What if you could rewrite the past? Quinn Black is having the worst day ever . . . over and over again.

Rydel Scott has discovered time travel. He also believes he's received a message from God. The message: go back in time and save Jesus Christ from being crucified. When a secret mission involving one of his inventions goes horribly wrong, Rydel obsessively tries to learn what caused the system failure and, in doing so, stumbles upon a physics-bending ability to travel through time. Overworked and massively sleep-deprived, Rydel believes he has received a message from God—save God ' s son. And the man of science embarks on a world-changing quest to rescue Jesus. As he covers his tracks to journey back undetected, he neglects to factor in the consequences of a devastating butterfly effect. And he ' s terrified to discover The Unit, a highly-trained team of elite soldiers, is hunting him down to stop him from making choices that could upend all of human history. Will The Unit find Rydel before he alters the past? And, if they find him, can some members of the elite force be persuaded to join Rydel on his mission to save Jesus Christ from the cross? “ Save Him

Waking in Time Taleist This is a major update for me. The ePUB production techniques have changed quite a bit: both for fixed layout and for reflowable ePUBs. Many of the changes I've been waiting for with ePUB production have been implemented. InDesign now stands at the top of the heap for book production in general and ePUB production in particular. You do not need to know code, though understanding how HTML and CSS works will aid your conceptual understanding. I was lukewarm about FXL until I realized that the new fixed layout ePUBs would show gradient paragraph rules, gradient strokes and fills in tables, and much more. The only major things we're missing are justification and hyperlinked test does not work in FXL. The exported ePUBs upload flawlessly to the iBooks Store and Kobo Writing Life. Finally, the 21st century book publishing software we need is within our grasp. There's still more to come, but this version is very good. [Kindle Publishing Blueprint](#) John Wiley & Sons Who really killed President John F. Kennedy? Sean Zumwalt is about to find

out. I knew it. I knew it, he repeated to himself. A conspiracy. But who had planned the murder? Was Lee Harvey Oswald even involved? If only one could go back in time and solve the mystery. I have to pursue this, he told himself. Someone has to find out the truth once and for all. On November 22, 2063 a new film finally proves a conspiracy was involved in the assassination of President John Fitzgerald Kennedy. Sean Zumwalt dares to go back in time to alter the course of world history and save JFK. But he soon finds that the truth is much more complicated than he ever could have imagined. Based on actual events and forty years of research, *The Man From 2063* will take you through the folds of time and historical conspiracies, leaving you wondering 'What if?' 'Although I reject the premise of *The Man from 2063*, that Lee Harvey Oswald did not kill President John F. Kennedy and that there was a conspiracy in the assassination, from a purely fictional standpoint Jack Duffy has succeeded in writing a very clever and engrossing 'what if' story surrounding the events of November 22, 1963.' - Vincent Bugliosi, author of *Helter Skelter* Jack Duffy has interviewed many eyewitnesses including Marina Oswald and several of the Parkland physicians who treated JFK, in addition to many researchers who have written books on JFK's assassination. He received his B.A. in Political Science from Texas Tech University, his M.B.A. from Baylor University, and his J.D. from South Texas College of Law. He lives in Fort Worth, Texas, where he works as an attorney and has one of the largest private collections of material on the JFK

assassination.

The book explores emotions related to women in the clergy & sexual harassment in the ministry,

& the Apostle Paul's sentiments in the New Testament are examined. One chapter showing a mini-reunion of close girl friends at their 15th Harvard Business School reunion reveals lifestyles & concerns of America's elite working class 15 years out of the world's premier graduate school as they struggle with middle age, baby-boomer anxieties, child-rearing issues, spiritual hunger, & emotional appetites. Midway through the book, Maggie's career unexpectedly explodes in her face when she preaches a sermon on the book of Amos, an Old Testament book written by a prophet in 750 BC. A chapter called "Caribbean Chaos" takes

place in Jamaica, where Maggie experiences sexual harassment by her boss, a senior minister, while on a mission project. "Saying Goodbye" is the final chapter of the book, & it examines issues related to death & dying as Maggie preaches the funeral service for one of her Harvard Business School friends who dies from cancer in her forties.

Read this if you want to sell more books, make more money as an author, or rank higher in your category. My name is Nick Vulich. The first thing you should know about me is I'm not a writer, and I'm not an expert on self-publishing either. I never worked in the industry, and I don't have any experience working for the big

publishers. In fact, the only thing I consider myself an expert in is how to sell on eBay, Amazon, and Fiverr... So why should you listen to me? Like most indie authors, I came into publishing through the back door. I had a story to tell, and one day I just sat down and let it all come out. What I wrote wasn't pretty, or polished...but, it helped a lot of people sell more stuff on eBay. What I couldn't say with fancy prose, I made up for with enthusiasm. Because of that, my books sold. I'm not going to lie to you. It wasn't easy. I read just about every book available on self-publishing. I studied up on KDP Free days, Countdown Deals, price pulsing...
