From New York Times Bestselling authors Vi Keeland and Penelope Ward comes a new, sexy standalone novel. It all started with a

bet. When my young son inherited half of his great grandfather's historic inn, I decided to move us both to the place where I grew up. Notice I said half of the Inn. The other half now belonged to Levi Miller, the famous quarterback who had other ideas about what we should do with the property. We won't mention that I accidentally injured him during our first meeting, causing him to get eight stitches. You could say we got off on the wrong foot. We bickered a lot as we both moved into the property while we figured things out. He wanted to unload the rundown place which, admittedly, needed a lot of work. I wanted to restore The Palm Inn to its original beauty and re-open it as a bed and breakfast. We couldn't agree on anything. So Levi made me a proposal. One he thought I would surely lose. If I could sell out the place by the time he had to

leave for training at the end of summer, he would back off and let me run it. But in the weeks that followed, we got more than we bargained for while we were living under the same roof. Levi and I got closer, and before I knew it, my nightly fantasies about the brawny Adonis became a reality. Not to mention, he was so great with my son. We were in over our heads in more ways than one. Because not only was he the last man on Earth I should be falling for because of our deal, but Levi was also my ex's older brother. And now the inn was the least of my problems.

The prominent cultural critic Mieke Bal defines the new discipline of 'art writing' as a fresh mode of criticism, which aims to 'put the art first'. Following this definition, "Site-

Writing: The Architecture of Art Criticism" puts the sites of the critic's engagement with art first. The book puts into shape what happens when discussions concerning situatedness and site-specificity enter the writing of art criticism. The sites explored are the material, emotional, political and conceptual settings of the artwork's construction, exhibition and documentation, as well as those remembered, dreamed and imagined. Through five different spatial configurations - both psychic and architectural - "Site-Writing" explores artworks by artists as diverse as Jananne Al-Ani, Elina

Brotherus, Nathan Coley, Tracey Emin, Christina Iglesias and Do-Ho Suh, aiming to adapt such psychoanalytic ways of working as free association and conjectural interpretation to art criticism. Months later, Tiernan Morelli lays red roses on my mother's grave. That same day, he tells me that he is my new guardian. Susan Brownmiller 's groundbreaking bestseller uncovers the culture of violence against women with a devastating exploration of the history of rape—now with a new preface by the author exposing the undercurrents of rape still present today Rape, as author Susan Brownmiller proves in her startling and important book, is not about sex but about

power, fear, and subjugation. For thousands of years, it has been viewed as an acceptable “ spoil of war, ” used as a weapon by invading armies to crush the will of the conquered. The act of rape against women has long been cloaked in lies and false justifications. It is ignored, tolerated, even encouraged by governments and military leaders, misunderstood by police and security organizations, freely employed by domineering husbands and lovers, downplayed by medical and legal professionals more inclined to “ blame the victim, ” and, perhaps most shockingly, accepted in supposedly civilized societies worldwide, including the United States. *Against Our Will* is a classic work that has been widely credited with changing prevailing attitudes about violence against women by awakening the public to the

true and continuing tragedy of rape around the globe and throughout the ages.

Selected by the New York Times Book Review as an Outstanding Book of the Year and included among the New York Public Library ’ s Books of the Century, *Against Our Will* remains an essential work of sociological and historical importance.
