Joomla! 3 Beginner's Guide Second Edition Addison-Wesley Professional

Building on the first edition of Joomla!: Visual QuickStart Guide, this task-based guide is the perfect tool for those just starting with Joomla, as well as, seasoned professionals who want to know how to use the latest version of the software to its fullest. It shows how to create, customize, and maintain a dynamic Joomla 1.6 website starting with fundamental concepts for using Joomla and then walks the user through every function of the system. It details the requirements for operating a secure and efficient Joomla

website, including server configuration and website planning. The reader learns not only the functions of Joomla, such as adding content and structure, creating menus, using components, modules, plug-ins, and templates, but also how each function integrates as a whole. Each chapter ends with increasingly advanced topics, such as installation and configuration of the administrative back end, using 3rd-party extensions to create a portfolio, a blog, an e-commerce site, magazine, or news portal, as well as, how to use content construction kits, create custom templates, and integrate social media. New features covered in this edition include: how to use the redesigned admin interface; new menu systems, including advanced functions for developers; how to use the category-article structure of content; the ability for users to create their own groups and assign access control levels; and control and customization of templates.

Joomla! 1.5 John Wiley & Sons

Contains comprehensive information about the new JOOMLA! 4 to help you become a successful and efficient website administrator. The book contains 15 powerful Chapters, including 64 Exercises within 375 pages, and guides you, step-by-step, through the various tasks required to create a JOOMLA! 4 website and make it accessible online. The book is full of descriptions, helpful discussions, and precise step-by-step guides to help you create a JOOMLA! 4 website and add content. JOOMLA! 4: BOOTS ON THE GROUND: BASIC TRAINING is the first in a series of topical books called "Boots on the Ground," that will address many different subjects and areas of expertise as applies to administration of a Joomla! 4 website. This book will help you get quickly started as a JOOMLA! 4 administrator and demonstrates how to create categories, articles, menus and content-specific modules, all of which make up a JOOMLA! 4 website. JOOMLA! 4: BOOTS ON THE GROUND: BASIC TRAINING begins with some general information about JOOMLA! and then dives right into the creation of a website hosting location, followed by complete instructions on how to actually install JOOMLA! 4 on two different types of hosting server. Once installed, there a "Fast Track Double Time Start" chapter that will demonstrate the basic functions that deal with creating content. This chapter is intended to quickly introduce you to fundamental tasks that must be performed by the administrator. The book further explains detailed information about categories, articles, modules, menus and templates. Every component included in the default installation is explained as to their function and what role they perform in generating the different types of website content. This book is a perfect resource for the JOOMLA! 4 beginner or novice user that wants to quickly sharpen their skills as an administrator. Written in layman's terms without any technical mumbo-jumbo, there are plenty of practical exercises that guide you through every detail necessary to create content for the website. For more experienced JOOMLA! users, the book will introduce the new methods and techniques needed for administration of websites created in Version 4.

Joomla! Packt Publishing Ltd

Provides instructions for building a Joomla! website, covering such topics as purchasing a domain name, installing Joomla!, menu options, choosing and installing templates, adding extensions, creating and editing users, search engine optimization, and managing backups --

The Official Joomla! Book CreateSpace

Annotation Joomla! is a content management system that helps both novice users and expert developers

to create powerful websites. Joomla! has extensions for constructing job sites; web sites for handling employment and careers. It can take hours to build even an elementary job site but imagine yourself building a job site such as Monster, CareerBuilder, a niche job listing such as TechCrunch or your own company job site within few minutes and with minimal development efforts. Building job sites with Joomla! shows you how to create your own job site with Joomla! with the Jobs! Pro extension. From the basic installation and configuration, you will see all the steps required to assemble a working job site in next to no time. This book is a step-by-step tutorial for creating a job site using Joomla!. First you will set up a server environment to install Joomla! 1.5 and Jobs!. Next you will learn how you can use Jobs! configuration settings to control the components of your job site such as adding companies, adding social bookmarking buttons, enabling the users to post their resume online and so on. You will learn to easily manage your site using the Jobs! control panel. This will be followed by using job site template to quickly create a job site and simultaneously test the site you have created. Next you will learn how to speed up the communication between employers and the jobseekers using e-mail templates. You can also entirely control user registration system from Jobs! Pro admin panel. You will also learn to add and manage job types, job categories, and applications to keep your database organized and to keep track of the application status. You will also learn to add a jobseeker or an employer and to manage resume fields. Then you will configure credit systems to charge an amount of money to users according to the specific service provided. By the end of this book you will learn to professionally optimize your Joomla! Job site for search engines and look at list of words that need to be avoided in the URLs. A practical stepwise tutorial to build your professional website using Joomla!
