Stick Dog Comes to Town Pebble

The uplifting story of two unlikely mountaineers: a man in late middle age and a fearless pint-sized pup who, together, scale Colorado's highest peaks. By the time life had finished hitting Rick Crandall from all sides, he was at the lowest point of his life, both personally and professionally. Depressed to find himself facing a mid-late-life age crisis and watching his finances crumble as the tech industry bubble burst, he hopes his future isn't headed downhill. It was at this critical juncture in their new marriage that his wife Pamela made an astute and life-changing suggestion: "Let's get a dog." So begins the story of Emme, a 200-pound Saint Bernard trapped in the body of 5-pound Australian terrier puppy. Soon, Emme and Rick hit the hiking trails around Aspen, Colorado. While she is groomed to be a show dog, it's soon obvious that her heart is in the hills and with Rick, who decides to add more challenging hikes to the mix. Before long, they are scaling Colorado's "fourteeners," peaks with altitudes of over 14,000 feet. On one magical day, Emme climbs to the top of four "fourteeners," a quarter of the sixteen such peaks she will complete during her life without once being carried on a trail or on the rocks on the way to a summit. In mountaineering Rick realizes he has found—in his late sixties—his life's new passion. This is where Emme has led him—out of the abyss and to the top of the mountain. She was never really walking behind: she was nudging him along until he found his stride. Even after Rick understood the glory of climbing, it was Emme still doing the leading, until Rick learned how to lead himself.

Cesar Millan—nationally recognized dog expert—helps you see the world through the eyes of your dog so you can finally eliminate problem behaviors. From his appearances on The Oprah Winfrey Show to his roster of celebrity clients to his reality television series, Cesar Millan is America's most sought-after dog-behavior expert. But Cesar is not a trainer in the traditional sense—his expertise lies in his unique ability to comprehend dog psychology. Tracing his own amazing journey from a clay-walled farm in Mexico to the celebrity palaces of Los Angeles, Cesar recounts how he learned what makes dogs tick. In Cesar's Way, he shares this wisdom, laying the groundwork for you to have stronger, more satisfying relationships with your canine companions. Cesar's formula for a contented and

balanced dog seems impossibly simple: exercise, discipline, and affection, in that order. Taking readers through the basics of dog psychology and behavior, Cesar shares the inside details of some of his most fascinating cases, using them to illustrate how common behavior issues develop and, more important, how they can be corrected. You'll learn:

- What your dog really needs may not be what you're giving him
- Why a dog's natural pack instincts are the key to your happy relationship
- How to relate to your dog on a canine level
- There are no "problem breeds," just problem owners
- How to choose a dog who's right for you and your family
- The difference between discipline and punishment

And much more!

Filled with fascinating anecdotes about Cesar's longtime clients, and including forewords by the president of the International Association of Canine Professionals and Jada Pinkett Smith, this is the only book you'll need to forge a stronger, more rewarding connection with your four-legged companion.

Char-grilled or boiled? Sauerkraut or chili? Mustard or ketchup? Vienna Beef or Sabrett? Only these questions could be raised about one of the world's favorite backyard, picnic, ballgame, and street foods—the hotdog. Though nearly two billion hot dogs are consumed by Americans annually in the month of July alone, there is absolutely no consensus on which is the right way to serve up a hotdog. In *Hot Dog*, well known food historian Bruce Kraig recounts the history of this popular “tube steak” from the origin of the sausage 20,000 years ago to its central place in American culture today. Kraig discusses the many brands, including Hebrew National, Pearl, Sabrett, and Vienna Beef, and the regional variations that go along with them—like kosher-style New York dogs loaded with mustard and sauerkraut, New England dogs with Boston Baked Beans, and fully-loaded Chicago style hotdogs, complete with mustard, onion, relish, sport peppers, a dill pickle spear, a dash of celery salt, and tomato slices (but never, ever ketchup). *Hot Dog* covers the other international sausages, like bologna and bockwurst, as well, and explores some of the apocryphal tales of the hotdog in history—like the origin of its name and whether Queen Elizabeth II was truly served hotdogs on a visit to the White House. Packed with tasty facts and recipes, *Hot Dog* reveals the rich history and passionate opinions about this seemingly ordinary food.

From the #1 bestselling author of *Inside of a Dog*—“an incredible journey into the olfactory world of man's best friend” (O, The Oprah Magazine), Alexandra Horowitz's follow-up to her New York Times bestseller explains how dogs experience the world through their most spectacular organ—the nose. In her “fascinating book...Horowitz combines the expertise of a scientist with an easy, lively writing style” (The New York Times Book Review) as she imagines what it is like to be a dog. Guided by her own dogs, Finnegan and Upton, Horowitz sets off on a quest through the cutting-edge science behind the olfactory abilities of the dog. In addition to speaking to cognitive researchers and smell experts, Horowitz visits detection-dog trainers and training centers; she meets researchers working with dogs to detect cancerous cells and anticipate epileptic seizure or diabetic shock; and she even attempts to smell-train her own nose. As we come to understand how rich, complex, and exciting the world around us is to the canine nose, Horowitz changes our perspective on dogs forever. Readers will finish this book feeling that they have broken free of their human constraints and understanding smell as never before; that they have, for however fleetingly, been a dog. And, as The Boston Globe says about *Being a Dog*, “becoming more doglike, not surprisingly, can make anyone's life a little more vivid.”
