**Stihl Leaf Blower: Model BR 400
Parts & Repair Help ...**

I found a service manual on
eBay. It has turned out to be
very useful. I finally found
out what the difference between
the BR320 and BR400. The BR320
has a 41mm bore -- the BR400
has a 46mm bore. The stroke is
the same on both, giving a
displacement of 44.9cc and
56.5cc. So, the only difference
parts-wise is the cylinder and
piston.
