This design-savvy paperback uses beautiful photography of exploded and deconstructed objects to conjure the childlike joy of taking something apart to see how it works. In *Things Come Apart*, fifty design classics—arranged by size and intricacy—are beautifully displayed, piece by piece, exploding in midair and dissected in real-time, frame-by-frame video stills. Welcome to Todd McLellan's unique photographic vision of the material world. The new paperback edition of the best selling *Things Come Apart* comes equipped with a fresh, design-savvy package, and includes five new projects that reveal the inner workings of some of the world's most iconic designs. From SLR camera to mantle clock to espresso machine, from iPad to bicycle to grand piano, every single component of each object is made visible. In addition to showcasing the quality and elegance of older designs, these disassembled objects show that even the most intricate modern technologies can be broken down and understood. Stunning photography is interspersed with essays by notable figures from the world of restoration, DIY, and design innovation, who discuss historical examples of teardowns, disassembly, and reverse engineering. *Things Come Apart* conjures the childlike joy of taking something apart to see how it works, and will appeal to anyone with a curiosity about the material world.

Once you're familiar with Will Malloff's method of chainsaw

lumbermaking, you'll be simply and economically turning trees into lumber on your own Learn how to select the tree you want, fell it safely, and saw it into a fine pile of building or cabinet lumber. With detailed instructions and over 400 photographs, Will Malloff tells you everything you need to know to turn a chainsaw into a lumbermill, including how to: Modify the chainsaw and make numerous accessories for milling Use the equipment in the woods Grind a smooth-cutting ripping chain Build your own mill from a 2 x 4 and scraps of plywood Cut burls, shape ovals and mill natural knees for boatbuilding Malloff's method is the fruit of over 30 years' experience of felling trees and making lumber. He's logged everything from giant redwoods to desert mesquite and fulfilled his youthful ambition to fell timber in every major forest of North America. Drawing on this experience, he has invented several chainsaw mills, and perfected the easy, efficient method of chainsaw lumbermaking that he describes in this book. If you've ever had trouble finding the lumber you need, or wanted to build something with your own trees, "Chainsaw Lumbermaking" is the book you've been waiting for. Will Malloff has built a variety of mills and is the designer of what many consider the most effective chainsaw lumbermaking system available. Malloff has spent nearly half a century researching and developing tools and wood technology that minimize ecological impact. In an endeavor to build his own blacksmith shop on a Canadian Pacific island, he invented a state-of-the-art ripping chain, which made chainsaw lumbermaking more feasible and economical than ever before. By studying the work of hundreds of the most original and effective business minds, the authors present a common architecture that illuminates exceptional analysis and creative performance. 2 x 2 Thinking is characterized by a fundamental appreciation for the dynamic and complex nature of business. The best strategists go out of their way to tackle dilemmas rather than merely solve problems. They use opposition, creative tension, iteration and transcendence to get to the heart of issues and involve critical others in finding the best solutions. The authors demonstrate how to apply the 2 x 2 approach to a wide range of important business challenges.
