This paper, STEP 3, is the third of three background papers produced to inform the ' Everyone Around the Table: FAO/GAIN Roundtable with Private Sector on Healthy Diets ' series of virtual roundtables which took place in July 2020. As in STEP 1 and STEP 2, the topics covered are relevant to all regions, but where possible a greater focus has been given to low- and middle-income countries. Small and medium enterprises (SMEs) are again a focus, given their role in the food systems of these regions (see STEP 1 for more detail), including their common presence in the food environments of many people living in poverty. STEP 3 (this paper) looks more closely at what it means to go to scale with healthy diets and better nutrition, providing examples and reflections for all stakeholders to consider.

Stepping up could be about taking on your first leadership or management role. It could be about changing your career, or leaving employment to start up on your own. It could be about changing the way you run a team already under your management. Whatever your circumstances, you will face the same issues we all do: changing attitudes, changing technology and our fast-moving rollercoaster of a world. Stepping Up will inspire and equip you to understand and respond to that change and develop your ability to lead yourself and others through it.

Accelerate your organization to win in the marketplace. How can we apply technology to drive business value? For years, we've been told that the performance of software delivery teams doesn't matter that it can't provide a competitive advantage to our companies. Through four years of groundbreaking research to include data collected from the State of DevOps reports conducted with Puppet, Dr. Nicole Forsgren, Jez Humble, and Gene Kim set out to find a way to measure software delivery performance and what drives it using rigorous statistical methods. This book presents both the findings and the science behind that research, making the information accessible for readers to apply in their own organizations. Readers will discover how to measure the performance of their teams, and what capabilities they should invest in to drive higher performance. This book is ideal for management at every level.

Why Some Companies Make the Leap...And Others Don't Oxford University Press

Competition, technology, the economy, and the increasing pace of business are creating unprecedented pressure on business leaders to quickly implement new business plans, with little room for contingencies or failure.

In *Accelerating Business*, a seasoned executive provides tips and recommendations to help companies successfully step up business plan implementation and business change, all while avoiding common pitfalls. Michael Taylor is a member of the Marketing Management Faculty at the Richard Ivey School of Business at the University of Western Ontario, in London, Ontario, Canada, and his past experience includes advising senior executives and extensively studying change management. He combines this core knowledge with his own research, observations, and practical experience in order to share a structured approach the Accelerated Implementation Model (AIM) that will help companies stay ahead of the competition without sacrificing success. Business leaders will learn how to set realistic and achievable objectives, manage risks, empower a culture of change, recognize acceptance and rejection behavior, and attentively manage the implementation.

Managing change can be a complicated endeavor. The expert guidance offered in *Accelerating Business* provides a strong foundation that will give every organization the advantage it needs in today's competitive business world.
