Defining prayer simply as "calling on the name of the Lord," Millar follows the contours of the Bible's teaching on prayer. In this New Studies in Biblical Theology volume, he shows how prayer is intimately linked with the gospel and how it is primarily to be understood as asking God to deliver on his

promises.

Secrets can bind a family - or tear them apart... Judith Lennox's *A Step in the Dark* is a powerful family drama set in India and Scotland that spans from 1915 to the 1960s. Perfect for fans of Lucinda Riley and Kate Morton. 'The unforgettable story of the secrets that can bind a family or ultimately destroy one' - Reading Evening Post It's 1915 when young Bess Ravenhart, recently widowed, leaves her baby son Frazer with her mother-in-law, Cora, while she sails from India to Britain to set up a home. But

Cora has no intention of returning Frazer to his mother's care. Though Bess makes a new life in Edinburgh and knows the joy - and pain - of motherhood with further children, her heart always aches for the little boy she left behind. When Frazer travels to Scotland twenty years later, it seems Bess's dreams of a reconciliation will come true. But Frazer trails danger in his wake, and it's possible that not only he but also Bess and her whole family will live to rue the day of his return... What readers are saying about *A Step in the Dark*: 'Convincing and page turning, moving from romance to a detective tale

and, satisfyingly, the ends are all tied together, almost too late as the book draws to a close' 'She is a fantastic storyteller, and this book's rich historical tapestry places it above most romantic fiction. You really care about the characters and as such are gripped to the last page' 'One of the best books I have ever read'

Traditional Scholars have often looked at African American studies through the lens of European theories, resulting in the

seccundarization of the African American presence in Europe and its contributions to European culture. Blackening Europe reverses this pattern by using African American culture as the starting point for a discussion of its influences over traditional European structures. Evidence of Europe's blackening abound, from French ministers of Hip-hop and British incarnations of "Shaft" to slavery memorial in the Netherlands and German youth sporting dreadlocks. Collecting essays by scholars from both sides of the Atlantic and fields as diverse as history, literature, politics, social studies, art, film and music, Blackening Europe explores the implications of these cultural hybrids and extends the growing dialogues about Europe's fascination with African America.
