-II, 10th Edition SBPD Publications

Power theft is a silent crime that causes huge loss of revenue to power utilities. Despite advanced managerial and technical efforts to crack down on power thieves, power distribution entities are struggling hard to constrain the unscrupulous ways used to steal power. This book, now in its Third Edition, discusses some of the shocking methods used to commit power theft and enables the reader to identify, control and combat such power pilferage problems. The book provides graphic description of the modus operandi of power thieves and uncovers their cleverness and imagination in pilfering electricity. There is no panacea for curbing power theft, and utilities have to develop their own ways. This book presents a vivid account of technical and administrative solutions that can go a long way in nipping the problem in bud. The most striking feature of the book is that it uses suitable photographs to analyse the problems from various angles. NEW TO THIS EDITION In the Third Edition, major judgments of Hon'ble Supreme Court relating to irregularities in power sector have been added. Power theft is very rampant in marijuana cultivation and is a source of social agony especially in the developed countries that has been described in the book with suitable photographs.

An epic triple treat—stories from a civil servant, corporate captain and businessman Jagdish Khattar has had an astonishingly diverse career, a trained lawyer who became an IAS officer. He was an agent of change in Uttar Pradesh through his roles as district magistrate, and head of the cement and transport corporations. He also helmed India's Tea Board in London and played a key role in the steel ministry. Elevated to the post of MD with Maruti Udyog, a firm that was on the verge of a steep decline, Khattar braved labour unions, foreign competition, and politicians as he led Maruti to a very successful IPO. Finally, at the age of sixty-five, Khattar turned entrepreneur with Carnation, India's first multi-brand car sales and servicing network. Driven spreads across a sweeping national canvas from drought-hit villages to the Shakespearean intrigues of politicians and bureaucrats. Written with flair and liberally peppered with frank anecdotes, it is filled with lessons about leadership, friendships, jugaad-style innovation, resilience, and values.

Driven Aust. Bureau of Statistics

This is a supplement book with main course book. the book is full of Maths activities for classes I to V. Efforts have been made to present questions in all possible forms.

Financial Accounting Vikas Publishing House

This book describes the processes through which rates for energy consumption are derived, ranging from initial analyses of the supply and demand parameters to the final forms and levels of end-use consumer prices. The author argues against aggressive accounting procedures, and suggests criteria for choosing firm's position on pending public policy issues. A handbook on energy formulae for non-professionals is included in the book. The author is adjunct professor at the University of Portland.
