Legacies are not easily built. They take dedicated individuals who are willing to risk everything, work hard, and be examples of excellence. The eclectic group of pioneers who laid the foundation for Stihl's success in America could not have been more different from each other. But they shared the common drive and character that has proven the test of time. Stihl American features the amazing stories of these pioneers, including:

- A descendant of Daniel Boone ' s sister who first sold Stihl saws in America during the 1930s.
- A Jersey boy who, after fighting his way across France and Germany, found himself near the spot where the chainsaw was invented. Twenty years later he secured a one-page contract to sell Stihl in North America.
- A young Native American boy, orphaned during the Osage Reign of Terror, who grew to be an Osage Indian Chief and introduced Stihl to loggers in the Rockies.
- A rambunctious Missourian, who, after a stint with the OSS flying B17 bombers during WWII, assisted her husband to establish Stihl in the high plains.
- An Arkansas lawyer, who, after losing an eye during the apprehension of a mass murderer, partnered with a timber buyer and introduced Stihl to America's Southwest.
- A lefty from Ohio, scouted by baseball ' s legendary Eddy Stanky, who chose to introduce Stihl to New England rather than play professional baseball.
- The husband of a former Miss New Hampshire who had the entire United States as his sales territory and became the first Man of Stihl in America.
- A piano player from a tiny town in Missouri who became Stihl's largest independent distributor.
- A Canadian born Scotsman who started as a low-level Stihl employee and eventually rose to the position of president, leading the company to decades of record-setting sales. This is the exemplary heritage of STIHL in America!

In her own singularly beautiful style, Newbery Medal winner Sharon Creech intricately weaves together two tales, one funny, one bittersweet, to create a heartwarming, compelling, and utterly moving story of love, loss, and the complexity of human emotion. Thirteen-year-old Salamanca Tree Hiddle, proud of her country roots and the "Indian-ness in her blood," travels from Ohio to Idaho with her eccentric grandparents. Along the way, she tells them of the story of Phoebe Winterbottom, who received mysterious messages, who met a "potential lunatic," and whose mother disappeared. As Sal entertains her grandparents with Phoebe's outrageous story, her own story begins to unfold—the story of a thirteen-year-old girl whose only wish is to be reunited with her missing mother.

Postharvest losses of fresh produce have always been an obstacle in agriculture. About one third of global fresh fruits and vegetables are lost because their quality has dropped below an acceptance limit. The postharvest quality and shelf life of fresh produce are also determined before harvest. However, postharvest quality is also affected by many practices during and after harvest such as temperature management, controlled and modified atmosphere, coatings, physical treatments, biocontrol, and more. This Special Issue on " Postharvest Disease Development: Pre and/or Postharvest Practices " gathers papers that deal with preharvest and postharvest factors that affect and maintain fresh produce quality after harvest.

#1 NEW YORK TIMES BESTSELLER • A young woman is caught up in a dangerous double life on behalf of her country during World War II in Danielle Steel ' s thrilling new novel. At eighteen, Alexandra Wickham is presented to King George V and Queen Mary in an exquisite white lace and satin dress her mother has ordered from Paris. With her delicate blond looks, she is a stunning beauty who seems destined for a privileged life. But fate, a world war, and her own quietly rebellious personality lead her down a different path. By 1939, Europe is on fire and England is at war. From her home in idyllic Hampshire, Alex makes her way to London as a volunteer in the First Aid Nursing Yeomanry. But she has skills that draw the attention of another branch of the service. Fluent in French and German, she would make the perfect secret agent. Within a year, Alex is shocking her family in trousers and bright red lipstick. They must never know about the work she does—no one can know, not even the pilot she falls in love with. While her country and those dearest to her pay the terrible price of war, Alex learns the art of espionage, leading to life-and-death missions behind enemy lines and a long career as a spy in exotic places and historic times. Spy follows Alex ' s extraordinary adventures in World War II and afterward in India, Pakistan, Morocco, Hong Kong, Moscow, and Washington, D.C., when her husband, Richard, enters the foreign service and both become witnesses to a rapidly changing world from post-war to Cold War. She lives life on the edge, with a secret she must always keep hidden.

Manufacturing forms the base of the Japanese economy and will continue to do so. It is supported by a host of specialists both in end-user products and intermediary components. Many of these specialists are not behemoths; they can be described as leading medium-sized enterprises, or LMEs. This book traces the rise of these LMEs. It shows how they forged their own course - often at variance with the ideas of the central authorities - honing their art of monozukuri, or making things. At each point in the historical narrative actual entrepreneurs and the LMEs they created are cited. Having contributed handsomely to Japan's industrial evolution from industrialization to the information age, these LMEs are now globalizing, and in so doing assuming a role as East Asian regional specialists.

Read James Wesley, Rawles's posts on the Penguin Blog In the vein of Sam Sheridan's The Disaster Diaries, a comprehensive guide to preparing for the apocalypse! With the recent economic crisis, formerly unimaginable scenarios have become terrifyingly real possibilities- learn how to prepare for the worst Global financial collapse, a terrorist attack, a natural catastrophe-all it takes is one event to disrupt our way of life. We could find ourselves facing myriad serious problems from massive unemployment to a food shortage to an infrastructure failure that cuts off our power or water supply. If something terrible happens, we won't be able to rely on the government or our communities. We'll have to take care of ourselves. In How to Survive the End of the World as We Know It, James Rawles, founder of SurvivalBlog.com, clearly explains everything you need to know to protect yourself and your family in the event of a disaster-from radical currency devaluation to a nuclear threat to a hurricane. Rawles shares essential tactics and techniques for surviving completely on your own, including how much food is enough, how to filter rainwater, how to protect your money, which seeds to buy for your garden, why goats are a smart choice for livestock, and how to secure your home. It's the ultimate guide to total preparedness and self-reliance in a time of need.

This is the first English-language book dedicated to Brazilian sand flies and their medical importance. No other country has so many species of these haematophagous insects as Brazil and their diversity has reached an astonishing level. The book contains comprehensive chapters, written by Brazilian experts on their regional distribution, their ecology and their importance as vectors of pathogens and parasites. Methods for sampling, processing and preserving phlebotomines are reviewed as are perspectives on surveillance and leishmaniasis vector control. A novel classification is presented whose aim is to help investigators identify the species that they are working with more efficiently.

A memoir by the mustachioed baseball pitcher who went playing rocky, trash-ridden fields in Castro ' s Cuba to becoming a Boston Red Sox legend. Luis Tiant is one of the most charismatic and accomplished players in Boston Red Sox and Major League Baseball history. With a barrel-chested physique and a Fu Manchu mustache, Tiant may not have looked like the lean, sculpted aces he usually played against, but nobody was a tougher competitor on the diamond, and few were as successful. There may be no more qualified twentieth-century pitcher not yet enshrined in the National Baseball Hall of Fame. His big-league dreams came at a price: racism in the Deep South and the Boston suburbs, and nearly fifteen years separated from a family held captive in Castro ' s Cuba. But baseball also delivered

World Series stardom and a heroic return to his island home after close to a half-century of forced exile. The man whose name— “ El Tiant ” —became a Fenway Park battle cry has never fully shared his tale in his own words, until now. In Son of Havana, Tiant puts his heart on his sleeve and describes his road from torn-up fields in Havana to the pristine lawns of major league ballparks. Readers will share Tiant ’ s pride when appeals by a pair of US senators to baseball-fanatic Castro secure freedom for Luis ’ s parents to fly to Boston and witness the 1975 World Series glory of their child. And readers will join the big-league ballplayers for their spring 2016 exhibition game in Havana, when Tiant—a living link to the earliest, scariest days of the Castro regime—threw out the first pitch.
